## Fruit Farm. Partner Wanted.

A responsible active business man wanted as partner to engage in fruit growing on a large scale. The subscriber has a fruit farm at Fonthill, adjoining the "Fonthill Nurseries," which he wishes a partner to take half-interest in.

### The Farm is Well Located,

And has a large number of bearing fruit trees on it and a quantity of small fruit. This is a rare chance for a pleasant home and profitable business.

## Sainte Anne, Ottawa River Notice to Contractors.

SEALED Tenders, addressed to the undersigned and endorsed "Tender for work at Ste Anne," will be received at this office until the arrival of the Eastern and Western mails, on TUESDAY, the 19th day of SEPTEMBER, instant, for the excavation of a channel—principally through rock—in the bed of the river on the up-stream side of the new canal works at Ste. Anne.

A plan, showing the position and section of the proposed channel and specifications of the work to be done, can be seen at this office, and at the office of the resident Engineer, at Ste. Anne, on and after FRIDAY, the 8th instant, where printed forms of tender can be obtained.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms and—in case of firms—except there are attached the actual signatures, the nature of the occupation and residence of each member of the same; and, further, an accepted bank cheque for the sum of \$1,000 must accompany the tender, which shall be forfeited if the party tendering declines to enter into contract at the rates stated, in the offer submitted.

The cheque or money thus sent in will be returned to the respective persons whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order.

A. P. BRADLEY,  
Secretary.

Dept. of Railways & Canals,  
Ottawa, Sept. 5, 1882.

## Bees! Bees!

20 COLONIES of Bees for sale—Blacks, Hybrid and Holy Land. Apply to WM. KEMP, Carleton Place, Ont.

All those interested in Bees send for my 20 page circular and pamphlet on wintering bees (free).

My Hives are the Cheapest and Best in use.

My New and Latest Improved Hives will soon be ready for the market. It contains the usual size and number of Jones frames. I now manufacture ten different kinds and sizes of smokers, and they are the most handsome, cheapest and best in use.

My New Honey Knife puts all others to shame, and is the finest and best that is in use.

My Latest Improved Honey Extractor has valuable improvements that no others have. It is the cheapest, strongest, lightest running, and best and most durable in America.

My Comb Foundation is made on an improved Dunham machine and from clarified wax, and is better manufactured than any other. I will make up wax into comb foundation cheaper and better than others.

My New Silk Bee Veils are made larger than any previous ones, the material having been ordered direct from the manufacturer, specially designed for bee veils. They have no equal.

I am the only one in America who manufactures Perforated Metal for raising comb honey, preventing swarming, controlling fertilization, etc.

My Latest Improved Wax Extractor shuts all others out. I challenge any others in America.

### Honey Tins and Pails.

My honey cans are cheaper and superior to any others in the Dominion, as I am the only one who has machinery and dies to manufacture these new and improved self-sealing cans and pails. They can also be used for sealing fruit.

In a short time my new Honey Labels will be ready. They will be lithographed on nice different stones, blending all the colors, making a handsome varnished chrome label, finer than anything yet made so that each person can have his own name on them. The price will be wonderfully low.

### Bees Wax.

If you have wax for sale, please drop me a card. I can pay you a high price. Wax taken in exchange for goods.

## TRAVELER'S FRIEND, Portable Door Securer!

We give an engraving of a very compact and convenient device for securing doors, patented by Charles A. Cromeyer, of Detroit, Mich. It is designed principally for the use of travelers, and is very readily carried, and quickly and easily applied to the door, and when so applied renders the door perfectly secure. When in use, the hook of the metal strip is placed against the jam of the door, and the U-shaped piece is turned in such a manner as to permit the closing of the door, and by closing the door the hook is forced in to the wood of the jam. The U-shaped piece is then turned so that the long shank will rest against the surface of the door. The device does not mar the door, and keeps it perfectly locked, and is applicable to doors of any thickness, having any style of casing.—Scientific American, August 10th, 1882.
