The Current.

The currant of commerce is said to be one of the most nutritious forms of food, a pound of the little berries from Greece containing more than three times as much actual nourishment as the same weight of lean beef. "Currants," says one authority, "should really be eaten every day. They contain all the beneficial properties of the apple, but in greater proportion." The ost important fact connected with

apple, but in greater propertion." The most important fact connected with them is that they supply the body with muscle building and nerve sustaining material in a form ready for speedy digestion and assimilation.

WHY SUFFER FROM RHEUMATISM!

Why suffer from rheumatism when one application of Chamberlain's Pain Balm will relieve the pain? The quick relief which this ilimiment affords makes rest and sleep possible, and that alone is worth many times its cost. Many who have used it, hoping only for a short relief from suffering, have been happily surprised to find that after a while the relief became permanent. Mrs. V. H. Leggatt, of Yum, Yum, Tennessee, U. S. A., writes: "I am a great sufferer from rheumatism, all over ffrom head to foot, and Chamberlain's Pain Balm is the only thing that will relieve the pain." Sold by all druggists.

> Actuarial Evidence Offered Before Royal Insurance Commission - Witness Gives Basis For Calculating Profits Accruing to Policies-mothods Not Always Scientific - Policyholders' Profits Affected by New Business.

Newmarket, Ont., April 30.—(Special.)—The case reported below is another of the many thousands of instances of Dodd's Kidney Pills come of the many thousands of instances of Dodd's Kidney Pills on me any good. Then a neighbor told me for Dodd's Kidney Pills and advised me to try them. I did so and after taking six boxes I am entirely cured."

Toronto, May 4—Technicalities reigned supreme yesterday at the insurance investigation. Mr. Papps, the actuary, was in the box all day. He and Mr. Shelpey discussed the change in reserve places of reserve, and whether and during what periods the change in reserve would affect the profits exclusive of the fact that profits have been used to profite for the greater reserve. Then counsel went at length into the vast difference between the estimated profits and the results actually obtained. This difference was rather startling. The excess of estimates over results on some plans and at some ages, during different periods, ranged from 50 per cent. to 300 or 400 per cent. That is, the estimated profits, as shown in the company's advertising literature of some years ago, were sometimes double and sometimes three or four times the results actually realized. The estimates as given in the agents' rate books, which were revised from time to time, were reduced at every revision. Certain methods of computing and distributing profits were still in force which had been inherited Toronto, May 4-Technicalities reigncomputing and distributing profits were still in force which had been inherited from the old companies. distribution, and that for the last year the investigation had been going on, was a statement that had been made in Ottawa, and was re-affirmed by Mr. Papps yesterday. Mr. Shepley went into the method of this investigation in detail.

Law as a Ramedy.

Mr. Shepley drew the attention of the witness to the legislation arising out of the recent investigation in the State of New York. Its intention was to forbid the issuing of papers setting forth lists of profits, etc., which were not accurate; such action was made a misdemeanor. Mr. Papps thought such law would serve as a remedy against false statements. It would make a man more careful.

things are being planned for him, including a Government position, and a civic reception.

A big mass meeting was held in the board of trade rooms last evening to make arrangements for the reception. Mayor Biggar presided, and nearly all the alderman were present. The mayor promised to call a special meeting of the council to-day, when it is probable that a grant of anywhere from \$500 to \$1,000 will be made from the civic treasury. Some of the speakers last night declared that would be a shame to give him less than \$10,000.
