Contains 3000 Illustrations, nearly three times as many as any other Dictionary.

(**LOOK AT** the three pictures of a Ship, on page 1751,—these alone illustrate the meaning of more than 100 words and terms far better than they can be defined in words.)

More than 80,000 copies have been placed in the public schools of the United States.

Indorsed by State Superintendents of Schools in 34 States, and more than 50 College Presidents.

Has about 10,000 words and meanings not in other Dictionaries.

Just Published

LOVELL'S

FIRST STEP IN GENERAL GEOGRAPHY,

Price, 35c.

The general features of the book are such as to commend themselves to the understanding of the young pupil.—*Evening Times, Hamilton.*

Printed in bold clear type. The maps and illustrations, so numerous and good.—*Daily News, Kingston.*

The illustrations are all that can be desired; and the questions are so simplified as to make them attractive to young learners.—*British Whig, Kingston.*

In point of engraving, printing and paper, this book is infinitely superior to any work of the kind that has ever been issued by the press of Canada.—*Monitor, Brockville.*

The book is only intended as a sort of primer geography, it conveys to the mind of the youthful reader by easy steps, a general outline of geographical knowledge, and thus prepares and adapts the mind for more advanced works.—*Evening Journal, St. Catharines.*

This little book is admirably suited to the capacity of the youngest pupils. We have no doubt it will supply a long felt want in this direction.—*Review, Peterborough.*

It is very useful for beginners, and we commend it to pupils and teachers.—*Sentinel, Cobourg.*

We commend it to the consideration of school teachers; they will find it valuable in instructing the younger class of pupils.—*Star, Cobourg.*

It supplies a want long felt, and is just the thing. No doubt it will find its way into all our schools.—*Guide, Port Hope.*
