calves, \$2.50 to \$12 each; and the lean hope, veto \$5 each.

BRITISH TRADE.

EDINBURGH, June 13.—John Swan & Sons weekly report says: The supplies of home-fed cattle have been generally smaller all over this week. The demand has been good and the highest prices of the season obtained. The English markets as a rule also having been better caused a large attendance of south country buyers, while there was a strong contingent from Ireland, and the local demand decidedly better. There were 100 States cattle at Yorkhill, which are reported to have met a good trade. There have been about 1,500 Canadian cattle in Glasgow, a large number of which were exceedingly prine, and in many cases nearly made top price. There are 1,200 due for next week.

The number of fat sheep on offer has been about the same, and of lambs considerably more. Best descriptions of sheep realized a fair trade at prices similar to last week. Ewes showed in larger numbers and made lower prices. Lambs were more numerous and a great proportion of which were of secondary quality; best grades made previous prices, but secondary were from 1s to 2s cheaper. Calves, a large and good show, and again mat a dear trade at late rates. Pigs

were of secondary quality; best grades made previous previous the secondary were from Is to the secondary and the secondary and the secondary and the secondary cowing to the continued the secondary cowing to the continued the secondary secondary
