WEDDINGS

CALDWELL-JOHNSTON
A very quiet wedding took place at the home of Mr. and Mrs. William Caldwell of Dedham, Mass. on Wednesday, June thirteenth at 7.45 p. m. when Miss May Levilla Johnston eldest daughter of Mr. and Mrs. James B. Johnston of Redbank was united in marriage to Mr. Roland Ross Stevens only son of Mr. and Mrs. Hiram Stevens of Union New Hampshire. The Rev. John E. Bentley of the Dedham Methodist Episcopal church officiated, the double ring ceremony being used. The bride was attended by her sister Miss Roberta, while Mr. Gordon W. Glover acted as best man. At eight thirty a dainty repast was served after which the happy couple took their departure amid a shower of good wishes and confetti.
Mr. and Mrs. Stevens will reside in Union, New Hampshire and will be at home after July thirteenth.

Seizure Of 123 Cases Of Liquor

One of the largest seizures of liquor made in this province in some time was made on Tuesday night at Andover, when Sub-Inspectors Nevers and Demings seized 123 cases in a car with 200 or 300 bags of oats and corn. It is said the entire car was filled with liquor and is believed to have been destined for the United States. The liquor was taken to Fredericton by Sub-Inspector Nevers.

LEAVING FOR TRIP TO ENGLAND

Rev. F. E. Boothroyd left Friday evening for Quebec from which place he sails on Wednesday next on the steamship Prince Frederick William for England. Mr. Boothroyd will spend about three weeks in England and on his return to Canada will take up his parochial duties in Campbellton.

The steamer on which Mr. Boothroyd crosses the Atlantic was a former German ship that was captured by the British during the war.

MISUSE OF THE DAY OF REST

Smith's Fall's Record News—If we were asked to name the most unsatisfactory day of the week from a work standpoint, we think it would be Monday, caused largely by the misuse of Saturday afternoon and Sunday. It is an economic fact that more than half of the people of this country return to their work on Monday either physically or mentally weaker than they left it Saturday night. In most localities the industrial output of Monday is below that of any other day in the week. For many people Sunday is not a day of recreation, but of dissipation. One test of a people is their use of leisure, and this is the test that Sunday brings.

OBITUARY

MRS. WM PARKS

The death occurred at Redbank on Tuesday morning, July 20th of Mrs. William Parks, aged 27 years, after a short illness. Deceased was a daughter of Mr. and Mrs. James Stothard of Ferry Road and leaves to her husband, one child 18 months old and five step children. The funeral was held on Wednesday, from her late residence. Interment at the Presbyterian Cemetery, Redbank. Rev. Mr. Girdwood conducted the services at the house and grave.

"BUY AT HOME"

TO INVESTIGATE TYPHOID

Dr. G. G. Melvin, chief medical health officer of the province, who was in Moncton to attend the annual meeting of the New Brunswick Medical Society, proceeded to Bathurst to enquire further into the typhoid fever situation, where several deaths from the disease are occurring weekly.

ECZEMA

WARRANT ISSUED

The man in charge of the Merry-go-round at the Royal Exposition Shows which was here last week had a warrant issued against a local young man on Saturday who has already a suspended sentence hanging over him.

Catarrhal Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. F. J. CHENEY & CO., Toledo, O., Agents, 75c.

The fight of a train is like the flow of an enormous pulse in the arteries of the nation. To slow the beat is to slow the life of the country.

THE train in this picture is one of the eleven hundred freight trains in daily service in Canada.

It consists of one heavy-duty freight engine and 45 standard box cars.

It can carry 2,000 tons of wheat.

In 1913 its engine could have been built for \$34,700—to-day \$81,000, its box cars for \$1,138.85 each—to-day \$3,797.50.

In other words the rolling stock alone in the movement of 2,000 tons of wheat has increased in cost from \$85,948.25 to \$251,887.50 or 193.1%.

The labor bill of the railways has risen in the same period from \$15,000,000 to \$231,000,000—101%.

The cost of rails for a mile of track has gone up from \$9,497 to \$19,680—107%!

No cost has been unaffected by the general rise.

Operating expenses continue to rise more rapidly than Gross earnings. Net earnings are sinking at an alarming rate.

These are the facts that lie behind the application for increased freight rates for the railways.

*Estimated

The Railway Association of Canada begs to state that the above facts are based on the authority of the CANADIAN RAILWAY BOARD.

Explanation of Chart

Top line shows the rise of Gross Earnings.
Middle line shows the rise of Operating Expenses.
Bottom line shows the difference between the two—Net Earnings.
