

CHAPTER XV.

NAVIGATION OF THE SASKATCHEWAN.

Navigable from head of Grand Rapids, near Lake Winnipeg, to Tobern's Falls.—Above them to Cole's Falls for steamers.—No interruption thence to Edmonton, and probably thence to near Rocky Mountains.—Compared with the Rhone and Rhine and Ohio..... 62

CHAPTER XVI.

PROPORTION OF FERTILE LANDS ON SOUTH HALF OF CENTRAL PRAIRIE COUNTRY.

Captain Palliser's estimate of proportion of fertile and arable and infertile lands explored, and description.—Is limited to country south of line of strong woods.—Does not include north half of central prairie country.—Finds fertile land equal to three times the size of Upper Canada from Kingston to Sarnia.—Great infertile region.—Difference of opinion as to its value.—Compared with "Perpetual Steppes" of Russia..... 64

CHAPTER XVII.

CENTRAL PRAIRIE COUNTRY—NORTH HALF, BEAVER RIVER.

Beaver River, length of course.—Part only in this territory.—Drains part of the same Silurian plain as the Saskatchewan—Same formation and soil, but with little prairie.—Cultivation.—Rich fisheries..... 67

CHAPTER XVIII.

RIVER ATHABASCA AND COUNTRY.

River Athabasca.—Source in mountains.—Course, length.—Majestic stream.—Fluid Bitumen.—Mr. Pond's garden.—Limestone prevalent and bitumen.—Lignite coal.—Prairies interspersed continuously.—Extracts of D. Thompson's journal describing country and climate.—River Athabasca and Pembina.—Rich soil.—Rich coal bed on Pembina.—Beautiful scene and prairie ground at Methy Portage..... 68

CHAPTER XIX.

PEACE RIVER.

Peace River source beyond the Rocky Mountains.—Course, length.—Is main branch of McKenzie.—Delta and country up to falls generally wooded and low.—Extensive prairies each side.—Higher above the falls, good
