

BRITISH DEMAND AND PRICES.

The following information is given in the February report of Messrs. Farworth & Jardine, London, Eng.:

The arrivals from British North America during the past month have been 9,411 tons register, against 5,204 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1902, 1903 and 1904 has been 23,969, 21,006 and 23,401 tons respectively. In the business of the past month we have little change to report, and the quiet tone prevailing during past months still continues. The arrivals, with the exception of spruce deals, have not been too large, the deliveries have fairly kept pace, and values are generally well maintained; stocks as a rule are ample.

PINE TIMBER.—The import consists of a shipment by steamer via Portland, Me.; the deliveries have been small, but values are

steady; stocks are sufficient. **Square.**—The demand has been very quiet; stocks are heavy. **Red Pine.**—There has been no movement and stocks are unchanged. Oak has been inactive, the deliveries light, and stocks large, but there is no change in value to report. **Elm.**—There has been more enquiry; the stock of prime wood is low, and prices are further advanced. **Ash.**—There is little demand. **Pine Deals.**—The arrivals have been more than usual for the time of year, there has been a little more enquiry, and values are steady, but stocks are sufficient. **Red Pine Deals.**—There is no change to report, and the demand is quiet.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals during the past month, chiefly by the Liners, have been large, also much in excess of corresponding period last year, viz., 6,030 standards, against 3,230 standards in 1903; the deliveries have been disappoint-

ing, and stocks, both in Liverpool and Manchester, although lighter than same month last season, are adequate. Freights have ruled exceptionally low, and buyers of consignment parcels to some extent have reaped the benefit. **Pine Deals.**—The demand continues quiet.

BIRCH.—Logs from St. John N.B., have arrived more freely, but a fair proportion has found its way into consumption, and stocks are not too large; values are steady. Planks have arrived moderately; there has been more enquiry, and although stocks are moderate there is little improvement in value to report.

The sales during the past month have been as follows:—**Birch Timber.**—St. John, N. B., several parcels 13½ to 16½ inches avg. at from 18½d to 21d. per cubic foot. Planks at from £6 10/10 to £6 15/ per standard, ex quay. **Spruce Deals.**—St. John and Halifax consignments by the Liners at from £7 2/6 to £7 12/6 per

standard according to quality, specification, etc.
