THE LADIES' PAPER.

Thursday's issue of our esteemed contemporary was a unique and admirable one. It was prepared and gotten out by the ladies of the Maple City in aid of the Public General Hospital funds and was a credit to its fair managerial and editorial staffs. The publication was known as the "Ladies' Edition," and received a deservedly large patronage. It was a twenty-page paper brim full of interesting, instructive and entertaining reading matter from the busy and accomplished pens of its fair contributors. Every department was admirably handled and the special articles included were highly pleasing. The business end of the enterprise was also well cared for and a large and representative collection of display advertisements did much towards making the paper the splendid financial success it is proved.

The Planet most heartily and sincerely congratulates the ladies upon their capital paper. The task of preparing and publishing the edition was not a light one to be undertaken by them, but it has been accomplished with the same indomitable energy, earnest enthusiasm and substantial success that has characterized all their efforts.

The Planet extends cordial eulogies to all the ladies and also congratulates the visiting evangelists and the publishers of our contemporary on their association with so fine and successful a paper.

EASTER.

To-morrow will be Easter Sunday. Day of days in the Christian Calendar. It is the anniversary of the most momentous event in the world's history, marking the dawn of the era which ushered in Christ and Christendom. Hallowed by supreme sacred and solemn associations, Easterday is essentially a church festival—a day of pious peace and reverent joy. And yet aside from its holy memories, though still indissolubly linked therewith, are its social aspects, which makes Easter tide welcome the whole world over, without distinction of class or sect, or doctrine, or church fellowship or we had almost said, religion at all.

At Easter and Christmas the Fatherhood of God and Brotherhood of Man is more generally exemplified than at any other time in the year; and whether the exemplification comes from religious precept or be instinctively the product of the atmosphere of good will and heartiness which which all inhale, it is a powerful factor in the promotion of that charity and human kindness in the spread of which lies the betterment of society, the amelioration of the human lot, the hope of the race. The knowledge of God and His purposes in creation is more easily imparted to an enlarged heart and extended sympathies. Man reconciled to his fellows is more easily reconciled to his Maker. Easter sentiment, therefore, may indeed be cultivated as an aid to the progress of God's Kingdom on earth. The kindly words said and the good acts done are finger-posts to the way of Right and Truth:

I count this thing to be grandly true,
That a noble deed is a step toward
God,
Lifting the soul from the common
clod
To a purer air and a broader view.

THE DOWSLEY BY-LAW.

At present writing the probabilities are that the Dowsley by-law has been defeated by a small margin as the result of the meagre turnout of voters, although, it is said, that the promoters will make further legal enquiry with a view to securing a definite solution to several technicalities.

If the by-law has gone under it is a regrettable circumstance, not alone because the Maple City will lose a large commercial industry, but because off the future effect the vote will have on the industrial development of the community.

The vote polled certainly gives ample testimony to the pulse of the people upon the measure, and, if it is defeated, as feared, we cannot help thinking that the responsibility largely rests in lack of publicity and free and frank intercourse with the ratepayers. We trust it may prove a lesson,—if, indeed, a costly one—to the head of the Industrial Committee and that the unfortunate outcome of this enactment may lead in future to the extension of greater public confidence, more general publicity, and the burying of all private pique for civic prosperity by us all.

"WITH THE GUNS."

Lieut. E. W. B. Morrison, the talented editorial writer of the Ottawa Citizen, and one of the best known and most entertaining Canadian newspaper contributors has just issued from the Hamilton Spectator press his remarkable book, "With the guns in South Africa." It is made up mainly of the graphic, interesting and instructive letters sent from the front.

An Honest Tired Feeling

There is an "honest tired feeling," caused by necessary toil and cured by natural rest.

But very different is "that tired feeling," from which so many complain and which may even be classed as a disease.

That tired feeling takes you to bed tired and wakes you up tired.

You have no appetite, have bilious taste, dull headache, are nervous and irritable, blue, weak and discouraged.

In such conditions Hood's Sarsaparilla does a world of good.

It begins in the right place—in the blood, purifying it and imparting vitality, then its tonic effect is felt by the stomach, kidneys and liver; appetite comes back, all waste is removed naturally, headaches cease, that tired feeling departs and you feel like a new person.

This has been the experience of thousands.

It will be yours if you take

by Lieut. Morrison, and published in the Hamilton Spectator and the Ottawa Citizen. These letters have been amended, elaborated and added to in order to make a complete and consecutive narrative of the war experience of D battery and particularly of the left section of the battery, which Lieut. Morrison commanded. Morrison's letters differ vastly from the bulk of the war correspondence with which they give the reader a picture of Africa, the Boers and the war as seen through a pair of particularly observant Canadian eyes, set forth in language which cannot be misunderstood by the reader who has not the slightest knowledge of military phraseology and technicalities. Moreover, Morrison's letters go into interesting details of the life of the Canadian soldier in Africa, which gives the reader a perfect knowledge of the conditions under which our brave boys served, how they accomplished their work, and how they came out of it, rich in experience and with plaudits of the civilized world ringing in their ears.

Although it had not the luck to take part in any of the great engagements of the war, Morrison's command saw a great deal of lively service, did magnificent work, displayed great bravery and coolness and won the highest praise.

The story is well told, in an interesting style, and will be found entertaining throughout. The pictures give the appearance of the book is all that could be desired.

It is a work which should find a place in every Canadian household, and the Planet will be much disappointed if "With the Guns in South Africa" does not sell with a rush.

BLOOD

We live by our blood, and on it. We thrive or starve, as our blood is rich or poor.

There is nothing else to live on or by.

When strength is full and spirits high, we are being refreshed, bone muscle and brain in body and mind, with continual flow of rich blood.

This is health.

When weak, in low spirits, no cheer, no spring, when rest is not rest and sleep is not sleep, we are starved; our blood is poor; there is little nutriment in it.

Back of the blood, is food, to keep the blood rich. When it fails, take Scott's emulsion of cod-liver oil. It sets the whole body going again—man woman and child.

We'll send you a little to try, if you like.
