The March Barron, B., William and S. (1997). A proper to the proper to t

Ireland, as it would encourage a giasnite system of absent eism. Uatil a Home Rule measure was carried nothing ought to be done toward land purchase.

Sir George Otto Trevelyan, Libersi, warned the House that if it assented to the Bill is would not be able to stop further grants and it would soon be called upon and compelled to advance millions. Among the dangers of the Ashbourne Act, not the least was that it committed the British taxpayer to a system of isandlord purchase which gave no good security for advances and which left the tenant in a position to repudiate if bad years rendered him unable to pay his instalments.

Ou motion of Mr. Parnell, the debate was adjourned.

Mr. Gladatone leaves London on Saturday for Hawarden. He will not return to London during the present session of Parliament.

Losnon, Nov. 23.—In the House of Commons this evening Mr. Smith moved that the rule compelling adjournment as midnight be again suspended to enable the House to conclude the debate on the Irish Land Parchases Bill. Carried, 195 to 159.

Mr. Parnell proposed an amendment giving the Government power to instruct the Land Commission to deal with arrears strong to themselves.

The Bill passed the second reading by a vote of 299 to 224.

Mr. Parnell has given notice that he will my verhant leaves when fixing indicial rents.

Sir William Vernon Harcourt, in the course of the debate, criticized the Government would find when they had to render an account of these advances to the country that they had never made a proposal more damaging or dissatures to the meleive.

Mr. Parnell proposed an amendment giving the Government power to instruct the Land Commission to deal with arrears here in the proposal and amendment giving the Government power to instruct the Land Commission to deal with arrears to the country that they had never made a proposal more damaging or dissatures to the meleive the Country that he

Mr. Parnell proposed an amendment giving the Government power to instruct the Land Commission to deal with arrears when fixing judicial rents. He urged that in view of the fact that it was agreed on all sides that the arrears question must necessarily be settled, it ought to be dealt with without delay in conjunction with the question of land purchase. This done, it would place the tenant in a position to contract freely with the landlord, protect the exchequer against loss, and give the Ashbourne act the best possible chance to work with smoothness.

Kanasa Jail.

A Hutchinson, Kan., despatch says: The two female horse thieves escapied from jail last night. The Sheriff of Hamilton County was in Newton, Kan., on other business, and had left the keys to the jail in a hotel. Some one got the keys, let the thieves out and then returned the keys. It is six weeks since these daring "Queens of the Road" earned extended notoriety by their bold attempt to steal a vehicle and team of horses. They had been stealing horses for a year, having run off with thirteen. The girls are of a dashing type, both blondes and handsome. Ida says she is the daughter of a Philadelphia minister, and Emma claims to be the daughter of a wholesele clothing desler in Boston. They stood confinement in the little Western jail with an assumption of "don't care" which would have done honor to the most hardened frontier horse thief.

Lieut. Col. Buller, commanding the 2nd Battalion Rifis Brigade, was fatelly injured at Woolwich on the 8th inst. by stepping out of a railway carriage on the line in-stead of on to the platform. Col. Buller served with distinction in the Zulu, and Egyptian wars.

PARNELL AND CHURCHILL TROUBLE AMONG THE IRISH.

on the part of either landlord or tenant? (Hear, hear) As a financial operation the Bill certainly was not good enough. The security for advances was totally insuffi-

A DEEADFUL ACCIDENT.

the Land Commission to deal with arrears when fixing judicial rents. He urged that in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact that it was agreed on all in view of the fact with the landlord, protect the exchequer against loss, and give the Abbourne Act the best possible chance to work with smoothness.

Mr. Bmith contended that the course which Mr. Parnell proposed would place which Mr. Parnell proposed would place which Mr. Parnell smotiony worse position than before, by recognizing arrears as a charge that might continue to hang around his neck even after completing his purchase. Now, after a contract for purchase had been agreed upon, the arrears became ipse facte wiped out.

Mr. Dilion held that the mischief of arrear occurred before the agreement for purchase was signed.

Mr. Parnell's motion was rejected by 182 to 148.

Two Girl Horse Thleves Escape from a morrow.

To Buy Canada.

Te Buy Canada.

A Detroit despatch says: An Indianapolis despatch to a semational evening paper says an inimate friend of Gen. Harrison says he, like all Presidents, will desire to do something that will give his Administration a prominent place in the history of his country, and he has reason to believe that one of his first official acts will be the negotiation for the annexation of Canada. The General believes the United States can and should receive Canada in this manner. His idea is that the territory can be annexed to the United States by assuming Canada's debt. If the territory cannot be assumed for that consideration, Gen. Harrison would favor paying a considerable bonus. It is understood he has said privately that the surplus in the treasury could not be spent in a better manner than by buying Canada. He heartly approves such a move, and will so recommend in his first messaye to Congress.

There is an in the surplus in the treasury could not be spent in a better manner than by buying Canada. He heartly approves such a move, and will so recommend in his first messaye to Congress.

recommend in his first message to Congress.

There is said to be kindred blood in the veins of Jefferson Davis and Gen. Harrison, the new President of the United States, resulting from numerous intermarriages between the Harrison and Davis families.

Mr. Wilfrid Blunt is about to publish a volume of patriotic songs written in Galway jail.

She Fooled with Kerosene.

A special from Geneva, N. Y., tells the following story: Mrs. Carl Bardeck kindled a fire this morning. It did not burn fast enough and she poured kerosene oil cn the fiame. The result was an explosion which scattered the burning oil in every direction. The husband and three children, who were sleeping in an adjoining room, were awakened. Mr. Bardeck became so frightened that he mistook a window for the door and dashed through it, cutting himself in a horrible manner. The family were finally rescued after being terribly burned. The woman will die. She Fooled with Kerosene.

The witness then denied that the Times had employed him.

On re-direct examination by the prosecution, the witness stated that no case of bogue currage had ever been returned by the police as a real currage.

It is announced that Messrs. John O'Connor, Finucane, Sheehy, Mayne, Condon, Patrick O'Brien and Tanner, all members of the Irish Nationalist party in the House of Commons will be prosecuted in timidating renters of evicted farms.

In the House of Commons this evening Mr. Sexton asked whether it was true that seven Irish members were about to be prosecuted, and if so, whether there was any relation between the prosecution and the delay in the debate on the Irish estimates. If there was not, he asked if Mr. Smith, the Government leader, would give the assurance that the members would not be withdrawn from their Parliamentary duties until the estimates were settled.

Mr. Smith denied having any knowledge of the prosecution. He certainly desired the members to remain until the estimates were settled.

The father is crazed with grief.

IT WILL TOLL NO MORE.

St. Sepulchre's Bell Has Rung for Condemned Prisoners for Three Centuries.

The traditions of nigh three hundred years are about to be violated by the Oharity Commissioners of the city of London, who have ordered that hereafter the bell of the Church of St. Sepulchre be no more tolled during the hanging of condemned persons in the Newgate prison near by; or, at least, that if the bell be tolled, it be at the expense of the parish or the friends of the oriminals, and that the fund from which payment for that last service to the dying has been made since 1605 be devoted hereafter to some other charitable purpose in the discretion of the church authorities. Fifty ponds was the bequest made in the year named by Robert Dowe, citizen and merchant tailor, to pay, as a tablet on the right hand side of the altar in the church still records, "for ringing the greatest bell in the church condemned prisoners are executed, and for other services "were the most interesting thing about the affair. On the night before the hangings the clerk of the church had to ring a bell under the windows of the cells of the condemned men, and having thus strated their attention, repeat certain warning rhymes appropriate to their approaching taking off. Having thus wave to year, and the next morning to stand in front of the church when the cast with the condemned to the condemned to the condemned to the church when the cast with the condemned to the condemned to the church when the cast with the condemned

ing the greatest bell in the church on the day the condemned prisoners are executed, and for other services forever concerning such condemned prisoners."

The "other services" were the most interesting thing about the affair. On the night before the hangings the clerk of the church had to ring a bell under the windows of the cells of the condemned men, and having thus attracted their attention, repeat certain warning rhymes appropriate to their approaching taking off. Having thus awakened in their bosoms thoughts of things eternal, he was to go away, and the next morning to stand in front of the church when the cart with the condemned passed on its way to Tyburn and to present to each oriminal a nosegay. Then he had again to ring the bell that he had used the night before and repeat certain prayers, with an adjuration to all good people to join him in beseeching mercy for the souls of the condemned. There were hangings every week in those days, and in order that the clerk might not grow careless and neglect to fulfil these last offices for the condemned with proper formality and unction, the beadle of the Merchant Tallors' Hall was directed to be present and supervise the ceremonies, and it was provided that for this he should receive an "honest stipend."

When the gallows tree was removed from Tyburn and hanging took place within the jail, the nosegay presentation and the praying in front of the ohurch were dropped, and in time the custom of belling ringing and exhortation under the cell windows feli into disuse. The tolling of the great bell, however, has always been maintained, and there is some objection to its discontinuance even at this day. The original £50, meantime, has grown to a much greater sum, and its income will now, probably, be devoted to the aiding of deserving prison ers upon their release from Newgate, or to some other service more in accord with modern ideas than the mournful tolling of a huge bell or the presenting of posies to criminals on their way to be hanged. So identified has she Chu

"We can be able and the control of t crooked hind legs—in a word, 'good before but had behind the saddle.' On the other hand, they are good tempered and quiet, can live on what they pick up or a little cat-cake, and san do long journeys on very had roads in the hottest weather without showing signs of 'service.' In Basuto Land the animals are a little better, but they are duly cobe, and yet they can cover 60 to 80 miles a day, carrying 180 to 196 lbs. So we cannot look to the Cape for horses for other than mounted infantry work, and the field is therefore all the more open for American breeders. I have on previous occasions said so much in detail of what our army requirements are, that it is needless to again occupy space with it." The TIMES has repeatedly pointed out the advantages to Canadian farmers and others in bree ting horses for military purposes in foreign countries. Canada can become the source of supply if the farmers give it proper attention and breed their strong general purpose marcs to thoroughbred horses.

A Cure for Coquetry.

"Don't look at me like that," she ex "Don't look at me like that," she ex-claimed coquettishly to the young man who was looking mutterable things into her eyes. "It isn't pretty."
"On the contrary," protested he, "I assure you I never saw anything more lovely in my life."
And she believed he meant it.—Somerville Journal.
