TREE PLANTING IN THE WEST

The civic authorities of Calgary are aiming to have 10,000 trees planted in the parks and on the streets of that city in 1922. Other cities and towns on the prairies have also planned tree-planting campaigns. This planting of trees in urban communities, along with the millions of trees now being planted annually on prairie farms, will in a few years make a great change in the aspect of the Prairie Provinces.

TEACHERS' TOUR TO EUROPE

208 Teachers will Go From Canada on S. S. Scotian

The Teachers' Tour to Great Britain and the battlefields of France and Flanders is to be a memorable event for some two hundred and eighty teachers throughout Canada, and the plans which are nearing completion promise a "pilgrimage" unexcelled in interest by any of the previous six annual tours under the Overseas Education League. Teachers from Australia, New Zealand and Newfoundland will join with those from this Dominion in the arrangements for the summer. A special feature of this year's plans is the chartering of practically the whole accommodation of the Canadian Pacific S. S. "Scotian," which carries with it all those privileges which guarantee the social and vacation pleasures of the seven day Atlantic voyage. Another attractive item on this year's itinerary is the visit to Oxford, Stratford-on-Avon and Warwick, for during the period the teachers have the unique privilege of hospitality in the Oxford colleges by generous permission of the College authorities, through Sir Herbert Warren, President of Magdalen College, Mrs. Haldane and other Oxford friends of the League. Arrangements have been made to accommodate the gentlemen of the party in Balliol College and the ladies in Lady Margaret Hall and St. Jugh's College where, as temporary resident students, they will dine in the College Halls and be given the freedom of undergraduates. It is not easy for the stranger to Oxford College life to appreciate the significance of this courtesy on the part of the College authorities, which is probably without a precedent. In addition, while at Oxford, specially arranged visits will be made to Blenheim Palace by invitation of the Duke of Marlborough, and to tea at Headington by invitation of Mrs. Murrell.

It is also confidently expected that a civic reception will be accorded to the visitors this year by the Lord Mayor of London in the Guildhall, with luncheon and address by the Lord Chancellor of England, Lord Birkenhead, who stands today as one of the foremost and one of the youngest leaders in the public life of Britain. The programme for France will include a stay in Paris which promises the utmost interest, for the arrangements are being directed by La Bienvenue Francaise of which Marshal Foch is President, and Prince Roland Bonaparte the Vice-President. It is through their interest and influence and by the good offices of Madame Boas de Jouvenal, the Secretary General, that the University of Paris will extend the hospitality of the Colleges during the stay in Paris.

REINDEER FOR NORTHERN CANADA

The value of the reindeer to the native inhabitants of Labrador and Northern Canada generally has led to efforts again being made to build up herds of these animals in the regions referred to. The Hudson's Bay Company has taken hold of the enterprise and recently landed 628 reindeer, most of them at Baffin Land some months ago. Because reindeer, in common with other animals, are liable to certain diseases and parasitical infestations, the Dept. of Agriculture at Ottawa, through the Health of Animals Branch, has seen to it that the imported stock included only healthy specimens. The inspection of the animals was made by Dr. E. A. Watson, Chief Animal Pathologist.

OFFICIALS OF THE C.N.R. ARE PLEASED

With Announcement in House of Commons

The giving the Maritime Provinces, local autonomy in the management of the C. N. R. with headquarters at Moncton was favored by officials of the railway.

The opinion was expressed that the change would first of all allow of railway business being carried on with greater efficiency, less loss of time and expenditure of money.

Under the present system of officials seeking authority on railway matters out of their jurisdiction make application to Moncton the request is then forwarded to the eastern division headquarters, Montreal, and finally to Toronto, where the matter is considered and a reply sent back over the same route.

Under the present system millions of dollars in railway contracts were being spent in Montreal and Toronto, the Maritime Province manufacturers being frozen out.

Thriving car works at Amherst and Halifax had been forced to shut down for lack of business as cars and equipment were purchased in Upper Canada.

Trainmen as a unit are enthusiastic over the proposed change in management.

SCRIBBLERS

We have just made a stock of large scribblers. Each scribbler contains 100 pages and a fine picture of Har- kin's Academy on the front cover. Price 10 cents each.

Some years ago importations were made by Dr. Grenfell in connection with his mission work in the Labrador. The herd prospered well while under the care of Lapp herders, but after the Lapps returned to their native land the animals became scattered and lost. Most of the 628 reindeer comprising the present shipment have been landed in good condition, and it is hoped that a beginning has been made in establishing a reindeer industry which may prove of great value to Canada.
