KEEP YOUR HENS BUSY IN WINTER.

Christy's New Improved Poultry Feeder !

Is designed first to give **CONSTANT EXERCISE** to the fowls and to facilitate the labor of feeding. Exercise, health, prolificness and vigorous progeny are some of the good results attained. The feeder is simply yet strongly made, there is nothing to get out of order. It is a tin pail which is suspended over a bed of litter, there is an opening and spring attachment in the bottom, to this is fastened a cord attached to a lath in the litter. In scratching the fowls move this treadle and bring down a few grains which fall on the disc shown in cut and scatter over the pen.

It is used and endorsed by H. S. Babcock, Editor of the "Standard of Perfection." P. H. Jacobs, Editor "Poultry Keeper." J. N. Barker, J. H. Lee, Hathaway Bros., and all the leading poultrymen and journals.
