

Clinton.

ACCIDENT.—As the steam thrasher belonging to Messrs Connolly and Slatery was returning from Goderich on Tuesday evening and when it had reached Connolly's Hill on the 7th con., by some means the horses strayed to the side of the road and the engine fell over into the ditch. The young man who was driving got some bad bruises but was not seriously injured. One of the horses was killed and the engine was considerably broken up.

SERIOUS ACCIDENT.—An accident of a very serious nature happened at the syrup works, in this town, on Tuesday morning. Mr. Homer Andrews was engaged in feeding in cans, to the crusher and had on a thick pair of mitts. The mitts impeded the movement of his fingers and the hand became entangled in the cane drawing the fingers into the rollers. The horsepower was at once thrown out of gear but before the machinery could be stopped three of the fingers of the left hand were so terribly lacerated that amputation was necessary. The sufferer is doing as well as possibly under the circumstances. —[Record.]

Summerhill.

Farmers are talking up their turnips. Mr. Geo. Hill's little boy had a severe attack of croup but has recovered.

Miss Mary, daughter of Mr. John Johnston, of this village, is recovering from an attack of diphtheria.

Quilting bees are coming round again. "Coming events cast their shadows before."

Mr. Henry Beacom has re-sided his house and has put on a new layer of shingles. These improvements will add much to its appearance and his comfort.

The leaves on the trees are turning brown. Now is the time to gather leaves and put them away in books to pick up and burn during the long winter evenings when the books are opened at the pictures.

ILLNESSES.—Four of the children of John Johnston have been ill, the eldest with diphtheria and scarlet fever, the others with the latter disease only. G. Johnston's little daughter also has the latter disease. Some of them are almost well and the others on the road to recovery. We hope this malignant disease will not spread further.

PERSONALS.—Miss Wright, who has been the teacher of S. S. No. 9, has departed for her home in Montreal. She made many friends while here.—Miss Tilly Lovett is visiting with her sister, Mrs. Geo. Tyler near Belgrave.—Miss Annie Whitley, formerly of the Huron Road, near Holmesville, but now of Toronto, has been paying her old friends in this vicinity a short visit.

Goderich Township.

Miss Katie Connell, of the 9th con., is seriously ill with congestion of the lungs.

Mr. Adam Cantelon has sold a horse to a gentleman from Exeter for the round sum of \$100.

Mr. A. Duff, of Holmesville, has been engaged as teacher of S. S. No. 9, for the ensuing year, at a salary of \$400.

As apples are so scarce pumpkin peels are the latest innovation. H. C. Cook, had one at his place last week.

Ja. Graham sold a fine mare for \$199 to an American buyer. Thos. Trick also sold a mare to the same gentleman for \$180.

John McIsaac has purchased from Mr. James Perdue a fine mare paying therefor the sum of \$160.

Wm. Baker of the 16th con., built a stack of splendid clover hay of second growth for feed last Thursday. There is a scarcity of seed in the clover this fall in this section.

Mr. Arthur Cantelon has purchased a driving horse from Mr. Robt. Marshall, for the sum of \$120, and will now be in a position to take his best girl to all the social parties that may take place this winter.

Belgrave.

Very large quantities of grain are being marketed here this fall.

Mr. Hamilton, of Whitechurch, offered Mr. James Owens \$100 for a two-year-old colt, got by Heather Jock. The offer was refused.

Mr. Thos. Brandon is back from the North-West. He likes the country so well that he is going back in the spring.

Bears are reported to have been seen in this neighborhood, but as yet no one has got near enough to have a shot.

Walter Allison is sending this fall a large number of wagons to Manitoba. Wm. Duncan is helping him with the blacksmith work.

It is reported that John Long has secured the contract of carrying the mails from the station to the village for the next four years.

The Presbyterian Church, on the 10th con., of Wawanosh, was opened on Sunday last. There was a large attendance at the Sabbath meetings as well as at the teaming on Monday evening.

Mr. Robt. Sterling, wagon maker, has engaged Mr. Ellis for the winter. Mr. Sterling intends to get up a lot of wagons which he will take to Winnipeg in the spring.

Mr. A. Haslem has been building a stone foundation under his house. When the frame came to be let down it was found that a slight miscalculation had been made and the building took a tumble over to one side. \$5.00 fixed up the damages.

The show this year was a good one in every respect. The day was fine and everything went off pleasantly until about eight o'clock in the evening when some of the country lads caused a little commotion with their quarreling and profane language.

Mr. John McCrea is down from Algoma looking to be in excellent health. He has changed so much that many of his schoolmates could not recognize him. He has purchased a threshing machine from Glasgow, Macpherson & Co., Clinton, which he will take with him to Algoma.

Mrs. S. Morley has fixed up the old school house for the winter and made it quite comfortable for the children. In connection with this it may be as well to say that our people have quite a grievance in being compelled to pay taxes to the school, while the children of the village to the number of forty, are being educated in the private school.

PIE.

An Essay by a Small Boy.

A pie as a part of speech is a pronoun, as it stands in the place of a noun, not a very objective, most always neuter, unless too old, and agrees with any person who is not sick.

They are generally round one way and very flat the other. When they are cut they assume a triangular shape, until they are eaten, and then we don't know what shape they have. They are about the only three cornered article of food we have except beech-nuts.

A three-cornered piece of pie is about as convenient a thing to eat as one ever closed teeth on, and licked one's lips afterwards. This is sharp and foremost. The only trouble is you don't know when to bite it off; for the mouth naturally widens as the wedge goes in. The composition of pies is dough and something else—what that something else is or should be has never been definitely settled.

You can make them out of most anything that grows in the garden, except thistles and burdock. A boy told me that his aunt made a thistle pie, but the boy said a lie one day before, and I cannot trust him since.

I have seen pumpkin pies made out of apples very much. I remember one I saw once; it was not a very large pie, but it was got up in great style. It was made on a white plate with a blue edge. The under crust was made of dough, and was very thin; the inwards were just lovely. The under crust was made of what they call mince-meat and sugar sprinkled over it. The top or upper crust was made of dough rope yarn, laid across like the slats of a bed. Oh, it looked lovely! Around the edge was a hoop of dough laid partly over the edge of the plate and about an inch on the fragmentary meet. It was ornamented around the outer part of the hoop with an impression made by pressing it all over with a set of false teeth before it was baked. It was a great appetizer, you better believe! They sacrificed it at a tea shrine, and it sold readily at four cents a triangle, cash on delivery.

There are a great many people who like pies but seldom eat them, unless 'tis because they can't get them. I don't think the common apple pie is very hard to make, for I made one once out of cranberries, and all who tasted it said it was very nice. I tasted the most of it myself. I know one boy who was very fond of pies; in fact, rather than do without them he would hook them from his mother-in-law, if he had one, but he hadn't. Anyway, he was fond of them; he was very apt to take a bite out of one if it was in his way. One day there was a pie made on purpose for him and put in his way, and he put it out of his own way and everybody else's. I never liked cayenne pepper since; it's too warm.

Wistar's Balsam of Wild Cherry.

From the Kingston (Ont.) Daily Hindu. This old medicine, the ever-effective healer of ills that flesh is heir to, is still before the public in its full favor. It started on its career of mercy (for a good medicine is a merciful agent), forty years ago, and is to-day sought after by the children of the men who first sought out its virtue and established its name. Were it not for its merits it would long since have died and left no sign, like many a once popular curative has done even in the last five years. Wistar's Balsam of Wild Cherry is no artificial, deleterious compound, certain to afford temporary relief only by cutting its way by powerful agents through vitality, yet leaving a worse injury behind it. It is a vegetable, and by natural remedies works off complaints from a slight cold to a threatening consumption. 50 cents and \$1 a bottle. Sold by dealers generally.

Woman's True Friend.

A friend in need is a friend indeed. This none can deny, especially when assistance is rendered when one is sorely afflicted with disease, more particularly those complaints and weaknesses so common to our female population. Every woman should know that Electric Bitters are woman's true friend, and will positively restore her to health, even when all other remedies fail. A single trial always proves our assertion. They are pleasant to the taste, and only cost fifty cents a bottle. Sold by James Wilson.

F. J. Cheney & Co., proprietors Hall's Catarrh Cure, offer \$100 reward for any case of Catarrh that can't be cured with Hall's Catarrh Cure. Sold by George Rhynas, sole agent for Goderich.

Proclaim it far and wide that Dr. VAN BUREN'S KIDNEY CURE not only immediately relieves all kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually. Sold by J. Wilson, Goderich. 2m

WHEN IT IS UNDERSTOOD

that most of the diseases of the body, whether functional derangements or destructive organic changes in the vital organs, are the expressions of errors of nutrition from impoverishment of the blood and starvation of the tissues. It is easily seen why Wheeler's Elixir of Phosphates and Calceola, which secures the digestion and assimilation of food to keep up the work of repair, is successfully used in the treatment of the wide range of affections for which it is recommended.

Where Was the Cat?

Col. Tom Clark, of Brooklyn, once owned a cat on which he showered the affections of his bachelor heart, and the shadow took the shape of a pound of mince-meat every day. One morning the Colonel noticed that his feline namesake had strayed away to a mere skeleton, and immediately he summoned his boy Bill to appease before the cat.

"Didn't I tell you to give that cat a pound of meat every day?" asked the Colonel.

"Yes, sir; and that's what I give him every morning before you are out of bed," said Bill.

"I don't believe a word of it. My opinion is that you either pocket the money or eat the meat yourself. Bring me the scales and the cat."

The scales and the cat were brought, the latter was placed on the former, and Tom and the marker stopped at the one pound mark.

"There!" exclaimed the boy in triumph. "Didn't I tell you I gave him a pound of meat this morning?"

"There's the pound of meat, sure enough," said the Colonel, stroking his chin. "But where is the cat?"

Worthy of Praise.

As a rule we do not recommend Patent Medicines, but when we know of one that is a public benefactor, and does positively cure, then we consider it our duty impart that information to all. Electric Bitters are truly a most valuable medicine, and will surely cure Biliousness, Fever and Ague, Stomach, Liver and Kidney Complaints, even where all other remedies fail. We know whereof we speak, and can freely recommend them to all.—Exch.—Sold fifty cents a bottle by J. Wilson. [6]

The Monetary Times says:—The Canadian Pacific Railway is about placing four first-class steel steamers on the upper lakes, and in connection therewith has secured the service of Mr. Henry Beatty who has severed his connection with the North-west Transportation Company. Mr. Beatty is to have full charge of all freight and passenger business of this line, and leaves for England shortly for the purpose of obtaining plans and giving the contracts for the immediate building of the steamers.

Our Navy.

It has become customary for Government organs to deny statements appearing in Reform papers, and a few days afterwards confess that such statements were correct. Some days ago it was announced, to your readers, in these Notes that the war ship Charybdis was to be returned to the Imperial Government at once. As usual the Ministerial organs contradicted the statement, but now coolly announce that Sir Leopold McClintock, Admiral of the British fleet on the North American and West Indian Station, has received instructions from the Lords of the Admiralty to receive back the Charybdis, which was loaned by the British Government for the purposes of a training ship. The Charybdis enterprise has cost the ratepayers of the Dominion about \$20,000, which amount might quite as properly have been thrown into the Ottawa River. What a howl would have been set up if such a stupid folly as this displayed by the present Ministry in reference to the Charybdis.

Why go on day after day suffering with splitting headaches when a bottle of Dr. Austin's Phosphate will cure you? If you do not believe it ask your druggist for a circular—and read what those who have used it say about it. Price \$1.00. 2m

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by James Wilson. 2m.

A Vexed Clergyman.

Even the patience of Job would be exhausted were he a preacher and endeavoring to interest his audience while they were keeping up an incessant coughing, making it impossible for him to be heard. Yet, how very easy can all this be avoided by simply using Dr. King's New Discovery for Consumption, Coughs and Colds. Trial Bottles given away at Wilson's drug store. (2)

McCOLL BROS & CO.

TORONTO. MANUFACTURERS OF LARDINE OIL AND CYLINDER OIL.

MANUFACTURERS

And all men running machinery will save money by using our oils. Our LARDINE and CYLINDER OILS has no equal. Facts speak louder than words, and the public can find out that the foregoing assertions are true, by trying one sample of our oils prices etc., on application to

McCull Bros & Co Toronto.

The Lardine is for sale in Goderich by R. W. McKENZIE, G. H. PARSONS, C. CRABB, and D. K. STRACHAN. 1833-6

Is Better than Gold.

A good name, good health, a good companion and a bottle of Hagar's Yellow Oil are among the first requisites for human happiness. Yellow Oil cures Rheumatism, Sprains, Lameness, Bruises, Burns, Frost Bites, Group, Sore Throat, and all pain and inflammation. 2.

A Fact.

If you suffer from Chronic Disease, and have little faith in advertised remedies and have sought vainly for a cure. Consult your druggist, or address T. Milburn & Co., Toronto, for proof positive regarding the merits of Burdock Blood Bitters, the Great Regulating Blood-purifying Tonic, that acts on the liver, kidneys, stomach, bowels and skin. 2.

Best of All.

Our rigorous and changeable climate, and our mode of life induces frequent colds, that often lead to severe Coughs, Bronchitis and other lung troubles that are liable to end in Consumption. The best and most pleasant remedy known for these difficulties is Hagar's Pectoral Balsam, to be obtained of any Druggist. 2.

Thousands bear witness to the positive curative powers of the GREAT GERMAN INVENTOR, the only remedy that has proved itself a specific for general debility, seminal weakness, impotency, etc., and all diseases that arise from self-abuse or overtaxed brain, finally ending in consumption, insanity and a premature grave. Sold by all druggists, or will be sent free on receipt of \$1.00 per box, or six boxes for \$5. Address F. J. CHENEY, Toledo, Ohio, sole agent for the United States. Send for circular and testimonials of genuine cures. Geo. Rhynas, Goderich. 3m
