

CHAPPED HANDS & COLD SORES

One thorough application of Zam-Buk at night will bring ease by morning. Zam-Buk stops the smarting, heals the cracks, and makes the hands smooth.

PROOF—Miss Hattie Pezand, Galesburg, Ont., writes:—"I was troubled with chapped hands and arms and nothing ever seemed to heal them thoroughly until we found Zam-Buk. It has cured them. My father has also used it for several skin troubles and injuries, and thinks there is nothing like Zam-Buk."

Mothers should see that their children use Zam-Buk daily, as there is nothing to prevent it. A little Zam-Buk lightly smeared over the hands and wrists, after washing, will prevent chaps and cold sores.

Zam-Buk is also a sure cure for skin diseases, eczema, itch, ringworm, blood-poisoning, piles, and for cuts, burns and scalds. It is also an all-round disinfectant, and best for use on floors, walls, ceilings, and furniture. It is a natural restorative and stimulant.

Address all applications for samples and retail orders to T. McMURDO & CO., St. John's, Nfld.

Notes From Greenspond.

On Feb. 28th the Scarlet Chapter held their annual supper. The Burdock Hall was crowded with the brethren and their wives. The S. A. Officers were invited, and a very enjoyable night was spent. Some funny selections from the gramophone helped to cheer the spirits of those who will soon be leaving us for the "real world."

On the following night in the Lecture Hall the Mission Band gave a very interesting and instructive entertainment. In some of the parts the children were dressed to represent the different countries of which they were talking. The programme from beginning to end was well acted. The hall was literally packed and the greatest attention was given throughout. Great praise is due to those who took all the trouble to train the little ones. The only discordant note was the hall was not large enough to hold the people who came; lots had to go home again.

We have had one visit from the Northern Mail Steamer, and then she came without a mail. The people can easily see that she is not out on to make a job for Capt. W. Winsor. What could the Government do otherwise? Did he not stay in from the ice, and thus turn the tide in favour of them? Does the Government think the people cannot see through some of their dodges? If they think that they are badly deceived, a Liberal was a rarity here before last election, but now it is not much trouble to hear people criticising the actions of this present Government. It will not be a walk over at the next elections for the present Government.

What about our mail service? Formerly we got one mail a week—now we get two. Formerly we were able to get an answer to our weekly mail in one week, now we cannot get an answer under a fortnight; possibly under the most favourable circumstances we might get it in 10 days. Is not that progressing backwards? But then your answer: that's just like them.

It is said that our Fishermen's Union—a body of 320 men, are going to know the reason why one of our members prevented us from getting a small grant to make our reservoir more accessible to the general public here. This has been an excessively frosty winter, and if it had not been for this reservoir we should have had to melt snow to drink, or go in boat or on the ice to the mainland. Perhaps if we had applied, we might have got a Sable Island Pony or two for the use of the public, but when we heard of it, lo and behold, they had all been given away to supporters.

We are noticing that some interesting lectures in the House, but not on a bit, our own will come soon, and then we will show them what we think of their actions.

Greenspond, Mar. 3, 1911. COR.

The Curler.

Old Archie was a clergyman. A first-class Presbyterian. And, though as Scotch as oatmeal cake. His sermons kept the folk awake. A man of intellect was he. Note his Philosophy degree.

For thirty years he'd been a work at his beloved St. Andrew's Kirk. No single service had he missed. Some brides whom long ago he'd had married children of their own. But still Old Archie lived alone.

He had not cared to take a wife. The only passions of his life were soppin' up the granite stanes and playin' golf across the plains. Though mild and gracious was his port. He was a genuine old sport.

'Twas winter, but for fifteen days the air was mild. The country ways were deep with mud, and of the rain, Gave Reverend Archie such a pain. His inmost soul was in a whirl. Because, alack, he "couldn't curl."

Then came the frost. The miller's pond Was fettered in an icy bond; The curlers came a match to play. Alas! it was a Wednesday. Prayer meeting would be held that night. And Archie was mad enough to fight.

He was a skip. He pondered long. If a postponement would be wrong. Then at the church at half-past four He put this notice on the door: "All cause for earnest prayer is past. The awful weather's changed at last. The ice is hard; the stars are bright. No meeting will be held to-night."

Marvelous results have been obtained from using STAFFORD'S Linctament—14 cts. bottle. mar. 4.

ANNUAL PARADE.—The B. I. S. is now making preparations for their annual parade, which will take place on St. Patrick's Day. The Society will attend Mass at St. Patrick's. **NOT CORRECT.**—It is not correct that there is a case of small pox on the s.s. Harlaw.

Whooping Cough
CROUP ASTHMA COUGHS COLDS
Vapo-Resolene
A simple, safe and effective treatment for Whooping Cough, Croup, Asthma, Coughs, Colds, Bronchitis, Catarrh, and all other respiratory ailments. It is a natural restorative and stimulant. Send us postal for descriptive booklet.

The Emerald Isle.

Rev. Fr. O'Callaghan's Lecture. The Star of the Sea Society members assembled in large numbers at their hall last night to hear the lecture on Ireland delivered by Rev. Fr. O'Callaghan, Spiritual Director. The lecture was the first of a series to be given during Lent. Father O'Callaghan was introduced by President E. M. Jackman, after which the lecturer took up the theme and traced the history of Ireland from the time of the coming of the Milesians to the present day. In language of a very eloquent nature the lecturer dwelt on the history of the "Emerald Gem of the Western World," detailing with pleasure its triumphs, and speaking with emotion of its vicissitudes, praying a speedy ending of these latter by the acquiring from a just British party the blessing of self-government. The lecture was illustrated by a series of excellent views, and Irish National selections were given on the gramophone. A hearty vote of thanks proposed by Mr. T. Kelly, seconded by Mr. J. Lacey, was carried unanimously.

Hockeyists on Bruce.

The Windsor Hockey team are on the S. S. Bruce which is due at Port aux Basques to-day. The express, if all goes well, should arrive to-morrow night and the first match may be booked for Thursday night. However, owing to the snow on the line there may be some delay and the fixing of the matches will be arranged when the express is heard from.

No More Misery in the Stomach.

Indigestion, Gas, Heartburn or Dyspepsia vanish in five minutes. If what you just ate is 'souring on your stomach or lies like a lump of lead, refusing to digest, or you belch Gas and Eructate sour, undigested food, or have a feeling of Dizziness, Heartburn, Fullness, Nausea, Bad taste in mouth and stomach headache "this is Indigestion."

A full case of Pape's Diapepsin costs only 50 cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or Indigestion.

Ask your pharmacist to show you the formula plainly printed on these 50-cent cases, then you will understand why Dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or Indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains power sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; and what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for Biliousness or Constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid stomach preparation, too. If you ever try a little for Indigestion or Gas-trouble or any other Stomach misery.

Here and There.

A HARD NIGHT.—Last night the temperature at Rawlin's Cross was down to zero at midnight.

MOST SNOW FOR TWENTY YEARS.—The greatest depth of snow for 20 years is now on the higher levels of the city.

EXPRESS HELD UP.—The incoming express was held up at Clarenville last night on account of snow and ice on the track.

PLUMBERS BUSY AGAIN.—The plumbers are again busy to-day repairing water pipes that were burst up by frost yesterday and last night.

SIX FEET OF FROST.—There are six-feet of frost in the ground in the cemeteries. The grave diggers have had very hard work trying to dig the graves.

DIED AT HOSPITAL.—Mr. Martin Burke died at the General Hospital yesterday morning in his 65th year. The funeral will take place from the hospital to-morrow. He leaves 5 sons and two daughters.

GILLETT'S PERFUMED LYE
READY FOR USE IN ANY QUANTITY

E. W. Gillett Co., Ltd. Toronto, Ont. MADE IN CANADA

In the People's House.

Yesterday's sitting was of a tame character and few were present in the galleries. Petitions were presented by Hon. D. Blandford, Mr. Seymour, Mr. Downey, Mr. Parsons, Mr. Earle and Capt. Winsor from their respective districts for roads, bridges, &c.

Mr. Clapp asked for information re payments to Hon. M. P. Cashin for his attendance before the West India Commission, and Mr. Kent asked for the reports of agricultural societies.

Mr. Roberts asked the Minister of Finance for details of \$500 paid Dr. Keegan out of contingencies account and also if any other payments were made him in connection with his visit to England last year.

The Minister read the following reply to the questions: "The Government a year ago decided upon effecting absolutely essential improvements to the Hospital. These involved equipping two operating rooms and furnishing them with everything of the most up to date design in the way of appointments, instruments and appliances; it also provided the providing of the modern equipment for a laundry, where some three thousand pieces per week could be laundered, and a kitchen where the food could be cooked for two hundred persons, including patients and attendants, having special reference, moreover, to the cooking for invalids in hospital. In view of these circumstances the Government, says Dr. Keegan to inspect the most modern hospitals in the British Isles, Canada and the

United States, so that he might select all this equipment as a result of personal inspection, and they allowed him five hundred dollars for expenses. I might explain that the Government is desirous to allow Dr. Keegan \$500 for this work, considered that they were giving him very modest compensation, seeing that the last Government allowed Dr. Brohm the sum of \$450 for attending the Tuberculosis Convention at Washington."

The Peat Bounty Bill was sent to the Upper House, and the House went into Committee of the Whole on the Crown Lands Bill.

Second Reading of Explosives Regulations Bill. The Premier (Sir E. P. Morris) in explaining the various provisions of the Bill pointed out that it was intended to regulate the manufacture, storage, importation and sale of explosives. The Bill was of importance to the public generally and to those employed in the manufacture and handling of explosives. The Bill contained the important features of the Imperial Act of 1875. Last year the Canadian Government went into the

Beaver Brand Baking Flour
Biscuit Buns Breads
This First Lesson in Economy is not alone for children. Older heads take it to heart, and profit by it. Thousands of housewives have proved the economy of using "Beaver" Flour for all baking. 113
DEALERS—Write us for prices on Feed, Coarse Grain and Cereals.
THE T. H. TAYLOR CO. LIMITED, CHATHAM, Ont.

matter with Capt. Desborough, Inspector of Explosives, of the Home Office. An Act was formed as the result of these proceedings and the Bill (the Premier) submitted was a verbatim copy of this Act which was submitted at the present session of the Canadian Parliament. As we are about to manufacture explosives, store and sell them, and as they must be used in many industrial operations, the law governing them should be fully defined and clearly stated. The sections dealt with authorized explosives, the license for factories and manufacture, permits for the importation, sale and transportation of authorized explosives, special permits to import for chemical analysis, permit for the manufacture for experimental purposes or testing, &c. The Act in a word should so regulate the matter of explosives that the safety of the public would be the chief interest, while in no way impeding those engaged in the manufacture or sale of explosives.

Mr. Kent expressed himself as being in accord with the provisions of the Bill. The Act was based upon legislation adopted in Great Britain, legislation which embodied everything that would conserve the public safety and the proper conduct of the business of manufacture and handling of explosives. The law embodied in the Consolidated Statutes was not satisfactory and afforded no protection to the public as regard insuring them from accidents from explosives. This Act safeguarded the public and he (Mr. Kent) had much pleasure in supporting it.

The Bill goes into the committee stage to-day.

Second Reading of the Municipal Bill. The Premier (Sir E. P. Morris) in dealing with this stated that it was an amendment of the law of 1902

Power to purchase lands for the use of the Council, and deals with the erection of sheds on wharves in St. John's.

Mr. Kent agreed with the Premier as to the question of appropriation and could not see why the Governor in Council should be asked to do this work. He believed that the time was come to have the laws of the Council incorporated in one Act. As matters are now, they lead to confusion. He hoped by next session for a consolidation of the laws relating to the Council.

Second Reading of Motor Vehicle Bill.

Sir E. P. Morris in introducing it said it also came from the Municipal Council and relates to a tax on motor vehicles. He compared the local schedule of fees with that of the Imperial Act, and pointed out the dangers caused citizens by the running of these vehicles on public highways; thought they were often a nuisance, and that their owners should be made pay a reasonable fee for the right to run them.

Mr. Roberts concurred with the Premier in this matter and thought that if careless drivers of motor cars caused accidents the American law should be applied to them, viz., six months' imprisonment for the driver, confiscation of the car and forfeiting the right to drive afterward.

The Bill goes before the Committee to-day.

TRIBUTE TO CANON DUNFIELD.

When adjourning the House until 4 p.m. to-morrow the Premier said he did so to enable hon. members to attend the funeral of the late Canon Dunfield, and paid a tribute to his memory. Mr. Bennett also paid an eloquent tribute to the memory of Canon Dunfield, Mr. Kent in supporting the remarks of those who had preceded him, paid a graceful tribute of respect to one whom he had known since he (Mr. Kent) was a child. After these expressions of regret the House adjourned till 4 p.m. to-day.

Here and There.

ONE ARREST.—The police made only one arrest last night. He was held at the lockup.

TWO SEALS TAKEN.—An old harp seal and a young one were taken at Vikings' Cove, Fermeuse, last week by one of the fishermen there.

ACKNOWLEDGMENT.—The ladies of the Dorcas Society gratefully acknowledge the receipt of \$50.00 from the Longshoremen's Protective Union.

LADY TO REST.—The remains of Mrs. P. Patterson were interred yesterday afternoon at Mount Carmel cemetery. A large number of people attended the funeral.

HYDRANTS FROZEN.—The hydrant on Monksfoot Road, at the foot of William Street, got frozen up yesterday, although it is patented "anti-freezing." The Council engineers were at work there up to last midnight digging down with pick and shovel in order to thaw out the hydrant.

The Czar's Watch.

There is in the possession of the Czar a very remarkable watch. It was made by a Polish mechanic named Jules Curron. The Czar had heard some wonderful tales about the inventive ability of this man, and wishing personally to test his skill, he sent him a parcel containing a few copper nails, some wood chippings, a piece of broken glass, an old cracked china cup, some wire, and a few crumpled boards. Accompanying this was a command to make "him into an impiece. Within a remarkably short time the Czar received them back in the shape of a watch. The case was made of china, and the works of the other odds and ends. So pleased and astonished was the Czar that he sent for the man and conferred several distinctions upon him. "TITLES."

Worst Case Of Eczema

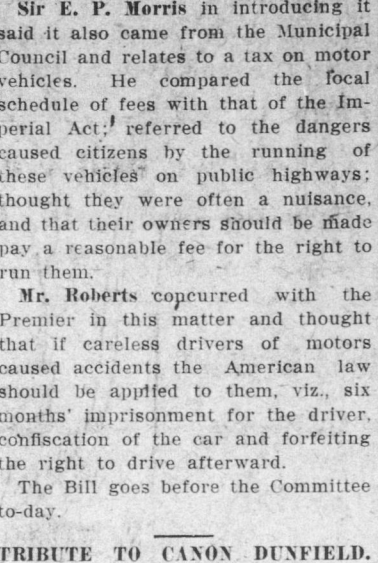

Cure only when doctors gave up and Dr. CHASE'S OINTMENT was used.
Mrs. Wm. Miller, St. Catharines, Ont., writes:—"My daughter Mary, when six months old, contracted eczema and for three years the disease baffled all treatment. Her case was one of the worst that had ever come under my notice, and she apparently suffered what no pen could ever describe. I had three different doctors attend her but to no purpose. Finally I decided to try Dr. Chase's Ointment and to my surprise she immediately began to improve and was completely cured of that long standing disease. That was four years ago when we lived at Cornwall, Ont., and as not a symptom has shown itself since, the cure must be permanent. The record of cures which Dr. Chase's Ointment has to its credit have placed it alone as the standard cure for eczema and all forms of itching skin diseases. Do not be satisfied with imitations or substitutes, 60 cents a box at all dealers or Edmondson, Bates & Co., Toronto."

Fashion Plates.

The Home Dressmaker should keep a Catalogue Scrap Book of our Fashion Plates. These will be found very useful to refer to from time to time.

8860-8765—A MODISH DRESS.

This shows a very simple but pleasing development of the body-and-sleeve-in-one idea. The blouse is worn with a long sleeve tucker that may be of lace, net, or other material contrasting to that of the gown. The blouse fronts cross in surplice style, so becoming to most figures. The skirt may be finished without the "banded in" effect. Diagonal cutting, serge, or other wools, satin, velvet or a combination of cloth or velvet, will develop this model effectively. The Blouse Pattern (which includes the tucker) is cut in 6 sizes: 32, 34, 36, 38, 40, 42 inches bust measure. The skirt Pattern is cut in 5 sizes: 22, 24, 26, 28, 30 inches waist measure. It requires 1 1/2 yards of 44 inch material for the Blouse and 1 1/2 yards of 44 inch material for the skirt. The skirt requires 4 1/2 yards of 44 inch material for the medium size. The skirt requires 4 1/2 yards of 44 inch material for the medium size. The skirt requires 4 1/2 yards of 44 inch material for the medium size. The skirt requires 4 1/2 yards of 44 inch material for the medium size.

Suitable materials for any of these patterns can be procured from LYLE & SOHNS, Ltd. Samples on request. Mention pattern number. Mail orders promptly attended to.

8675—GIRL'S DRESS WITH OR WITHOUT YOKE FACING.

A neat and easily made frock for Mother's Girl. Dotted challis in brown and white with brown velvet ribbon and fancy buttons for trimming was used for this design. The waist is made with Gibson tucks over the shoulders and a box plait over the centre front; the skirt may be plaited or gathered. The sleeve may be in wrist or short length. The pattern is cut in 4 sizes: 6, 8, 10, 12 years and requires 3/4 yards of 44 inch material for the 10 year size.

A pattern of this illustration mailed to any address on receipt of 10c. in stamps or silver.

Patriotism That Pa

Editor Evening Telegram. Sir—When the Chief of the Government party broke from Sir Bond it was on the pretext that was to secure more wages for labouring men, and he was hailed by those who did not know better, and after a campaign of vituperation against political opponents thrust into power with a strong following. The previous Government had been denounced by them as corrupt and extravagant and Newfoundland was ruined unless "Dear Mr. Morris" and his limbs had a lot. Well, they received it from a electorate and great things were expected. Hardly had the Chief and his limbs become acquainted with their positions than greed prevailed over every idea of moderation. We all thought Economy was the principal attribute of the People's Party, now known by the suggestive title of "Picnic Party." But now we see that a carnival of extravagance and corruption prevails which checked must lead quickly to a fiscal disaster for the Colony. The relations in the columns of your paper during the past couple of weeks at first believed to be mistakes, now people who expected to see a paper of Government papers filled with indignation and contradiction none came and there resulted confusion and indignation. The People's Party's (?) Party turned out the old-time grinning Tory Party, the people again see they have been duped. Patriotism was their slogan but now we know it was patriotism a price. Sir Edward for a few weeks' trip to the Hague gets on account; Morison and others obtain princely payments; P. T. Grath grabs \$4,500 for some services; Downey, Devereaux and Seydow draw thousands of dollars and so on; the ranks monies are thrown away; sops, pensions are given husky political servants, drones with political are put in their places, jobs for jobs are created and since the country received its charter of Responsible Government such a carnival of corruption has not been witnessed. State paupers and legalized robbers. Truly the description fits the present Tory gang.

Go on, Mr. Editor, keep up the work, expose the greed of the Morison crowd. You have quite aroused a sentiment which will put Morris and his servile crew out of commission. Let Sir Robert and his devoted followers "fight, 'Kod fight" on the floors of the People's House as they have been doing; expose governmental rotteness, inanity and extravagance, and the people will come sooner than can be imagined. Speed the day that Terra Nova is to be saved from bankruptcy.

Yours truly,
"FOX POPULA"

Magical.

C. E. T. S.

Rev. Canon White presided at an annual meeting of the C. E. T. S. last night. There was a fairly large attendance in spite of the unfavorable condition of the weather. Rev. Mr. Bell was re-appointed chairman. The President complimented him very highly and paid a glowing tribute to his zeal. The following officers were elected:—
Lay Vice-Presidents—Sir J. G. W. Winter, Mrs. Bennett and Mr. Gault Pike.
Treasurer—Mr. Ronald Clark.
Secretary—Mr. H. G. MacDonald.
Asst. Secretary—Mr. Alfred Ross.
Fin. Secretary—Mrs. Bell.
Asst. Fin. Secretary—Miss Lamb.
A committee of 12 has been appointed. The Society is now in a flourishing condition as shown by reports presented. The membership is larger than ever before. The Society is hopeful and enthusiastic and all the members are looking forward to being equal in any emergency they may have to face.
