Winnings Inn 10 In a general way business is quiet and without special feature. Most people are glad of the excuse for a connection of activity and are tables the time to get straightened around Spring shipping will commence in a week or two and there will then be houses. Money seems to be moving freely still and collections have been well made so far. The want of transportation is still keeping back business in some lines. Values hold stondy and there have been no important changes in prices this week.
