MONEY MARKET.

MONEY continues abundant, and can be easily obtained on good securities. Good City Mortgages are scarce, and command 7 to 71 per cer'.

Gold has declined slightly during the last week, and is now quoted at 141. The Presidential campaign is being prosecuted with great vigour by both parties; but the probabilities are so decidedly in favor of the Republican candidates, and an honest financial policy that the gold market is not much affected. Exchange is 108%.

Silver is bought at 3}, and sold at 3 to 3}. An effort is being again made by a Montreal broker to ship from the country two million dollars worth of what is called the silver nuisance.

THE dry goods trade during the past week has been moderately active. The harvest, on the whole, has been a good one, and farmers having more money to spend, the country merchants are making provision to meet the demand. But there is a good deal of caution generally displayed, and no disposition to make large purchases on the assumption of extremely brisk and large sales. The safe side is the one taken by the majority, and this caution is rightly exercised. The strivals from Europe are moderate, and stocks remain, with few exceptions, as previously reported.

THE HARDWARE TRADE.

Crathern & Caverhill. Evans & Evans. Evans, John Honry. Hall, Kay & Co. Ireland, W. H.

Morland, Watson & Co. Mulholland, & Baker. Robertson, Jas. Waddell & Pearco.

THE week's business has been fully up to expectations, although buyers are not so numerous as they may be before the season closes. Orders come in freely. Prices on some of the leading goods are unprofitable; yet this must we fear be looked upon as a normal condition of general hardware business here, and provided for accordingly.

Pig Inon-Steady at our quotations, and no great stock in market.

BAR JRON-Still unchanged. The home market reported very firm at a slight advance on recent rates. We do not anticipate any advance here however for a week or two.

HOOPS, BARS AND SHEETS-Are in good demand at our quotations.

BOILER PLATES -Active.

TIN AND CANADA PLATES-Stocks are much reduced, but Canada plates are still in excess of demand. and likely to be unprofitable for some time. In tin prices are unchanged.

NAILS-Are still in an unsettled state, makers offerig in large lots even at \$2.75. Inferior brands somewhat less.

MONTREAL PRODUCE MARKET.

Akin & Kirkpatrick, Plack & Locke, Converse, Colson & Lamb, trawford, James, Dawes Brothers & Co.

Hannan, M., & Co. Robson, Thomas, & Co. Mitchell, Robt. Raphael, Thomas W.

LOUR —Receipts have continued liberal, and with little outward movement, the market has ruled dull. Some days ago the downward movement seemed at length arrested, and considerab's business was for the time being transacted. Holders the following day demanded an advance of about 10c., which materially checked operations: and after a day or two of comparative inaction, holders gave way, and prices fell back some five to ten cents below any figure previously obtained. Latest reported transactions in Supers, have been at \$5.424 to \$5.50 for Welland Canal. Canada brands have ranged from \$5.45 to \$5.70 for ordinary to choice. Little variation in the higher or lower grades can be noted, rates being practically nominal in absence of any but retail transactions. Bags meet a steady but not active demand, fair to choice ranging from \$2.65 to \$2.75

OATMEAL.-Only retail sales report ed, rates generally unchanged. No change to note in Cornmeal

GRAIN.-Wheat-Few sales transpiring; most of the Upper Canada spring arriving is on millers account; latest reported sales have been at \$1.25. Several. cars of red winter have latterly sold at same figure. A cargo of No. 2 Chicago reported sold at \$1.221, and a single transaction has been reported at \$1.21; the market closing weak with a downward tendency. Pease-Scarcely any arriving, and rates, though unchanged, are practically nominal. Outs and Barley-Little doing, and prices generally unchanged

PROVISIONS .- Pork-Mess meets a steady consumptive demand at former rates. Prime Mess-No reported sales. Prime has sold at \$16.50 to \$16.75. Extra-Prime at \$16, advancing to \$16.25 toward the close, at which some 200 barrels changed hands for shipment to lower ports. Lard continues reares, and for the retail parcols selling previous extreme rates have ruled. Tallow is carce, and small parcels are much needed for immediate wants. Butter—Receipts are mostly on shipping account, and few rales of magnitude can be noted on the spot; small lots for city use command 20c to 23c according to quality. The market continues firm and buowant

command 20c to 20c according to quality. The market continues firm and buoyant ASBFS — Pols continue dull, and prices of last week barely maintained. Pearls till towards the close were neglected, but latterly were slightly stimulated by a limited order coming on the market, and som; improvement on late sales were obtained.
