H. C. Becher, broker, Bank of Com-merce building, received the following by private wire from Bartlett, Frazier & Carrington today:

New York, May 16-Noon.—There was a semblance of activity in the market during the forenoon session, but most of the active stocks show fractional decilines. The exception to the general rule was Consolidated Gas, which had a sharp upturn in the first hour. It sold higher than at any time during the recent size. than at any time during the recent rise in the stock. Erie, first preferred, was weak again today, and broke easily, on comparatively small transactions. Steel, preferred, showed a fairly good tone, but no particular strength. Atchison, St. Paul and Union Pacific rowsed within a present and Union Pacific moved within a narrow range. Copper was fairly strong. Some friends of Metropolitan were active in that quarter. The market is again in-

clined to drag. MONTREAL.

IS PUSHING AHEAD

Londoner Who Had Secured a Work of Extending Lines to St. Thomas From Lambeth Began Today.

Joseph Anderson, who resides at 589 King street, is the latest Londoner to suffer through the alien labor law of the Construction of the London and Southwestern Traction Company's lines to St. Thonas. Mr. A. E. Welch, managing director of the company, and Capt cently secured a situation in a toy factory at Toledo, and started for that place on the Grand Trunk on Sunday. At Port Huron an American officer came through the train, examined Anderson's railway ticket, asked him a number of questions and finally took him to the customs office at the Tunnel summit. Anderson intimated that he was going to Toledo for a visit with friends, but the officer did not place much faith in his statements, apparently, for he had Anderson detained, while a message was sent to the contract on the company to pay the city tracks, poles, etc., the sum of \$1,000 per annum, payable in quarterly payments of \$250 each, rental to commence as soon as the track is put into use. tained, while a message was sent to Toledo. Inquiries were made by telegraph and the answer came back from Toledo that the Londoner was going to work quarterly payments of \$200 each, rental to commence as soon as the track is put into use.

"If track is obstructed and not in use, rental to cease during the term of obstruction."

At present our assessment is about \$425,000, and we are prepared to allow the agreement whereby the city is to collect three extra mills from use.

struction. is to collect three extra mills from us of annually to go on for ten yars. If this Anderson was permitted to go no further. Officer Petit ordered him to return to Canada, and at the same time gave him a certificate to the effect that he had been turned back. Ander-

PROPOSAL TO PAVE HALF THE STREET!

Between Waterloo and Wellington, Pushing Project.

The paving question is again looming Mr. Hopper, who was a member of the credential committee, says that the up in London. For some time people convention was an inspiration. So ne of the pleasing things that he heard on Dundas street between Wellington and Waterloo. Of course, the parties interested are well aware that the paying of the street has been blocked be-

THE MYSTERY OF DREAMS.

by a breakwater, the lives of many people will be removed from jeopardy, and the city will remove a matter from the municipal arena, which it must sooner or later deal with." In his lecture on "Dreams," given recently in New York, Charles W. Lead. beater suggested, in opening, that how ever much theosophy might be accused of dealing with the occult and recondite, here was at least a subject of To the Editor of The Advertiser:

In view of the fact that the rooms over the public library are now once more vacant it behooves our public library board to turn their attention to the idea of placing a local museum in the building, for which purpose, without doubt, the second story of this building was intended and designed. Some two or three years ago the matter was brought to the notice of the library board, and they thought the proposition a good one, but as many improvements were still to be universal and familiar interest.

ing of the street has been blocked because of the fact that the property owners on the north side want the pavement to run clear to the sidewalk, a few feet from the frontage line, where as those on the south side only want the pavement to extend to the sidewalk, which now runs fully 30 feet from the frontage line. And the north-siders ask the south-siders to pay for half the pavement, despite the fact that almost of the street railway rails. This the property owners on the south side responsible to the south s
