

CASE makes Best in 1912 Wins Gold Medal for Steam Engine

These Steam Engines broke all Winnipeg Records and were awarded diplomas instead of Gold Medals, because no manufacturers dared to compete in these classes against Case.

WE have stated in the past that there could be no close competition between Case Engines and those of other makes. When Case competes, it is only against its own records. The truth of these statements is made doubly apparent by the 1912 contest; the nearest competitor in 1912 used 60% more coal per acre than Case. The best competitor's record in 1911 shows over 90% more coal used per acre than Case used in 1912. These results prove conclusively the dominance of the Case Steam Engine and the wisdom of the Case policy in continuing its progress in perfecting and refining the Steam Engine. Thus it has been proven by every possible test that the Case Steam Engines in competition and in every-day performance stand in a class by themselves. Here are shown the results of the 1910, 1911 and 1912 Winnipeg contests tabulated for easy comparison of the Steam Engines in different classes. The figures are official and speak for themselves.

Summary of Brake and Plowing Tests in 1910, 1911 and 1912 Winnipeg Contests for Steam Engines

	Coal Required to Drive 10 H.P. for 10 Hours	Coal Required to Plow One Acre
Entrant No. 13-1910	416 lbs.	906 lbs.
Case 75 H.P. No. 14-1910	359 "	746 "
Entrant No. 15-1910	362 "	832 "
Case 110 H.P. No. 16-1910	304 "	716 "
Entrant No. 17-1910	407 "	817 "
Entrant No. F26-1911	557 "	1206 "
Entrant No. F27-1911	500 "	1206 "
Entrant No. G28-1911	399 "	1490 "
Entrant No. G29-1911	387 "	1900 "
Entrant No. G30-1911	462 "	2080 "
Entrant No. G31-1911	452 "	2066 "
Case 80 H.P. No. 26-1912	279 "	644 "
Case 110 H.P. No. 27-1912	301 "	660 "
Entrant No. 29-1912	423 "	1004 "

14 Steam Engines were exhibited at the Winnipeg Fair-grounds, entered by 8 manufacturers. Why weren't they entered in the contest? Because their makers knew that they would have no chance to even make a creditable showing against the Case Engines.

The Winnipeg Motor Contest is International, under supervision of the Canadian Government and open to all Manufacturers of Farm Power Machinery

The remarkable performance of the Case 40 H. P. Gas Tractor at the Winnipeg contest is more evidence of the Absolute Protection afforded by the Case Policy.

It has always been the Policy of the Case Company to do their experimenting at their own expense—not at the expense of the customer. Before a machine or improvement is allowed to go on the market under the Case name, it is tried out time and again by the severest tests that can be devised—subjected to strains and conditions far more severe than will ever be encountered in actual every day use—so that when we are finally satisfied to put the name "Case" on anything, you know beyond all question of doubt that you can safely bank on everything we claim for it.

The Case Gas Tractor is the result of 20 years of experimenting in the Case Laboratories and in the Field. It is backed and guaranteed by the 70-year reputation of the Case Company as builders of Reliable Machinery. Therefore, when we placed it on the market, we knew it was "right" down to the smallest detail of its construction.

Every Case 40 Gas Tractor is an exact duplicate of the one that won the Gold Medal at Winnipeg. They are on exhibition at all our Branch houses as well as the Case 60 H. P. Oil Tractor. Call at our nearest branch house and have them explain it to you, or if you can't do that, write us at once and we will mail you complete specifications and other information of vital interest.
