"Wanted some insurance at half-rates." "I'll see nim hanged first! Why should I make a reduction to him?"

"No," she said sweetly, "I don't object to the smell of a cigar; it's the smell of the smoke I don't like,"

I make a reduction to min:

"Because you've got insurance on at least twenty of us here, and if you don't come to Bill's figures he'll kill a full dozen for heaven is out! Better con-

THE WORLD AT LARGE.

A line of railway cars, to be drawn by camels, will shortly constitute one of the peculiar features of travel and transportation in Central Asia.

Electric lights have been introduced into a gunpowder manufactory in England. The buildings are scattered over three miles of territory, and the wires are carried above ground from a dynamo near the centre of the enclosure.

At Meadowbank, Edinburgh, a block of buildings is so arranged and divided as to qualify forty-five "faggot" voters—none of whom reside there. Several are rich men, living in London. A liberal, residing near, this block, has had it photographed, and it is likely to become famous in electoral

The Bad Lands Cowboy is the rather unprepossessing title of a new paper that has been started in Dakota, not to publish, as might be suspected, literature of the revolver and bowie, but, as its introductory ambitiously states, to become the "leading cattle paper of the Northwest."
Its proprietor and editor is the Marquis de Mores, son of the Duc de Vallombrosa.

Samel W. Baker, the African explorer, samel W. Baker, the African explorer, is quoted as saying that camels will cross a desert with a load of 400 pounds at the rate of thirty miles a day, in the burning heat of summer, and require water only every third or fourth day. In the cooler months the animal will work seven or eight days without water, and if grazing on green folage, without labor, will only drink once a

Lady Margaret Hall, at Oxford, now mbers among its fair students the two laughters of the archbishop of Canterbury, a daughter of the late primate is also 'keeping terms," as well as a daughter of the bishop of Peterborough. Of the two existing ladies' halls Somerville is the more catholic, admitting to its privileges students of all denominations, while all mem pers of Lady Margaret Hall are expected of attend church regularly. Consequently the latter is patronized by church digni-

The duchess of Edinburgh, when in the cage of the house of commons the other night, finding things dull, and having often heard of the inspiriting effect of the interposition of the Irish members, ex-pressed a desire to hear Mr. Healy speak. ne objections were gently offered, but the duchess being imperative, the command was absolutely conveyed and received with smile. She seemed utterly amazed that things were not as at an ordinary theatre, and that the hon. M.P. did not burst into

Prince Napoleon's sneer at the Orleans rinces—"I have not the gold of the Or-cans princes; I am poor, and I am proud f it"—has recoiled on himself. Several ewspapers remind him that during th re he received 37,078,000 francs, be ides 4,953,000 francs for fitting up the lan remarks that France had nothing in eturn but the questionable part taken by he prince in the Crimea, Italy, and the war of 1870.

The first international congress of orni The first international congress of ornithologists will be held at Vienna, from the 7th till the 14th of April next, under the patronage of the crown prince. The program proposed is as follows: 1. Project of an international law for the protection of birds. 2. On the descent of the domestic found and the store to be taken for the e fowl, and the steps to be taken for the nprovement of poultry breeding. 3. uggestions for the establishment of a netork of stations for ornithological observans over the habitable globe.

The report on the sanitary condition of Montreal for 1882, has just been made public. The population is estimated at 144,000, the death rate was equal to 27.1 per 1,000, against 31.8 in the ten preceding years. In these years the lowest rate was 26.9 in 1880, and the highest 37.4 in 1872. The French Canadians constitute more than one-half the population; with them the death rate in 1882 was 32.5, while it was 23. among other Roman Catholics and 18.2 among the Protestants. Of the total death, among the French Canadians 61.7 per cent. were children. Nearly 24 per cent, of all the deaths were from zymotic or preventable diseases. The municipality is showing much expert in proporting the passage of an much energy in promoting the passage of an adequate health bill.
