ission man. Mr. Hall, on being inverviowed

mission man.

Mr. Hell, on being inverviewed by the reportor, neuterated his previous statements and backed them up by essemingly logical arguments.

"In the first place," he says, "he one denies that the crop of the British Islands is almost a total failure. All over the continent—France, Germany, Hungary and Reasts—the crops are extraordinarily short. Reliable French estimates are that the European requirements for the ensuing year are about 276,000,000 bushels, and that available supply, from exporting countries, including the United States, will be about 225,000,000 bushels. The available supply of the United States, will be about 225,000,000 bushels. The available supply of the United States, will be about 225,000,000 bushels. The available supply of the United States counted in the above, is reckneed at 149,625,000 bushels. This shows a European defiect of \$\cdot\),000,000 bushels. Now, the United States crop of last year was enormous, being estimated at something like 425,000,000 bushels, and the crops of Europe were fair. Yet, notwithstanding the enormous yield in this country and the inid-dling crops of Europe, the price of wheat was just about what it is to day. This year the crop of the United States is estimated at 350,000,000 bushels—a big crop, but still a decrease of 75,000,000 bush. Iron last year; the European crops are, to put it middly, very whort; and yet come gentlemen would make us believe that there will be no material advance in prices. I can't see it. The grain hundlers of Europe are

and they are trying at the present time to bring about as each a state of affairs as will enable them to buy American wheat at bottom prices. The English trade journals help along the cause by statements favorable to their own interests, and by cautious movements in this country the English dealers will endeavor to buy at least a two or three months' supply before the uneritable rise comes, and then they will be just so much shead. The main question at present is whether the British dealer or the American farmer shall have the benefit of the farmers sell their grain by instalments, just a coording to their present needs, they will make money before next harvest.

Tawnitam TOLERABLY ACUTE WEN.

Hamilton At No. 36 James St., in the Ambitious City of Hamilton, the attention of the traveller will be attracted by the splendid large Drug Store of Messrs. Archdale, Wilson & Co., the manufacturers and sole proprietors of Wilson's Compound Syrup of Wild Cherry. This most popular cure for Coughs, Colds, Brouchitis, Croup, Whooping Cough, Loss of Voice, &c., is having a most astonishing ruu. Even at this season, when diseases of the respiratory organs are comparatively rare, At No. 36 James St., in the Am when diseases of the respiratory organs are comparatively rare, orders are coming in for half gross and gross lots from drugeists who have sold out of last year's stocks; and the proprietors have found it necessary to purchase new and improved apparatus to enable them to turn out the Compound Syrap of Wild Cherry in sufficient quantity to meet the demand. 1694 lm

to meet the demand.

Enjoy Life,

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means for enjoyment. We can desire no better when in perfect health; but how oftendo the majority of people-feel like giving it up disheartened, discouraged and worried out with disease, when there is no oceasion for this feeling, as every sufferer can easily obtain astisfactory proof that Green's August Flower will make them as free from disease as when he was born, Dyspepsis and Liver Complaint is the direct cause of seventy-five per cent of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottles, 10 cents. Try it. 1686

DEATHS.
