Catholic Cathedral for London. London, Aug. 29. - The Times announces that a scheme which has been under discussion for 30 years has practically matured to build a Roman Catholic cathedral in London, on a site in Westminster purchased by the late Cardinal Manning for £55,000. The total cost of the edifice, it is estimated, will be £250,000. Nearly half of the amount has already been subscribed. The whole of Catholic Christendom will be invited to subscribe, and each person who gives £1,000 will have his or her name inscribed upon the cathedral as a founder. Liberal donations, the Times says, are expected from the United States and the British colonies. The architect, Bentley, has been intrusted with

the work of drawing the plans. A Sick Czar.

ST. PETERSBURG, Aug. 29 .-- The health of the Czar is causing general anxiety in Russia. There is no longer any doubt that His Majesty is threatened with grave kidney troubles. It has been apparent for some time to those who have seen the Czar in public that he is a sick man. He has town a bolt of lightning struck the front grown thin, his aplexion is pale and of a bad color, and b has the air of a man who Mrs. Hillyard and a baby, killing the is greatly fatiremarked among the spectators at the was in the lap of the mother, but escaped recent launching of the armored cruiser | uninjured. Admiral Seniavine.

It is semi-officially stated that the sole reason for countermanding the order for current number of the Quarterly Review,

Zaccharin was summoned to St. Petersburg to see the Czar it was the opinion of the palace physicians that his Majesty was suffering from a loose kidney. Prof. Zaccharin, after a thorough examination of the patient, declared that the dangerous malady did not exist, but that the Czar was suffering from pronounced albumen-

The future movements of the imperial family will be regulated by the progress of the Emperor's disease. The Emperor will undoubtedly go to Copenhagen, as his physicians are of the opinion that the voyage and change will do him good. Prof. Zaccharin will be appointed inspector of medical affairs at the imperial court, so that he will be able to be in constant attendance upon the Czar and watch closely the changes in his condition.

Chinese Report of Japanese Reverses. SHANGHAI, Aug. 29 .- The native press has received confirmation of the battle fought between Chinese and Japanese troops on Aug. 13. According to them 3,000 Chinese of all arms attacked the Japanese force which had been detailed to guard the Ping Yang passes in the northwest of Corea, and eventually succeeded in driving the Japanese from the positions which they held. A large number of Coreans flocked to the Chinese standard, begging for arms and asking for permission to form the advance guard of the Chinese force moving against the Japanese. On Aug. 14, according to reports, the Chinese were reinforced by 4,000 troops from Yi Chow, and the following day they attacked the Japanese lines at Kong Ho, with the result that the Japanese retreated. On Aug. 16 the Chinese army was further reinforced by 13,000 fresh troops, and on the 17th they attacked the Japanese, who are said to have lost 4,000 men and their

heavy baggage. The Chinese on Aug. 18 advanced to Huang Chow, and, passing too near the Tatung River, where thirteen Japanese warships were moored, they were attacked by the Japanese, who opened fire upon them with the ships' guns, inflicting a loss of several hundred men on the Chinese

side. At obb tide on the same day, the native reports add, three of the Japanese warships found themselves aground, and were afterwards severely damaged by the fire of the Chinese artillery, which was handled from ambush.

The bulk of the Japanese forces, it is asserted, retreated southward, pursued by the Chinese cavalry until night stopped the atter's advance. Finally Gen. Yeb, the Chinese commander, made a detour and attacked the Japanese in the rear, completely routing them and capturing Huang

The general news received here does not confirm the reports of these Chinese successes published by the native press.

The Shanghai correspondent of the Cen-Scotland complain that under-paid letters | tral New says: There is an uneasy feeling in Tien Tsin owing to the attitude of the native troops. For eigners are arming themselves, as they fear an attack.

The Dutch Defeat Was Serious. THE HAGUE, Aug. 29 .- The Official LONDON, Aug. 29 .- The Daily News says | Journal today publishes a dispatch regardating against the Rajah of the Island of Lombok, near Java. Gen. Vetter, the commander of the expedition, was surprised at 11 o'clock at night near Tjakra Negra. The firing was continuous until morning, and the Dutch in this engagement lost 14 killed and 85 wounded. As the water supply of the column failed and as foraging was impossible, the Dutch troops were compelled to retreat towards Mataram, the capital of the island. During the retreat the Dutch lost heavily, being con-tinually harrassed by the natives, and at one place in the route they found barricades had been erected. The obstructions were so stoutly defended by the native warriors that troops were unable to force another passage and were compelled to make a long detour to avoid lost more men. The Dutch succeeded in reaching Ampenan on Aug. 25 with a total of casualties far in excess of that first reported. The killed included four officers and 63 men; there were twelve officers and 153 men wounded and six officers and 148 men missing. In addition the Vetter column lost four field guns.

It now appears that two other columns oi Dutch troops operating upon the same island have sustained heavy losses and endured much suffering. These are the columns commanded by Cols. Pabst and Bylevelt. These columns have been operating separately and have also succeeded in reaching Ampenan. Their losses are not stated, but they are admitted to be heavy. Col. Van Pabst was among the officers

Tuesday evening Mrs. Garrow, an old lady, mother of J. T. Garrow, M.P., Goderich, while walking near Seaforth fell, sus-taining a fracture in the hip joint. The circumstance is more distressing on account of her husband being buried the day previous. Mrs. Garrow being well up in years makes her recovery more doubtful.

Fortunate circumstances have made the lumber shipping trade from Ottawa this season very satisfactory, despite the world-wide depression there has been in matters commercial. At the opening of the season the unusually low freight rates offered by Atlantic freighters induced the English dealers to purchase large quantities of deals. This kept the shipping fairly brisk all summer, and just as this market was failing somewhat the free lumber clause of the American tariff bill has had the effect of increasing the trade in ordinary plank and boards sufficient to take the place of

METEOROLOGICAL MELANGE.

Blinding Smoke, Foge. Forest Fires, Electric Storms and Some Showers, SMOKE AND FOG.

CHICAGO, Aug. 29 .- The wind changed to the northeast and blew fresh at 11 o'clock today. It seemed as if all the smoke on the lake was blown up into this pocket, and at noon it was impossible for the lookout at the life-saving station to see the dock on the other side of the river. Mingled with the smoke was fog, and captains of big steamers could not see the other end of their boats. The prophet of the weather bureau predicts that the smoke will stay on the lakes for some time, as only a heavy rain or high winds will dispel it, and neither of these are new on the cards. FOREST FIRES.

VICTORIA, B. C., Aug. 29.-Reports of all kinds reached here in regard to the forest fires in the vicinity of this city and across the straits. One report stated that the whole of the island of San Juan is threatened.

THUNDER STORM AT SEAFORTH. Nipissing Liberals Chose C. A. Mc-Cool as Their Candidate.

Patron Picnic at Port Colborne-Federal Fiscal Policy Severely Scored.

SUDBURY, Aug. 29.—The Liberals of the newly-created Dominion electoral district of Nipissing met in convention here yesterday and selected Mr. C. A. McCool, of Mattawa, as their standard-bearer in the approaching election. Dr. R. H. Arthur, Sudbury, was elected as president.

Welland, Aug. 29.—The Patrons of Welland and Monck held a very successful picnic here yesterday. W. D. Misener, county secretary, acted as chairman, and among the speakers were Prof. J. F. Beam, M. A. Gifford, grand trustee, of Meaford, and J. Lockie Wilson, grand trustee, of Glengarry. The latter, in the course of his remarks, said that the farmers were showing they were alive. In the Ottawa Cabinet of sixteen there were eleven lawyers and no farmers. Doctors, lawyers. manufacturers, lumbermen, combine for their interests. We, he said, must do the same. We want tariff for revenue only, and that on luxuries. Coal oil on the other side was 6 cents; why pay 15 to make a few coal oil millionaires? lassey, Gurney and many others have been made millionaires by us. The manufacturers are granted free raw material; we, as tarmers, demand the same. I have always voted Conservative, but this is changed now. The cities have doubled in population, but there are fewer farmers and farmers' sons now than fifteen years ago. There is one law for the rich and another for the poor. The poor stay in jail; the rich contractors and Government supporters, Connolly and McGreevy, are discharged when prison air does not agree with them. The speaker severely scored the Curran bridge scandal, the uselessness of the Senate, the expense of the Cabinet and the Government House at Ottawa, all piling up heavy amounts squandered, the greater portion of which is paid by the taxes on farmers. Mr. Wilson closed by

Knew the Countess of Dufferin-Always Contributed to Her Mother's Support.

HARTFORD, Conn., Aug. 29 .- The confidence woman, Mrs. Robbins Howe, who is now in jail here awaiting trial at the September term of the Criminal Court, will not be able to obtain bonds. The story of her career reads like a romance under the new lights that have been thrown upon it. She first came to Hartford during the Centennial year, and became a member of the First Methodist Church, under the pastorate of the Rev. Richard Meredith, cousin of the well-known New York preacher. Mr. Meredith gave her high recommendations when she left the city for

work in Canada. She met the Counters of Dufferin at the Viceregal House in Canada, when her ladyship's husband, the Marquis of Dufferin, was Governor-General. Mrs. Robbins Howe's assumption of the name of Mrs. Kent Mason was the first cause of trouble between herself and her husband, the Rev. Mr. Clayton. The latter, seeing the success which his wife was having as a lecturer, asked and afterwards tried to have her add his name to hers, making the name "Mrs. Kent Mason Clayton." He wanted his name to have the credit of the success of the woman whom he had married. She refused.

Clayton's conduct got him into trouble with the Methodist denomination, and he found it impossible to get a pastorate. His friends succeeded, after some time, in getting him a small church in a remote parish in Vermont. Then he went to England, where he married again, and dropped out of sight. Mrs. Robbins Howe has always managed to spare something for the support of her mother, who was afflicted with partial blindness.
