Many Contradictions of State-

Defence

CONDITIONS IN MINING DISTRICT

Charge of Perjury Against Railway
Agent Alled Taken up Before a
Magistrate

Boise, Idaho, July 16.—In the last
stage of the case against Wm. D.
Haywood, the prosecution put six wit-
nesses on the stand to-day to rebut
the evidence of the defence. Three
testified to conditions in the Coeur
d'Alene in 1899 and three to the situa-
tion in Colorado during the strike
period of 1902 and 1904. One of them
flatly contradicted the evidence intro-
duced by the defence to show that the
explosion at the Vindicator mine was
due to an accident.

While the big trial was going on in
the district court before Judge Fremont
Wood, an interesting offshoot of the
case was being heard in the small
room used by Justice of the Peace
Savage, C. W. Allen, the depot agent
who was arrested charged with per-
jury, was brought before the magis-
trate for a preliminary hearing. The
state was represented by Prosecuting
Attorney Keelsch, and the prisoner by
Peter Breen, an attorney of Butte, who
has been associated with Haywood's
counsel, having been retained by the
Miners' union of Butte, Mont., to
watch the case.

Fred Miller, who was Orchard's
counsel at his preliminary hearing at
Caldwell, immediately after the ar-
rest of Steubenberg, assisted Mr. Breen.
The principal witness in the perjury
hearing was Orchard himself. The
prisoner was brought before the peni-
tentiary in charge of Warden Whitney
and a penitentiary guard.

Not more than a dozen people out-
side of the principals in the case, and
the other witnesses in the case, were
present when Orchard went over his
testimony as to his connections with
D. C. Scott. The railroad agent, W.
Allen, swore that Orchard had
Cripple Creek two or three weeks be-
fore the explosion at the Independence
depot on June 6, 1904.

Orchard was closely cross-examined
by Breen, but on questioning
brought out any material change in
the original story. Breen was more
severe in the magistrate's little court
than was the cross-examiner when
Orchard was the star witness for the
state in the Haywood trial, but Or-
chard maintained the same calm ex-
terior and answered each question
with quiet poise.

A number of other witnesses were
examined, the case taking up most of
the day. A motion to dismiss will be
argued tomorrow afternoon. Allen was
released on a \$5000 bond.

In the Haywood trial, Edward Al-
vard, a physician of Burke, one of the
mining towns of the Coeur d'Alene,
swore that he saw Orchard on the day
of the blowing up of the concentrator
at Wardner, and that he came from the
train returning from Wardner. This
train was in possession of the mob that
blew up the concentrator and killed
two men.

Alvard contradicted the witnesses
for the defence, who said they saw
Orchard playing poker on that day at
Mullan, several miles away. One of
the defence is that Orchard was not
at Wardner and had no part in the
riot.

A. T. Holman, sworn in rebuttal of
testimony of Orchard, was called for
the defence. Wood had said that he
saw Beck and McCormick, the two
men killed by the explosion at the
Vindicator mine, the eighth level
before the explosion, and afterwards
found the bodies on the sixth level.
He said that Beck carried a saw box
on that day, and that he saw a box of
powder on a water barrel on the sixth
level just before Beck and McCormick
went up to the sixth, where the ex-
plosion occurred a few minutes later.
The impression created was that the
two men carried the powder with them,
and Beck dropped his revolver, which
exploded and the powder went off.
This would also account for the
finding of shattered parts of a revolver
near the body. Orchard swore that he
fired the powder with a pistol. Hol-
man was a superintendent of a neigh-
boring mine, and formerly superintend-
ent of the Vindicator. He was one of
the first to go down the shaft of the
Vindicator after the explosion. His
evidence, given largely from a pre-
pared chart of the mine, contradicted
Wood on many points.

E. C. Ramsay, an acting man and re-
lative of McCormick, followed Holman.
He was in charge of the powder in the
mine at the time of the explosion. He
knew Beck and McCormick well, and
swore that neither of them ever car-
ried a revolver, that there was no
powder in the mine at the time, so far
as he knew, and that there was no
water barrel on the eighth level, as
Wood had stated.

Sheriff Routan, of San Miguel county,
was the last witness of the day. He
testified as to the strike conditions.
Under searching examination by E.
F. Richardson, Routan admitted that
union miners were deported and driven
by force from the county, while he was
sheriff, and that no attempt was made
to prevent or punish those who attack-
ed the union men. He said the de-
portations were made by the leading
citizens of Telluride.

Boise, Idaho, July 17.—The state of
Idaho rests with the evidence it has
introduced to prove that Wm. D. Hay-
wood, secretary and treasurer of the
Western Federation of Miners, con-
spired to kill, and therefore murdered
Frank Steubenberg, a former govern-
or of the state.

Haywood's counsel will rest his case
tomorrow, as no evidence is con-
cerned. Possibly some witnesses will
be called in rebuttal, but Hay-
wood's lawyers announce that their
case will be closed without further
evidence. On Friday morning argu-
ment is expected, and the last stage of
the trial will begin.

After dismissing the jury this after-
noon Judge Wood said that in his
opinion the evidence introduced by
the defence to prove a conspiracy on
the part of the mine owners, by show-
ing the deportation of miners from the
Cripple Creek region of Colorado dur-
ing the strikes of 1902 and 1904, was
immaterial and should not be submit-
ed to the jury. On the other hand,

he said, the showing of two men in the
Coeur d'Alene region of Idaho, did
not appear to the court to be genuine
and should be eliminated. He an-
nounced, however, that the court would
hear argument tomorrow on those
points. Further, however, the court
asked that requests for instructions
be submitted at once. Arguments on
those instructions may be expected to-
morrow.

Judge Wood has already said that
by giving counsel notice of the main
points on which the jury should de-
cide, he hopes to shorten the argu-
ment. Judge Wood said he would hold
three two-hour sessions daily during
the arguments. A. W. Galloway will
open the argument for the state, and
E. F. Richardson for the defence.
Clarence Darrow will close in behalf
of Haywood, and the final argument
will come from Senator Borah for the
state.

The last day of the state's case
opened with the statement by At-
torney Richardson that he desired the
court to order D. Scott, Wm. Dewey
and J. O. Rutan, witnesses who have
testified in rebuttal for the state, to
remain within the jurisdiction of the
court.

The state called only two witnesses
in rebuttal today. The witnesses ex-
amined were from Colorado and they
gave vivid accounts of the conditions
around the mines. The last witness
for the state was Wm. Stuart, a
Scotchman. He was a miner in the
Cripple Creek region during the
troubles, who had warned him that
the wild law was being enacted. He
quipped if he went to work as a
"scab." With native stubbornness
Stuart went to work and today with
native wit he was the consequence. He
was beaten with revolvers, he was
thrown down, his head was beaten in
and finally he was shot through the
back as he lay on the ground. Stuart
said he was in the hospital for three
months. A few days after the as-
sault, Stuart said, the militia came
to the district.

Mr. Richardson dismissed the wit-
ness with the words: "That's all,
Stuart wheeled out of the witness
chair, and as he sat down he said:
"Humph, well there's more if ye want
it."

SMUGGLING CHINESE.

A Well Organized Conspiracy Reported
Unearthed at Vancouver.

Vancouver, July 16.—What appears
to be a well organized conspiracy for
the importation of Chinese into Canada
has been discovered on board the R.
steamer Tartar, and customs officials
here are much excited over their find.
When the \$500 head tax and \$1,000 fine
for bringing in Chinese was first con-
sidered, it is reasonable to believe
that the company's officials are also
excited.

Thirteen Chinamen were discovered
stowed away in the steamship Tartar
yesterday afternoon about 5 o'clock.
Some were found in the extreme for-
ward part of the hold, while others
were stowed away in the coal bunkers.
Suspicion was aroused on Sunday
night when several Chinamen were
seen hovering around the ship in
boat. Strict lookout was kept all
during the night and yesterday un-
til the officers could make a thorough
search.

About 5 o'clock the ship's crew were
called to the upper deck in charge
of Inspector McKinnon, who with other
officers made the search. The search-
ing party consisted of J. M. Bowie,
collector of customs, Chief Landing
Walter P. Allen, Assistant Landing
Walter J. E. Fagan, Officers McKin-
non, Cosgrove and McAllister.

After going over the ship carefully,
three Chinamen were found in the for-
ward part of the hold, and a con-
tinued search found ten more in the
bunkers. Great excitement spread
through the ship's crew as the search
went on, and it is believed that the
stowaways' fellow countrymen
were doing all they could to aid them
to gain their freedom. When found the
stowaways were grimy with coal dust
and, needless to say, extremely suffer-
ing from their long confinement, making
it apparent that they had received
no assistance from some of the
crew. There was no luggage found.
The Chinamen were taken to the de-
tention sheds and will be held there
until a steamer leaves for the east, they
can be deported. Two of the Orientals
were found to be great big five-footers,
with every indication of being bad
characters, and the officers fear that
they might make a successful capture
in not letting these thirteen stowaways
get smuggled through.

It is reported that three more China-
men were taken from the steamship
Tartar this morning and placed in the
large cell with the stowaways dis-
covered yesterday. Officials will not
talk regarding this wholesale stow-
away scheme, and it is not given out
until the route and the three men
placed in the cell to-day are stow-
aways or members of the crew held
under suspicion of aiding the other
men. Presumably, though, they are
stowaways, or they would not be put
in communication with those they had
been aiding. The Chinamen detained
are non communicative, and even
if interrogated by the officers, would
deny that they were instrumental in bring-
ing them here.

The customs house officers are making
a thorough investigation, and de-
velopments may result in a search in
the plot to smuggle the Chinamen, as
the stowaways were supplied with
bedding and other luggage, which was
discovered this morning. It is impos-
sible for this number of Orientals to
conceal themselves on board without
the knowledge of some member of the
crew, and officers are making a rigid
investigation to place the blame where
it belongs. It has been said that the
steamship Tartar may be liable to a
heavy fine by the customs.

Edmonton, Alberta, July 16.—Jas. K.
Cornwall returned on Saturday from
a two months' trip to the northern
country beyond Athabasca Landing.
Mr. Cornwall was on a trip along the
proposed route of the Edmonton &
Fort McMurray railway for the pur-
pose of studying the topographical fea-
tures of the route and the prospecting
for the timber and ballast. He says that
there are no engineering difficulties to
be contended with in constructing the road,
and that all the material except the
steel can be obtained at convenient and
accessible distances along the entire
route. The portion of the country
traversed was from Fort McMurray to
Lac La Biche, thence across country
to Athabasca Landing.

Mr. Cornwall states that the wolves
are certainly devastating and causing
inestimable loss among the settlers of
the upper Peace river country. At
Dunvegan and Fort St. John over \$25-
000 worth of horses have been killed
by the wolves. Mr. Cornwall says that
something drastic must be done at once
to save the livestock of the district.
The fur catch, says Mr. Cornwall,
was not large this year, owing to the
fact that the lynx and rabbits are
scarce.

The oldest newspaper in the world,
the King Pao, or News of the Cap-
ital of Peking, will celebrate its five-
hundredth anniversary this year.

Interesting Figures In Bulletin
Issued by the Census
Department

Ottawa, July 10.—(Special corre-
spondence.)—The Census department
to-day issued another bulletin, which
divided into three classes, according to
the volume of production, the man-
ufacturing industries of the country.
The statistics in this table are for
the calendar year 1906. Compared
with the census of 1901, which was
in the first class 178 works producing
\$50,000 and over in 1906, as against
72 in 1901; in the second class there
were 62 works producing \$750,000 and
over in 1906, as against 24 in 1901, and
in the third class there were 17 works
producing \$2,500,000 and over, whereas
not one factory had reached that
amount in 1901. The greatest volume
of production by a single factory in
1906 was over \$3,000,000, and the
greatest in 1901 was under \$4,500,000.
The production of all works in the
year 1906 was \$481,053,371, and in 1901
it was \$717,118,922.
