QUARTERLY MEETING OF TRAVELLERS' ASSN.

Local Option Hotel Problem.

The Western Ontario Travellers Association held their general quarterly meeting on Saturday afternoon at their rooms in the Masonic Temple. A committee was formed to look into the hotel problem in the local option districts. In these parts it was alleged by

many travellers that the accommodation

was inadequate for the rates charged. The committee will report to the Government and try and overcome this. Ald. Ferguson, the second vice-president, was heartily congratulated for getting the date of the municipal elections changed to a more convenient time. After a number of speeches, the report of the committee of managers was read

and made a very favorable impression. It read as follows: "We have very much pleasure in reporting continued progress and prosperity. There is every indication that the volume of business is rapidly increasing. All departments of agriculture have been so prosperous during the past year as to enable the commercial interests to quickly titled "Popular Fallacies," by A. S. quirements and the quick growth of the purchasing power; the immigration also, especially that of settlers from the United States in Western Canada, will far surpass that of any previous period. "In conjunction with the Toronto Asso-

made some time ago to obtain better hotel inspection and accommodation throughout the Province. A joint deputation waited upon the members of the Provincial Government on the 13th of as it seems to be at variance with the March, and urged upon their attention general practice in our Canadian law the particular points involved. It is hoped and believed that a great improve- still believe, that a man's fields and inment in these important respects will be promptly achieved.

"It will be a matter of satisfaction to note that the Government have complied actual injury done by the trespasser to with our repeated representations and fixed New Year's Day as municipal voting day for this city. This will prove a great convenience to very many of our members and the public generally.

"Since our last annual meeting we have had to mourn the loss by death of the following late members, several of whom were among our oldest and most highly respected associates, viz.: John Turner, A. S. Tassie, R. D. B. Nicholson, William Hilborn, A. W. Porte, R. S. Williamson, J. S. Pearce, George R. Thompson, T. S.

"We beg to extend to their respective families the expression of our deep sympathy in their loss and bereavement, and also of our appreciation of their services. All of which is respectfully submitted.
"ALF G. ROBINSON, Secretary.

"J. T. GREEN, President." There was a splendid attendance, among whom were: President J. T. Green, Secretary Alf. Robinson, First Vice-President R. E. Davis, Treasurer W. J. Underwood, W. R. like to say that I was very much surprised at Ald. Cooper for voting to foist these pavements on the ratepayers. A few years ago, when Ald. Cooper was the engineer for No. 4 ward, he was mainly instrumental in having macadam pave-ments laid on Waterloo and Colborne streets. While these pavements did not cost as much as the high-priced macadam pavement on Dufferin avenue, they were for all practical purposes just as good, and much preferable to the shoddy payements too often foisted on us by paving

the ratepayers at the mercy of the paving companies, and shuts out competition. If the matter is left to the ratepayers they need not initiate a pavement unless they get a fair tender beforehand from the paving companies.

I am informed that the proceedings

with reference to these proposed pavements at the last meeting of the council was totally out of order and illegal. The engineer recommended the matter to No. 2 committee, and this committee recommended it to the council. I am informed that the committee had no power to do this, as the matter had never been referred to them, and that this underhand and foxy way of railroading things through the council is illegal. The proper way is for a matter of this kind to be brought before the council and then referred to the committee to be reported on. This would have given the ratepapers interested ample time to raise their objections both before the committee and before the council. Should these pavements be laid t is quite likely that the members of the council who voted for them will have the extreme pleasure of paying for them out of their own pockets. After all, this would not be so very distasteful to the ratepayers interested. Yours truly, Yours truly, WARD FOUR.
