

PRINTING FOR THE EXHIBITION.

Parties requiring Job Printing for the Exhibition should send in their orders immediately, so as to get them filled in time for the Show, and not crowd us too much next week.

The Model Farm.

The Hon. Mr. McKellar paid a visit to the Model Farm on Tuesday, and made a minute and careful examination of all the buildings and their internal arrangements, and also went over a good portion of the farms. He expressed himself highly pleased with all he saw, and with the excellent order and system which were observable in all the departments. Many visitors from the country will be in Guelph next week, and many, no doubt, will be anxious to visit the Farm. They are cordially invited to do so, and the officers will be glad to give them every information, and show them through the College and out-buildings.

The Guelph Central Exhibition.

Next week will be a busy one in Guelph, for it will be the week of the fourth annual Central Exhibition held in Guelph. We are much pleased to learn that the forthcoming Exhibition promises to be the best yet held, and every preparation has been made by the Directors for the accommodation of stock, and for the comfort of visitors. Considerable improvement has been made on the grounds. The fine drive around the park will be a great advantage to visitors, and should the weather prove favourable—as we hope it may—we shall see such a rush of strangers as is seldom seen in our good town.

Judging from the number of entries in some of the leading classes, it will be the largest show yet held. In cattle there may be a slight falling off, which is easily accounted for from the fact that some of the principal herds which have usually been exhibited here—such as Messrs. Snell's and Stone's—have been nearly broken up by sales. The entries in this class, will, however, come close up to 200. To balance this, there is a large increase in the class of horses, no less than 44 having been entered. This is unprecedented, and assures us that there will be a splendid display of horses. The entries of sheep and pigs will be about the same as last year. In poultry there is a very large increase, no less than 524 pairs having been entered for competition. The poultry show held here in March last no doubt has something to do with this increase. We can safely assure intending visitors that they will see the best show of poultry ever held in the Province.

In the class of implements we are informed there is a marked increase, and this important part of the Exhibition promises to be replete with interest to all who have any taste for mechanical taste and contrivance. There may be a slight falling off in the show of roots and vegetables, which is not to be wondered at when we take into consideration the dry and scorching weather we have had for some time back. In the other departments of the Exhibition we have every reason to believe the display will be fully up to that made in previous years.

The work in connection with the Exhibition is well forward. Additional accommodation has been provided for stock wherever deemed necessary, and everything has been done that prudence, and a desire to please all parties, could suggest. The Secretary and his staff are as busy as bees, but they will have all the books in good shape by Monday. Arrangements have been made for running cheap trains on the railways during the Exhibition, so that visitors will have every facility in coming to town.

Resignation of the Quebec Government.

The Hon. Mr. Ouimet sent in his resignation on Tuesday, and accompanied it with explanations. The Premier declined suggesting the name of his successor, and the Lieut. Governor did not exact the advice of the Premier. The Ministers will remain in charge of their respective departments until their successors are sworn in. The Lieut. Governor does not as yet intend to publish his letter of resignation. It is stated that the Lieut. Governor, immediately upon the resignation of the Ouimet Ministry, telegraphed to the Hon. Mr. de Boucherville, formerly Speaker of the Legislative Council, whom he will consult as to the formation of a new Government. The work of Cabinet-making in this case is expected to be difficult, and it is believed that nothing definite will be known till next week to who will be called to hold the reins of power.

Essex Reform Convention.

This Convention met at Windsor on Monday, when Mr. Wm. McGregor, lately unseated in consequence of one of his supporters at the general election having purchased a vote, was unanimously chosen the standard bearer of the Reform party at the election shortly to take place. It was the general opinion that if opposition should be offered, which, however, is not expected, Mr. McGregor's majority will exceed a thousand. McGregor's conduct during the late session of Parliament proved satisfactory to his political friends, and won the respect of not a few Conservatives, thereby strengthening his position, and the shamelessness of his opponent, whose elections had always been carried largely by means of corruption in protesting against his return, has brought to Mr. McGregor's side a host of persons who, last winter, worked and voted against him. Essex is now safe for the Reform party for many a long day.

A Conference of Evangelical Greeks, with the Anglican clergy, has been summoned by Dr. Dollinger to meet at Rome on the 15th inst.

Blood Drinkers in New York.

Upon inquiry at slaughter-houses, it is found that there are nearly two hundred persons in this city who are in the habit of drinking blood flowing warmly from oxen, for strengthening purposes and for the cure of certain diseases. A Mrs. Emily Hunter, of Thirty-fourth street, is reported to have spoken to an inquirer as follows:—"Prof. Velppeau, of Paris, prescribed blood for me. I was consumptive and hastening to the grave. It has prolonged my life fifteen years. I had the utmost repugnance for it at first, but now a half pint of hot blood from a well-conditioned ox is the greatest luxury of my life. My sister's baby has so far been preserved and nourished with little else but blood. I know twenty people who drink it in my own neighborhood to whom I have recommended it. It has extraordinary effects on some people, especially women, but should not be resorted to unless there are absolute necessities of the system." On a visit of the inquirer to a slaughter-house in Tenth avenue, near Forty-second street, he found a delicate-looking woman with a sickly, yellowish complexion, holding a glass to the blood which ran from an ox with its throat cut. Both drank two or three glasses in turn, and departed with an appearance of added vigor. One of the butchers was asked whether he ever drank blood, and is stated to have replied to the following effect:—"Shure an' I do now; why not, now? faith an' ye couldn't tell the difference between it and milk. It's just as sweet, shure; and in the winter it's warm and foine. Bedad, but it's strengthenin' shure. Hould on an' I'll give ye a drap. It's best warm—runnin' right from the baste." The proprietor said:—"All last winter we had men, women and children every morning to drink blood. They always imbibe beasts' blood, never the blood of sheep. Some of them wince a bit at first, but when you close your eyes blood warm from the beasts neck has just the same taste as warm milk from a cow. We don't charge for the blood, except when we sell it to sugar refiners." The blood of beaves is asserted to be more efficacious for weak lungs than cod liver oil, and to differ considerably in its constituents from that of human beings.—N. Y. Correspondent Philadelphia Record.

ARRIVAL OF IMMIGRANTS.—On Tuesday afternoon Mr. Henry Taylor, Secretary of the English Labourers' Union, accompanied by some four hundred immigrants arrived at Toronto by special train from Quebec. The party came over in s. s. Ontario, Dominion Line. Another party of about three hundred, all farm hands, also arrived at the depot on the same day from Quebec, having come over in the s. s. Peruvian. We are informed that about 120 of this number came out under the charge of Mr. Whellams. Another party of about one hundred by the steamer Manitoban, are expected to arrive to-day. No difficulty will be experienced in locating this large body of immigrants, as they are principally farm hands. Mr. Conrad with fifty boys from eight to sixteen years of age, who came out from Mr. Stevenson's Boy's Home, London, England, also arrived in Toronto on Tuesday and have gone on to Hamilton.

THE HERD LADDIE IN ACTON.—We are pleased to learn that on the occasion of Mr. Wylie's visit to Acton, on the 2nd inst., Mr. A. Burns, son, of Rockwood, succeeded in making out of three well-contested games, one draw with the Champion. We also understand that Mr. Hill, of Acton, succeeded in making another.

YOUNG LADIES' JOURNAL.—For sale at Day's Bookstore. An excellent number.

Sir Muta Coomara Swamy, of Ceylon, who has just been knighted by Queen Victoria, is remarkable as having been the first person who being neither a Christian nor a Jew, was admitted a barrister of one of the English Inns of Court. He was called to the bar in Jan. 1863, at Lincoln's Inn. He has done much towards making the literature of India known to the western world, having published several works relating to Indian and Buddhist philosophy; and he has given to the public an English translation of an interesting Hindoo drama, named "Arichandra."

The headquarters of the army of the United States have been transferred to St. Louis, which is somewhat significant, in view of the intended concentration of troops in the South.

Bradford, the American painter, has just finished a picture of a scene on the coast of Labrador for the Baroness Burdett Coutts, for which he asked her 800 guineas, and for which she sent him a cheque for 1,000.

The Newfoundland seal fishery this season has not been successful, and the seals seem to have been a fortnight longer in coming to maturity than last year. A cause assigned for this phenomenon is the great destruction of old seals during the two preceding seasons. The St. John's Chamber of Commerce declares that further legal protection must be afforded, to prevent this valuable fishery from becoming a thing of the past.

The Empress of Austria is said to be the handsomest princess, and one of the handsomest women of Europe.

A system of telegraphy has been established between the different police stations in Montreal on a simple alphabetical plan, which can be thoroughly understood by any ordinary intelligent man in a few hours. Several of the sergeants have already made themselves acquainted with it.

The largest diamond in the world was brought from the Province of Mino, Gerace, in the Brazil, in 1741. It was about the size of a turkey's egg, and weighed 17 ounces. When cut in 1766, it was found to weigh 1,680 carats, or 12 ounces, and its estimated value was \$5,644,800.

"Look 'ere now, Salusha," yelled a Clay county, Missouri, woman to the oldest girl, "don't bend over that well so far. You'll fall in there some of these days, and then we'll have to carry water."

LIVINGSTONE'S AFRICA.—Mr. Robt. Ingle has been appointed Agent to take subscribers for this book in the Townships of Pnalinch and Ksqueuing, and will commence his canvass in those places in the course of a week or two. This work is the fullest and most complete on travel in Africa which has yet appeared. It contains Dr. Livingstone's personal narrative of his adventures and discoveries in the interior of Africa; also Stanley's narrative of his expedition under the instructions of the N. Y. Herald in search of Livingstone. To this is added a sketch of other important discoveries in Africa, together with a full and interesting account of the diamond diggings in South Africa. From this it will be seen that this is the fullest and most comprehensive book of travels in Africa that has yet appeared, and cannot fail to be read with absorbing interest, especially that portion of it which gives an account of the heroic doings of Livingstone. It is profusely illustrated, printed on good paper, and handsomely bound in three different styles. It is sold only by subscription, and each subscriber taking a copy, will also get a lithograph portrait of Livingstone without any extra charge.

STOVES, STOVES.—Mr. John Horsman, the enterprising hardware merchant of this town, has added stoves and fixtures to his establishment making it the most complete in Ontario. Stoves of all kinds can now be had of him. Farmers and all others requiring any would do well to call at Mr. Horsman's and see his immense stock of superior stoves with all the latest improvements. He assures us that he will keep none that cannot be had in this country or elsewhere. He has also engaged careful and experienced workmen and is prepared to execute all orders for cast-iron, conductor pipes and every other kind of tinsmith's work.

DEATHS.

HAY—At Clifton Springs Sanitarium, N. Y., on Thursday morning, September 3rd, the Rev. William Hay, Wesleyan Minister of Hollis, Ontario, in the forty-third year of his age.

MICHELLE.—In Guelph, on the 9th instant, Robert, infant son of Mr. James Mitchell, Woolwich Street, aged 5 years and six months.

The funeral will take place on Thursday, at 1 o'clock p.m. Friends and acquaintances will please attend without further notice.

AND

FOR SALE—TYRCATHLEN LOTS. The Venerable Archdeacon Palmer has placed in his hands for sale the Lots in his new survey, immediately in rear of his residence and lying on the north side of Grange street. The situation cannot be surpassed in the town—convenient to Market, Post Office, Church and Schools, commanding a magnificent view of the town and surrounding country. The lots are of different sizes, and well suited for private dwellings, with a first-class soil for gardening.

Those lots on Tyrcathlen Terrace are well adapted for general residences, and will only be sold to those who will bargain to put up good buildings. Plans of the Lots can be seen at my office and particulars learned. Terms very liberal. Purchases made this Fall, interest on balance of purchase money will not commence until 1st April, next.

If desired, the lots will be pointed out on the ground. Also, 17 other lots lying to the north of Palmer street, in Macdonald's survey, and on Queen and Arthur streets. An early call is solicited. CHARLES DAVIDSON, Land and General Agent, Town Hall Building, Guelph. Guelph, Aug. 31, 1874 dwif

BOOTS AND SHOES. WM. NOBLE, Opposite the Market, Guelph NEXT TO HAT STORE. Great inducements will be offered for this season at Wm. Noble's shop, opposite the market.

He has now opened out his fall goods, which he will sell at the lowest prices, all new goods, no old stock in his shop. The kindest attention will be paid to customers, that favour him with a call. My motto is "quick sales and light profits." I am also prepared to make all ordered work, in the neatest style and of the best material, no matter how small. All sorts of little boys' work will be kept on hand. Repairing done on the shortest notice.

2 Shoemakers wanted that can make first-class work. Highest wages will be paid, and steady employment. WM. NOBLE, Guelph, Sept. 2nd, 1874. dwif

D. R. W. H. LOWRY, Graduate of University of Trinity College, Member of College of Physicians and Surgeons, Ontario. Office—Next door to Mr. Jas. Hazleton, Upper Wyndham Street. Guelph, August 2nd, 1874. d&wfm.

MILLS & GOODFELLOW, Guelph, Sept. 9, 1874. dwfj1

Co-Operative Store. On reference to all our advertisements since commencing business in Guelph seven years ago, it will be seen that we never offered "To Slaughter Goods," "To Sell at Half Price," "To Sell at a Great Sacrifice Irrespective of Cost," "To Sell 50 per cent. under other Houses," "To Keep the Largest and Best Stock in the Dominion."

We have carefully obtained from exaggeration, giving facts and figures only, leaving it to the buyers to judge for themselves. Our aim has been to buy low, sell cheap to increase our sales, to allow no house to undersell us, to give our customers a share of profits, and make only one price.

The result has been that we have done a steady, prosperous, and increasing business, retaining old and obtaining new customers. Some left us to obtain goods "at half price," but soon returned, as "actions speak louder than words." Hence we will continue to conduct our business on the same principle.

J. C. MACKLIN & Co. GUELPH, Sept. 7, 1874 dw
