Mant (The late Thos.), *Major under General Sir Guy Carleton,*
THE NAVAL and MILITARY HISTORY of the WARS OF ENGLAND, from the Invasion
to the Termination of the Late War, including the Wars of Scotland, has 160
portraits of politicians and warriors, plans of battles, etc, appears to lack some 8

to have been bound in the work, but includes, we notice, those of Washington,
Wolfe and others, 8 vols, 8vo, half calf, 15.75, London, *Sine Anno* [1807.] 2

The above work being even more RARE than "The History of the Late War in North America," by the same author, and which is worth some thirty or forty pounds. The work above comprises "an accurate and lively description of the Sieges, Battles, Bombardments, Sea Engagements, Expeditions and extensive CONQUESTS of the BRITISH ARMS in all quarters of the Globe, with a variety of interesting and extraordinary anecdotes of military skill and intrepidity, heroic adventures, brilliant exploits, martial achievements and memorable actions of the British warriors, calculated to inspire the rising generation with magnanimity and virtue, and to impress on their minds the generous ardour and noble emulation of their ancestors."
