

AMENORRHEA

Whether from shock, exposure or other causes the menstrual flow is scanty or suppressed, the administration of Hayden's Viburnum Compound will invariably effect relief. Its action is to normalize pelvic circulation, and in anemic or debilitated subjects, its administration just preceding each monthly epoch will restore the reproductive system to its proper condition.

HAYDEN'S is the standard Viburnum Compound by which all others would measure. Samples and literature on request.

When you prescribe Hayden's Viburnum Compound, see that the genuine and not a substitute is taken, if you want definite results.
