A Rheumatic Mystery.

Here are some marvels of medicine! A dose of Aconite will climax at three 'clock in the morning. Aloes will operate at five o'clock a. n and sulphur at eleven o'clock.

No matter what time, in the preceding day, you have taken these medicines, they will climax at the fixed hours here stated and reveal certain symptoms always. How do you account for this?

ibility to predict a coming storm 24 hours ahead, by the peculiar ache in his bones? Rheumatism is simply Uric Acid in the blood. Can Uric Acid have its time limit, like other chemicals, but reflecting backward like a barometer?

Uric Acid is due to a lack of Alkaline material in the blood. This Acid absorbs the debris, or waste matter, of the system It carries this waste matter into the blood, when there are not enough Alkaline elements (like salt or soda) to neutralize the Uric Acid, and to free the debris before it reaches the kidneys.

As the blood circulates through the sys tem, it then deposits small particles of this waste matter in the joints and muscles. These particles are like granulated sugar or sand, and they grind between the joints and muscles at every movement.

This grinding causes intense pain and inflammation, frequently. If the disease be not checked, the inflammation will cause the Uric particles to be coated with a fleshy the fire on the steamer Queen, which cushion, which in time grows to the joints as well. Then "bony joints" and crooked limbs ensue.

The only way to cure Rheumatism is to convert the Acid condition of the blood into an Alkaline. Then, to dissolve, and carry away the deposits in joints and muscles.

Then, to get the digestive organs into a normal condition, so they will secrete, without further help, less Acid and more cure, and the permanence of cure. Butit is useless to kill Rheumatism if we also Few drugs powerful enough to dissolve Uric Acid deposits are safe to take into the

stomach. This is why so-called "quickcures" are dangerous. Rheumatism is slowly acquired, and se a cure cannot be expected in a few weeks' treatment, and never by external applica-
