Cannot Have Permits.

The management has done everything in its power to strengthen the lne-up, and an effort was made to get a permit to play Bice, who has been such a strength to the team in former years, but Petrolea also put in an application to play Crapper, but the union did not consider that they were justified in this action, as the winner of this district will be going into the semi-finals, and such permission would not be fair to the opposing team in the latter series.

Still, without this addition, the team will be strengthened considerably. Two new men turned out last night in the persans of Len Sage and Barney Gilmour, both of whom are well-known players, and will be a decided acquisit tion to the wing line.
