And other childish joys;
see again the master's rule,
the desk with names out deep
ty hands that now are cold and still,
Stilled by eternal sleep.

I see again a maiden
With eyes so soft and brown—
You would never hear a childish word,
You would never see her frown,
But with gaze that meets you frankly
Andwith quiet smile serene?
She wears with royal honors
Her crown as Nature's Queen.

Now they all come gliding Out from the past dim aisles, And each one bears a burden— Some tears and some of smiles; And now they stand around me A silent, spectral throng, And sing a requiem of the past, A sweet, though sad, sad song.

But, silently as they appear,
They silently move on—
The present holds once more the song,
The phantom band are gone
Into the future's mist and dark,
Into the great beyond,
They, silent, nod a sad farewell—
I silently respond.

Farewell to you dear phantoms, I bid a fond adieu, We'll soon be reunited Beyond the yaulted blue; Then we'll commune together And talk of days of yore, And greet with hearty hand-clasps Our friends as they come o'er.

RNDEAVORERS' CONVENTION.

The convention of the Epworth Leagues and Christian Endeavor Societies of Leeds, Grenville and Dundas, Thursday of last week, was in every respect a pronounced success. The various local committees had done their work faithfully and well, so that when the long expected opening day at length arrived everything was in readi-

ment of their guests.

Very few people have any conception of the deadly effects of la grippe or influenza, which with each recurring a winter sweeps over Canada leaving in its trail death and broken constitutions. If an equal number of deaths were caused by cholera, the whole continent would be in a panic, and it is only because the deadly effects of la grippe are not understood that its upproach is viewed with less apprehension.

Dr. Bryce the very efficient health officer for Ontario, in his annual report to the provincial government shows that the deaths in Ontario alone from the effects of la grippe for spears 1892 93 94 reached the aggregate of 2,023, a number sufficiently large to make us view the scourge with positive alarm, for in addition to this mortality, there are beyond doubt thousands who from the same cause are left.
