 New Moon.
 Days Past—218 To Come—146
 A partial eclipse of the sun will be partly visible in Newfoundland Aug. 31st. At St. John's the new moon will take place at 5h. 55m. p.m. local mean time. Falling in the first decanate of the sign "Virgo," it is said to pre-signify scarcity through excessive drought. As the sun will be in trine (120°) aspect with Jupiter at the time, we think that very little harm will arise, and that benefits will soon follow.

Notes and Comments.

Although Tuesday was a most unpropitious day and the outlook for Wednesday, judged by Tuesday's weather was most unassuming, the Toronto forecast held out hopes of fine weather which were fully realized yesterday. Wind conditions were not favorable for the boats, and the times made were generally behind those of last year. But the weather contributed largely to the success of the chief holiday of the year, and the banks of Quidi Vidi Lake were thronged by a great concourse of people who thoroughly enjoyed the day.
 It is significant of the times to find a Conservative candidate advocating any form of Home Rule. This is what Mr. Armstrong, who is appealing for support at a bye-election in the Colne Valley division of Lancashire. He advocates a Home Rule policy on the basis of the Canadian plan.
 We observe that the British Government is being urged to reconsider the decision not to take part in the Panama Exposition. Newspapers

as widely divergent politically as the Morning Post, a Conservative newspaper, and the Daily Chronicle, a Liberal newspaper, are asking for the reconsideration of the decision.

We observe that last Thursday, the Under Secretary of the Board of Trade in reply to an enquiry for the abstaining from participating in the Exposition, said: "British manufacturers could not be persuaded to send exhibits on any useful scale and decline to bear the cost of sending exhibits." The trade with the Western States of America is small and the prospects of any beneficial results are meagre.

A Pretty Wedding.

CASH-O'REGAN.
 A very pretty wedding was celebrated on Tuesday evening, the 5th inst., when Mr. Jas. E. Cash, the tobacconist, was united in matrimony to a popular young lady in the person of Miss Annie O'Regan, brother of Mr. M. O'Regan, victualler, and sister of the late Rev. Fr. Con. O'Regan and also sister of Bro. O'Regan of Mount Cashel. The ceremony was performed at the R. C. Cathedral by the Rt. Rev. Monsignor Roche. Mr. George Trainor, nephew of the groom, acted in the capacity of best man, and Miss Mary O'Regan, sister of the bride, was the first lady. The bride wore a pretty costume of blue silk with picture black hat. Both Mr. and Mrs. Cash are people well known. Miss O'Regan we have known for years. Mr. Cash, the tobacconist, is almost a household word. Therefore we give them our greetings and wish them all the happiness and success that can attend a married couple.

Big Catch of Swordfish.

Lunenburg, July 31.—Our fishermen have just awakened to the fact that the swordfish is a fine product, and those motor boats, and whalers that are engaged in shore fishing are all armed with harpoons, and the necessary outfit for this important industry. Although not eaten by our own people the swordfish finds a ready market in the United States, where in the fish markets it is retailed from 16 to 20 cents per pound. Two days ago there were over sixty of these large fish landed here of which the fishermen contributed as follows:

Robert Levy	13
Maynard Levy	11
Henry Miller	7
George Baker	10
G. W. Nass	3
Israel Wynot	1
St. Clair Levy	12
Miscellaneous	3
Total	60

These represented about 18,000 pounds of eatable fish which were all caught in one day which would represent at least \$1,000, a very good day's fishing among so small a number of men.
 Henry Miller had quite an adventure with one of those monsters, thinking the fish dead he went to bring it on board of his dory, when the swordfish ran his sword through the dory and came near swamping the boat before the fish was put out of action. Capt. G. W. Nass of the steamer Maccott organized a party who went out to the fishing grounds thoroughly armed, and succeeded in bringing back three. Those fish are put up in separate boxes, in ice and shipped to the Boston market, where they meet with ready sale.

VIEWS OF BRIGADE RACE.—There are now on exhibition at the store of Parsons, the photographer, on Water Street, a collection of excellent and interesting views of yesterday's Regatta; particularly good are the pictures showing the start, finish and when the boats are rounding the buoys in the Brigade Race. Photos of other close contests were taken as well. All are strikingly attractive and well done and reflect credit upon the skill of Mr. Parsons, as an artist.
