CAN HE!

Fans are wondering if O'Leary can "come back" to-night and keep the haughty "CUBS" from ascending another rung on the Pennant Ladder. In the last two games his support was not all that could be desired, but his team mates are practising at every opportunity under the direction of that master strategist, Manager McGrath, and promise to have several surprises in store for their opponents. On the other hand the CUBS have a particularly well balanced team, full of pep and cannot be held too cheaply. Hall is in great form and each game shows an increasing number of strike-outs to his credit. The probable line-up to-night will be as follows:

Cubs.	B.L.S.
Hall	pitcher
Cluston	catcher
Murphy	1st base
Duggan	2nd base
Canning	3rd base
Manning	shortstop
Gosse	left field
Phelan	centre field
Driscoll	right field
Umpires—Mr. Cheesman, Chief; H. Power on bases.	
Scorers—Messrs. Channing, and Merner.	
Play Ball, 8.30.

A Few of the Reasons, Why?

Coupon Gold Notes of the Nova Scotia Tramways are an excellent purchase because they are issued by an enterprise which has been in successful operation for 24 years.

The purpose of this issue is to provide additional rolling stock and extensions and betterments of the lighting, tramway, power and gas system in Halifax, made necessary by the rapid though conservative growth of that city.

These Notes are issued for three years, yield full 7 p.c., and both the principal and interest are payable in New York, as well as in Montreal or Halifax. This provision is of substantial advantage in view of the high rate of premium ruling on New York funds and the early maturity of the Notes.

This issue of Coupon Gold Notes has been authorized, sanctioned and approved by the Board of Commissioners of the Province of Nova Scotia. They are a direct obligation of the Company and rank ahead of the preferred and common shares.

In view of the fact that the Company operates a service indispensable to the public, an unusually stable base is afforded to these securities. During the industrial reconstruction period following the war and while conditions are becoming normal and the trend of trade and industry is being established, an investment in the 3 year Coupon Gold Notes of this public utility, at the attractive yield of 7 p.c., is strongly recommended. These Notes will probably cover the uncertain period of world-wide readjustment and reconstruction, and yet their comparatively early maturity, June 1st, 1922, should stabilize their market price and course, and make them readily saleable at any time desired. Our suggestion is therefore to invest meanwhile in sound, conservative securities which should not be affected by commercial conditions, and it is for this and other good reasons that we regard Coupon Gold Notes as a highly attractive offering, particularly at this time.

Stone and Webster, who are experienced and expert lighting, tramway, gas and power operators, are the general managers of the Company.

The attention of careful investors is particularly directed to this issue. Full particulars on request. To ensure allotment, applications should be lodged immediately.
