Actress Says Her Husband Did the Deed.

His Brother Says Done In Self-Defence.

## Warrant For Arrest of the Alleged Murderer.

Paris, Feb. 26 .-- A brother of Paul L Roy, who is accused by his wife of hav-ing killed her brother, George A. Carkine, at Portsmouth, N. H., declared in an interview last night that Roy show Carkins in self-defence. He said that Carkins had been drinking and interfcred in a quarrel between Mrs. Roy and her cousin, and that he finally drew a revolver and fired on Roy.

He added that the truth about the death of Carkins was concealed by Roy's wife, Roy himself wishing to inform the authorities. Roy remained in America for a month after the shooting, sailing for Europe on Feb. 8 on the Lusitania He came direct to Paris, and, the brother stated, holds himself at the disposition of justice. He has retained Maitre Aubin to represent his interests.

The police of this city have received from New York a warrant for the ar-rest of Paul Roy, a French citizen, on the charge of murder. This charge was made by Roy's wife, an American ac-tress, known as Glacia Calla, who de-clares that he murdered her brother, George A. Carkins, early in January, in New Hampshire. The warrant has not yet been served. The French law does not permit the extradition of French citizens, but provides for their trial and punishment in France for crimes com-mitted. from New York a warrant for the arpunishn mitted.

## Chairman Says Twelve Hours Impracticable.

If another man is appointed over the head of the City Engineer in the reorganization of the civic departments, which a special committee will take up this week, Mr. Barrow will probably step down and out. He would not discuss the matter himself this morning, but his riends think that the thin end of the wedge to force him out is about to be inserted. This has been hastened, they think, over the row that has been created because the engineer permitted one of the Ontario Railway Board's engineers to see the report made by Assistant Engineer Heddle on the improvements made by the street railway to its roadbed. They recall that when the reorganization of the department was being agitated driver, James Canary, were going at last year those behind it permitted the full speed to the fire last evening, Canary was thrown out of the cutter east side of James street near King. He managed to hold on with one hand to the side of the rig and was dragged about 75 feet. The cutter slewed around and swung him forward, en-abling him to catch hold of the front part and climb in ngain, just in time to avoid being dashed against one of the lamp posts in front of the Bank of Hamilton. full speed to the fire last evening, matter to drop when it was explained to them that Mr. Barrow would probably step out quietly by the end of the year if given a chance. They also recall that there was an understanding that Mr. Barrow was to resign at any time if Barrow was to resign at any time if called upon, and that it was upon this ground that the present Mayor and ex-Mayor Morden supported him for the position when Mr. Barrow and Mr. Win-gate were candidates for it. The en-gineer's friends say that he is so thor-oughly disgusted with the way he has been buffeted around during the past few years and made the scapegoat of aldermanic bungling that he is prepared to throw up the job on the slightest provocation.
