

"YOU'LL SUFFER ALL YOUR LIFE"

That's what the Doctor told him

"Fruit-a-lives Cured Him"

CAMPBELLTON, N.B., Jan. 25th 1912
"For over twenty years, I have been troubled with Kidney Disease, and the doctors told me they could do me no good, and that I would be a sufferer for the rest of my life.
I doctored with different medical men and tried many advertised remedies, but none of them suited my case.
Nearly a year ago, I tried "Fruit-a-lives". I have been using this fruit medicine nearly all the time since, and am glad to say that I am cured.
I give "Fruit-a-lives" the credit of doing what the doctors said was impossible.
I am now seventy-six years old, and in first class health."

GEO. W. BARKLEY.
In all the world, there is no other remedy that has cured so many cases of so-called "incurable" kidney disease, as "Fruit-a-lives".
This famous fruit medicine acts directly on the kidneys—beating and strengthening them—and ridding the system of the waste matter that poisons the blood.
Box, 6 for \$2.50, trial size, 30c. At dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

Should our enthusiasm carry us away, and Resall "93" Hair Tonic not give entire satisfaction to the users, they would lose faith in us and our statements, and in consequence our business prestige would suffer.

COINS OF LONG AGO

Workmen Find 500 Silver Pennies Beneath Church Floor

On behalf of the Crown claim was laid to some 500 silver pennies of the reign of Henry III, found by workmen employed in removing Staggings Church, on the Duke of Bedford's Woburn estate.
The coins, which are dated between 1248 and 1273, were concealed five feet below the present chancel floor and one foot below the ancient floor. It is thought that they were a votive offering in recognition of a safe return from abroad and placed before a shrine of the Virgin Mary by Peter di Vitella, who was rector of the village from 1247 to 1273.

He who does not respect confidence will never find happiness in his path. The belief in virtue vanishes from his heart, the source of nobler actions becomes extinct in him.—Auffenberg.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

WAS DUKE'S ORDERLY

Fifty-Two Years Spent as Soldier and Gatekeeper of Park

Gatekeeper John Burrows, one of the best-known of the Royal Park-keepers, who is retiring after having served his country as soldier and park-keeper for fifty-two years, was practically the whole of his 106 days' foreign service the selected orderly of the Duke of Connaught, who was commanding the Brigade of Guards in Egypt.

Mr. Burrows is the possessor of the Egyptian medal, with a bar for Tel-el-Kebir, the Khedive's star for the same campaign, the medal for long service and good conduct, and the Coronation medal of King George. He had been a soldier for twenty-two years before he saw active service, having volunteered for the Egyptian campaign at the opening of the war in 1882.

"On arrival at Alexandria," he said in an interview, "I was appointed the Duke of Connaught's orderly, an appointment I held all through the campaign. When Sir Garnet Wolseley came out to Alexandria he found that Arabi Pasha had some troops near Ismailia, and we were re-embarked at Alexandria for that town, which was on the Suez Canal, and went up the desert after him.

"I was on the field with a Royal Highness during the battle of Tel-el-Kebir, but was never able to get into the fighting line. Next day we went to Cairo, and there the cavalry captured Arabi.
"We returned home in December, 1882. Without any loss of time I obtained my discharge and received the appointment of park-keeper at Regent's Park in 1883. After a time I was sent to Kensington Gardens; from there I went to Queen Anne's Gate, and finally they transferred me to Buckingham Palace, giving me the Prince of Wales's Gate lodge, at Hyde Park, for a residence." Mr. Burrows intends to spend the remainder of his life with his sister near Nottingham.

ARRESTED A LORD

Constable and Baron Act Unwittingly in Jasper Park

An amusing story of an English nobleman who overestimated the wildness of the west and nearly got locked up by the mounted police as a result comes from Pittsburgh, Alberta. It appears that Lord Congleton took a trip to the Rocky Mountains for a little shooting, and accidentally got into Jasper park in his quest for big game.
The noble lord saw a large mountain sheep within easy range of his rifle and potted the animal with ease. Encouraged by his success, he went on a little further, where he found another sheep grazing, and bagged his second one for the day.

"In fact, proudly—his lordship went back to camp with his two sheep slung across his ponies. A constable, who was in ignorance of the aristocratic state of the visitor or the Dominion Park regulations, and who might not have cared any way, promptly pounced upon Lord Congleton and placed him under arrest.
The lord explained who he was, and that he had not known that the sheep were not there to be shot. The park commissioner was wiled and the nobleman was released.
