Municipal Council.

Mayor Ellis and a full Board were present at last night's meeting. The Gas Co. tendered for lights on the outskirts of the city.

The complaint of Andrew Murray in reference to water supply for ships was dealt with. After the waterman had connected the hose and turned on the water for Murray's vessel, he was called away to another ship.

The Solicitor reported that he had seen the manager of the Mfd. Produce Co. who was building a shed and a wooden tramway without permission and apparently against the terms of the Act.

Mr. T. Kent's claim came up again. He will be asked to procure full particulars. Receipts and vouchers that may be in existence relating to the claim will also be looked up.

The Solicitor reported that the Council had ample power to change the names of streets provided they published notice of their intention.

On motion of Councillor Channing, Pope's Street will be changed to Burke's Square.

The Engineer complained that some people failed to remove the snow from Water Street sidewalk in front of their places of business. He said that when the thaw would come there would be many pools of water that could otherwise be avoided.

The Engineer complained of the great waste of water going on the street these weeks by people allowing it to run in their houses. The pressure was very much reduced all over town, and in the event of a fire this would be a bad condition of affairs.

The Health Officer reported three new cases of typhoid fever, one death (stomach); one case of typhoid and one of diphtheria.

The meeting adjourned at 9.30.

League Hockey. CRESCENTS DEFEAT THE VICTORIAS.

The champions of last year, the Crescent Hockey Team, were the victors in the League Match at the Prince's rink last night by seven to two.

The game was a lively one and some brilliant playing was in evidence. H. Herder and Stick did magnificent work for the Crescents and had nearly all the scoring to themselves. Burnham also did good work in goal during the second half. Bulley and Paddon, for the Vics., put up a good game, but Vinnicombe and Parsons did not appear to be in their best form.

From the outset the Crescents played a rushing game and in about a minute after the play started H. Herder sent in a slick one for the Crescents.

When the rubber was centered again lively play followed. Bulley, for the Vics., and Woods, for the Crescents, made several "dead on" shots but failed to do any figuring. Fenwick, of the Crescents, was sent off the ice for two minutes for fouling a Victoria man. Shortly after Vinnicombe got control of the disc and making a Marathon run scored No. 1 for the Victorias amid the applause of a large crowd of his admirers there.

The Victorias took renewed courage from this and kept the Crescents busy down around the codtrap. Parsons was sent to the penitent form for fouling. The Crescents made a dash up the ice and H. Herder after some beautiful "steering" landed No. 2 in the twines.

The play now waxed more lively than ever and good hockey work was in evidence on both sides. The goalkeepers had a hard time and did some brilliant saving. Half time sounded with the score 2 to 1 in favour of the Crescents.

On the opening of the second half the Crescents made a rush for goal but were turned off by Paddon who sent the rubber out of the danger zone. Bulley then secured and made a bold attempt to score but failed. Woods was sent off the ice for three minutes for fouling. Shortly after H. Herder sent the puck into the net and scored up another for the Crescents. A lot of lifting followed on the part of both teams. Finally Erien notched up No. 2 for the Victorias. Paddon was sent to the steering gangway for tripping Hubert Herder. Tobin then got hold of the puck and sent it into the net for the Crescent but the Turkish officer who kept the gate of the castle sent him back for better credentials. Play went on for several minutes in a lively manner near mid-rink till H. Herder made up his mind that there was a way to get to the codtrap. He got busy and after some brilliant stick handling sent a meteoric one forward which passed Cunningham safely and caused the chalk to be used again in favour of the Crescents; this was No. 4. Stick notched up the fifth two minutes later. Good combination work was done by Tobin and Erien without effect however. Though they were not successful through the stick Herder was given a vacation for fouling. Story secured the 6th goal and Stick the 7th for the new-moosers. Mr. W. J. Higgins was referee.

The line up was—

Crescents. Burnham goal; Vinnicombe; Fenwick cover; H. Herder rover; Story centre; Woods left; Stick right.

Victorias. Cunningham goal; Paddon; Bulley cover; Tobin centre; Parsons left; Erien right.

Appointed to the Royal Yacht.

It is always a pleasure for the Telegram to chronicle the success of our fellow countrymen both at home and abroad, and in this instance we are extremely pleased to announce that Lieut. Randal R. McCowan, son of the late Inspector General, has been appointed to a position on the Royal Yacht Alexandra. Lieut. McCowan entered the Navy thirteen years ago, when he was but fourteen years of age, and has seen considerable service in various parts of the world, being for some time a Lieutenant on board H.M. warship Ramillies. Terrible Cases of Destitution.

WOMAN BITTEN BY RATS. The duties which Head Const. Dave and Const. Lawlor at present undertake, have brought them face to face with some terrible instances of poverty and privation the past few weeks. One of these came under the notice of both men yesterday in a residence on Lime Street, and they will never forget the harrowing spectacle of a man, woman and child, existing in the last stages of hunger, squalor and poverty. James Davis occupies this house with his wife and child, a boy of about 12 years of age. The mother, who would have gladly taken the child to the workhouse if she could, is unable to get about, while his wife is ill. There was absolutely no food whatever in the house and the mother, who had been severely and dangerously ill, had been huddled together, had no fire in it nor had there been any in the little stove for days and the mother and child were actually perished from want but for the occasional small dose of food given them by people almost as poor as themselves. Water, which had been accidentally spilled on the floor was found frozen in the kitchen, and the man lay on an old mattress covered with brim bags and an old coat. He suffered severely and told the officers that only a few nights before rats which infest the house, severely bit his wife about the arms while she slept, and this was verified when the woman showed the men the wounds. The officers reported this appalling affair to Inspector General Sullivan, who took immediate steps to supply the present wants of these unfortunates. It would be a kindly act of charity for people possessed with a plenitude of the world's goods to attend to these poor stricken creatures. We also have learned of another case where a man was found in a hotel in the West End, starving with his wife and 2 children in a similar condition. These also were unfortunately without food or fuel and to intensify the horror, the situation of the man was ill and a portion of his back was eaten away with cancer. Those who discovered the case were horror stricken and paid immediate attention to the sufferer and his family.

Not Entitled Under the Rules.

Editor Evening Telegram: Dear Sir.—In last evening's issue of your widely read paper there appeared an item, "A member of the Longshoremen's Union who had been laid up with an attack of illness and had been in the Hospital three months, complains that he is unable to get any satisfaction as to the monetary help that he is entitled to under the rules of the Union."

In reply I beg to say that the rules of the Union make no provision for assisting members when ill. Whoever gave your reporter the information must have done so either through a want of knowledge of the rules of the Union or a desire to misrepresent the attitude of the Union in such cases. The Union hopes before long to be able to make provision of some kind to meet cases of the kind referred to. By inserting the above you will oblige. Yours truly, J. ALLAN, Sec. Longshoremen's Union, St. John's, February 4th, 1911.

SATURDAY, Feb. 4th, 11. Kolyons is a tooth-paste, but it is in many ways different from other paste in the market. To begin with, it is used with a dry brush—most pastes requiring extra moisture to render them effective. Again, it is different in composition and flavor from any similar preparation, and leaves a delightfully refreshing taste in the mouth which lasts some time. Use it with a Sandiset or Rubber-set tooth brush and you have the perfection of dental prophylaxis. Prices: Kolyons, 30c. Tube; Sandiset tooth brushes, 35c.; Rubber-set Tooth Brushes, 40c.

A Disclaimer.

Editor Evening Telegram: Dear Sir.—In reference to an item which appeared in your paper of yesterday's date, re a man named Morey being nearly strangled in a coal chute, I wish to say it was not me or any of my family. By inserting the foregoing you will greatly oblige. Yours truly, F. T. MOREY, St. John's, Feb. 4th, 1911.

Full of Ice.

The Customs people to-day had a message from Lark Harbour saying that the Gulf is filled with heavy ice. Mr. Norman, sub-collector there, went to the highest point of land there and as far as the eye could see there was no sign of water. This is early rather for such an occurrence but it is not to be wondered at considering the heavy frost of this winter.

REVOLUTIONARY OUTBREAK.

Special Evening Telegram. CAPE HATIEN, This Morning. Numerous arrests of prominent persons for a supposed sympathy with revolution and the search of houses disclose the storing of arms and ammunition. The district south east of here is up in arms. The Foreign consulates have received authorization to harbor refugees, but the consuls are held responsible for sorties from consulates.

Special Evening Telegram. CAPE RACE, To-Day.

Prospero Goes West.

The S. S. Portia will now lay up here for at least two months and will be given a thorough overhaul. The hull and the saloon and state rooms will be painted and decorated, and the engines, etc., will receive thorough attention to put her in fine condition for the summer service west. The S. S. Prospero takes up the service in the interim and will sail west at 2 p.m. on Monday. Capt. Fitzpatrick, with the chief, second officers and deck hands will transfer to the Prospero. The firemen of that ship will remain on her as well as the engineers. This trip Mr. Crossman, the purser, will remain ashore, Mr. Colton going forward in his place.

Portia's Stormy Trip.

The s.s. Portia, Capt. T. Fitzpatrick, arrived from the westward at 4.50 p.m. yesterday after a stormy trip to and from Port aux Basques. The ship left here on Wednesday, the 25th ult., and had a fairly good run until the following Saturday night, when in Hermitage Bay she had to lay up in Francois in a gale of S.E. wind with heavy snow. Next morning the wind veered from the S.W., and the barometer registered as low as 28.50. At 2 p.m. she left Burgeo but did not get to Rose Blanche until 2 a.m. Monday, as all that time a gale from the W.N.W. with thick snow prevailed. She left there at 5 a.m. Tuesday and made the run to Port aux Basques in good time, considering the rough weather prevailing. At 2 p.m. that day a heavy S. E. snow storm began and lasted for hours, turning eventually to sleet and heavy rain. Leaving that afternoon she arrived back at Rose Blanche at 5 p.m., a southerly gale blowing with rain and thick weather. At 1 a.m. next day she sailed down the shore with a westerly gale blowing, increasing as the hours went by until a fierce blizzard raged, so that she lay up again in Francois, leaving there at 5 a.m. next day. Mr. Grace Notes.

Judge Oke, who had been at Bay Roberts on judicial business, returned by last night's train.

The firemen held their annual "time" at their comfortable quarters on Bannerman Street on Wednesday night. The affair was voted one of the best they ever held.

A young lady while proceeding home from the theatre a few nights ago fell near Mr. Simmons' grocery and had to be assisted home. Had the young man who accompanied her been less cool, and had offered her his arm, probably the accident would have been avoided.

The keen frost of the past couple of weeks having entered the cellars of many of our people, a large quantity of vegetables are said to be spoiled. Miss F. Parsons, teacher at the Methodist Academy, is suffering from a severe cold to-day and unable to attend to her school.

The first instalment of Messrs. Murray & Crawford's sealing catch for 1911 was landed at their premises a couple of days ago—two seals captured by some men from a nearby settlement. May their season be a very successful one. It is a pity that more of our Harbor Grace men cannot secure berths.

Yesterday, Candlemas Day, was a very fine day, and if, as the old ditty says, "The worst of the winter is gone," few will regret it. CORRESPONDENT, Harbor Grace, Feb. 3, 1911.
