

SHOES FROM NEW YORK

Bishop Clancy, of Elphin, Ireland, to Visit America.

The Irish National Alliance Pass Resolutions on Many Matters—The Ancient Order of Hibernians Submit Their Differences to Arbitration—New Regulations for Civil Service—The A.P.A. Again At Its Work.

New York, Aug. 11.—Right Rev. John Clancy, Bishop of the Diocese of Elphin, Ireland, is expected to pay a visit to the United States before the end of the month. He is quite a young man, succeeding the late Bishop Gilhorly, whose coadjutor he was for sometime prior to the latter's death. Bishop Clancy is a native of Sligo. The Bishop's visit is understood to be a purely private one, but he will, no doubt, be warmly welcomed by the clergy of the Archdiocese of New York. Several well known priests in this city were classmates of Bishop Clancy in Maynooth, among them being the Rev. Dr. Charles McCrady, of the Church of the Holy Cross, on West Forty-second street. The Bishop is a relative of Hon. Bourke Cockran.

THE WIVES OF IRELAND.

At a meeting of the Irish Nationalists and Irish National Alliance held last week in Ridgewood Park, Brooklyn, the Hon. Patrick Egan, Ex United States Minister to Chile, gave a stirring address. Among other things he said:—England stands to-day without a friend in Europe. Her policy of selfish usurpations and spoliation has antagonized all neighbors, and were it not for the presence of Kaiser William behind the Transvaal Boers, besides their own splendid courage and trusty rifles, the treachery and robbery England has for so many centuries inflicted upon unhappy Ireland would now be exercised against President Kruger's sturdy followers. The following resolutions were unanimously adopted:—

"We hereby proclaim the inalienable right of Ireland to independence and nationhood, and we pledge our support in her struggles for the liberties of which she has been plundered by robber England. We protest against the continued incarceration of the Irish political prisoners. We consider the failure of England's Queen to extend to our patriots justice, during her time of rejoicing for the length of years on the English throne, striking evidence of the lack of even womanly sympathy with an oppressed people, and of cruelty of heart wholly inconsistent with the praises lavished upon her as a benign Queen, gifted to a superlative degree with all the virtues. As American citizens we are opposed to the entertainment by this country of any treaty of general arbitration with England, considering such treaty inimical to the interests of this country, a danger to her honor and a menace to her independence."

The resolutions contained the expression that the United States Senators who opposed the Olney-Pauncefote treaty, "more especially that champion of Americanism, the Hon. John T. Morgan of Alabama," were entitled to the best thanks of their country for "sterling patriotism which saved her from being handed over, gagged and bound, to her eternal enemy, the robber nation of the world."

NEW CIVIL SERVICE REGULATIONS.

In accordance with a provision of the new civil service rules to the effect that general examinations for all positions in the State service be held four times a year, and, at the suggestion of Gov. Black, that one of those general examinations be held this Fall, Chief Engineer Charles S. Fowler has arranged to hold open competitive examinations for merit throughout the State on Aug. 27 and 28 for the following positions: Clerks, junior clerks, law clerks, bookkeepers, court attendants, guards, messengers and orderlies, special agents, deputy factory inspectors, matrons, teachers, assistant "civil" engineers, levers, rodmen, chainmen, medical inspectors, junior physicians, women physicians, first assistant physicians, hospital superintendents, statisticians in Labor Bureau, apothecaries, architectural draughtsmen, electrical engineers, assistant electrical engineers, (dynamo tenders), steam engineers, assistant steam engineers, (including firemen), inspectors of public works, chemists, Agricultural Department butter experts, milk experts, vinegar experts, and cheese experts.

WHAT IS THE MATTER WITH BOOTH-TUCKER?

Commander Booth-Tucker, of the Salvation Army, sailed for Europe on the Normanna from Hoboken yesterday morning, Commander Tucker said that he was going to visit Gen. William Booth in Europe to submit his colonization scheme for the General's approval. Mr. Tucker's scheme is to secure land for poor people and allow them to till it and reap the benefits. The Commander's name was not on the passenger list of the Normanna, and he evidently made up his mind to sail on short notice.

ON HER FIRST COMMUNION DAY.

Much sympathy, which, as it turns out, was unmerited, was bestowed on Tessie Cohen, alias Ada Barker, who was recently sent to the Kings County Penitentiary for nine months for attempted suicide. The girl had made three previous attempts on her life, but strenuous efforts were made to have her released on the plea that she had been driven to the act through misfortunes for which she was not responsible. She described herself as the orphan daughter of a once prominent merchant of Galveston, Tex., vainly struggling to support herself in the North. Many kind-hearted women believed her tale of woe. Finally an application for her release was for-

warded to Gov. Black. The Charities Commissioners, to whom it was referred, started an investigation, and it resulted, so they say, in the discovery that the young woman is a "monumental liar." Her real name is Barbara Fulmer, and she ran away from her home in Brooklyn in her first communion dress of spotless white, on the very day she was confirmed by Bishop McDonnell. It was six months before she returned, and since then she has frequently indulged in similar escapades. Her parents called at the penitentiary to condole with her, but she declared that she had never seen them. She will now probably have to serve out her term.

THE SNAKE DIES HARD.

The A. P. A. in this city is sending out an anonymous circular under the caption of "Civic Interrogations." A Post Office box is the only address given. The circular declares that the "sole political power of Tammany depends upon the politico-ecclesiastical control of a massed sectarian vote." It also declares that the National elections of 1884, 1888, and 1892 "turned on sectarian bigotry."

THE TROUBLE IN THE BANKS OF THE A. O. H.

Bishop McFaul of the Catholic diocese of Trenton has accepted the office of arbitrator between the two sections in the Ancient Order of Hibernians. He will listen to the testimony of those interested on next Monday afternoon in this city. Bishop McFaul was chosen arbitrator of the points in dispute at a joint conference of the national officers of the rival sections held at Atlantic City on Tuesday.

The conference, after a session of eleven hours, agreed upon a plan to unite the 195,000 members of the order under one head, and left to Bishop McFaul the settlement of all disputed points. Bishop McFaul is the New Jersey chaplain of the American branch of the order.

NO ROOM FOR SUCH AS THEY.

Joseph Lichtenstein, twenty years old, and Anna Hrabrak, of the same age, who arrived in this city Wednesday night on the steamship Saale, were arraigned before the Board of Special Inquiry at the Barge Office yesterday and ordered deported. The immigration authorities received a cablegram last week from the Mayor of Gross Becskerek, Hungary, asking that Lichtenstein and the girl be held as runaways. This was supplemented by a letter stating that Lichtenstein had been cashier of a storage house and that he had defaulted with 5,000 florins. The Board decided to exclude the man and woman as immoral persons and likely to become public charges.

AN ELOQUENT ADDRESS

Delivered by His Grace Archbishop Walsh, of Toronto,

At the Opening of a Bazaar in Dalkey, Dublin, Ireland, in Aid of New Schools—What Irishmen Have Achieved in Canada and in the United States Was His Theme.

His Grace, Archbishop Walsh, of Toronto, on Tuesday, July 20th, assisted at the opening of the Dalkey Bazaar, held in aid of the funds for the erection of the Harrold Memorial Schools. He was made the recipient of a flattering address in reply to which he spoke as follows:—

"The object of this bazaar, as I understand, is to raise funds to help in the erection of new schools for the children of Dalkey. I need not inform you of the importance of education. It was, at all times, important for the individual and for society. Hence, the Church, from her very beginning, laboured strenuously, not alone to erect colleges and universities, but also to institute primary schools for the education of the children of the people. But if, in any age, education was of the utmost importance, it is especially important now in the close of the nineteenth century; for there never was a period so characterized by intellectual activity and intellectual triumphs as the epoch in which we live. The human mind has done wonders, and hardly satisfied with the finite, it grasps after the infinite. When we consider the wonders wrought over matter and the forces of nature by the human intellect and human inventions we stand astonished, and we should not be surprised at greater wonders and greater intellectual triumphs. We measure the distance of the stars from the earth and from each other. We photograph the physical features of the distant stars. We have annihilated space. By the telegraph and the telephone we flash thought in a minute across the fathomless oceans of the world. We have even harnessed the waters of Niagara and made them subservient to the human will, so much so that we make use of the electric power, generated by the rushing waters of that famous cataract, to light distant cities and run their machinery, and even to run the trolley cars through their streets. Not only in this sphere has the human intellect done wonders, but in all the features of life and society education and intellect have done wonders and are requisite for success in any walk of life. It ever education were necessary as an element of success in life it is necessary now. You are educating your young people not alone for Ireland—and I hope the majority of them will stop at home to build up this great and historic country—but you are educating them also for the nations beyond the sea. I am glad to be able to inform you that Irishmen in those distant countries have won their way, in many instances, to positions of prosperity, wealth, and social eminence. What the Irish peo-

RICH RED BLOOD

is the foundation of good health. That is why Hood's Sarsaparilla, the "True Blood Purifier," gives HEALTH.

ple have many faults, of which our enemies often remind us, I do not hesitate to say this: that they are, perhaps, the most intellectually gifted race on the earth. Give an Irishman a proper education and he is the peer of any man of any race. But mere intellectual enlightenment is not sufficient as constituting a complete education. The moral element must enter into it to make it a real education. The education must educate the whole man; it must educate all his faculties of soul and heart in order to make him perfect. And that is but saying that religion must go hand in hand along with education in the schoolhouse. A recent writer has said that "education, like the pagan temples, must be lighted from above." He meant that every system of education, to be good and complete, must be lighted from above by the Divine light which the Son of God has brought upon earth. In the country in which I live and in the United States the Irish people have succeeded admirably in all the phases of life... Some of them have reached eminence; some almost unapproachable eminence. Our late Premier in Canada, Sir John Thompson, was a Waterford man, and he won his way from being a clerk in a lawyer's office to that high position in the great Dominion of Canada. He died at the foot of the throne, and was honored by his Queen, by the empire, and by his country. And he was not alone an able man and a scholar, but he was also an irreproachable and thoroughly-sincere Catholic. D'Arcy McTear also did wonderful good in Canada. He was a gifted man, you know, and raised a fine Irish people, by his eloquence and the mental gifts, to a high position in the political as well as the social world in Canada. In the United States Irishmen, in the various degrees of society, have done wonders, and have covered themselves with honour and merit, not alone in civil life but also in the Church. Our greatest Churchmen in the United States were Irishmen—Archbishop Hughes, Bishop England a native of Cork, the two Archbishops Kendrick of Baltimore and St. Louis were Dublin men. And so on in other degrees both in Church and State. I must not detain you any longer. I am quite sure that the ladies you have charge of this bazaar are most eager to begin operations and to realize some of the fruits of their labour. I need hardly tell the ladies that there are some people's pockets as difficult to take as the rock of Gibraltar (laughter). But I am quite sure that the Dalkey ladies have courage enough to assault even these fortresses (Laughter and applause). The object which you have in view is one certainly calculated to elicit sympathy. Not merely the sympathy of emotion and tears, but the sympathy that opens the pockets and that moves the right hand to put itself deep down into them and put the proceeds on the table. I declare the bazaar open, and wish it all the success it deserves, and all the recompense that the labours and zeal of all who have charge of it so eminently deserve.

The sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick, but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities of the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The "Golden Medical Discovery" has been used with unvarying success for over 30 years.

An old Scotchman who had been a long time at the Colonies paid a visit to his native glen, and meeting an old school-fellow, they sat down to have a chat about old times and old acquaintances. In the course of the conversation the stranger happened to ask about a certain Geordie McKay. "He's dead long ago," said his friend, "an' I'll never cease regrettin' him as long as I live." "Dear me, did you respect him so much?" "Na, na; it wisna on'y respect I had for himself, but I married his wife."

Midsummer Night's Dream

FAIRYLAND BY DAY.

DAY AND NIGHT, August 19th to 28th.

MONTREAL PROVINCIAL EXHIBITION.

GRAND Agricultural and Industrial Fair.

ST. PATRICK'S T. A. & B. SOCIETY.

The monthly meeting of St. Patrick's Total Abstinence and Benefit Society, under the presidency of Mr. J. C. Walsh, was held on Sunday, 8th inst. Quite a large number of new members joined the society, and four members were admitted into the Benefit Branch.

The picnic committee reported progress and were accorded an extension of time to complete their work. Delegate Rawley submitted his report of the business transacted by St. Patrick's League. The introduction of a resolution by the delegates of the A. O. H., wherein it was intended to make the TRUE WITNESS the official organ of the Irish Catholic societies, and to in every way aid it in the work it was carrying on, met with the hearty approval of the members. It was resolved to hold an open meeting on Tuesday, October 12th, at which a debate, on the merits of Total Prohibition vs. Moral Suggestion, will take place, by the members of the Society. The evening's entertainment will be interspersed with music and song.

THE PROVISION MARKET.

In provisions a fairly active trade continues to be done, and prices are firm all round. We quote—Canadian pork, \$15 to \$15.50 per barrel; pure Canadian lard, in pails, at 83c to 71c, and compound refined at 54c to 53c per lb; hams, 11c to 13c, and bacon 11c to 12c per pound. The Chicago provision market was firmer, and prices for pork advanced 2c to 7c, closing \$7.72; August, \$7.72; September, \$7.71; October, \$7.53; December, Lard advanced 2c, closing \$4.27; August and September, \$4.32; October, \$4.40; December. Short ribs closed \$4.72; August and September, \$4.75; October.

J. S. Bache & Co., of Chicago, wires—Provisions opened strong and higher. Receipts of hogs were 3,000 less than expected, opened higher, but later advance was lost, market closing easier. Commission houses were principal sellers. Packers gave no support to the market, although cash demand was reported good. Lard in Liverpool was again 3d lower. Pork closed 46s 3d; lard, 22s 6d; bacon, 27s to 28s, and tallow, 18s. CHICAGO, August 10.—Hogs—Receipts, 14,000; opened 5c higher, turning rather slow, closing quiet, easy. Light, \$3.80 to \$4; mixed, \$3.70 to \$3.95; heavy, \$3.55 to \$3.90; rough, \$3.55 to \$3.65. Cash quotations on provisions closed at Chicago.—Meat pork, \$7.75 to \$7.80; lard, \$4.25 to \$4.27; short ribs, sides, 51c to 52c; dry salted shoulders, 5c to 51c; short, clear sides, 5c to 51c.

THE PRODUCE MARKETS.

There was no change in the egg market. The demand continues good and an active business is doing at firm prices. Selected near-by stock sold at 10c to 11c, ordinary No. 1 at 9c to 9 1/2c, and No. 2 at 8c to 8 1/2c per dozen. Business in maple product continues exceedingly quiet. We quote:—Maple syrup at 4 1/2c to 5c per lb., and 45c to 55c per tin; sugar, 5c to 6c per lb. The market for honey is dull. White clover comb is offering at 10c, and dark at 7c, bright extracted at 6 1/2c to 7c, and dark at 4c to 5c per lb. There is no improvement in beans, car lots being offered at 55c to 60c in car lots and at 65c to 70c in a jobbing way.

DAIRY PRODUCE.

Cheese was strong and active to-day. Buyers in a sense were tumbling over one another to get Quebec makes, with the natural result that values of this grade were very firmly held, a large quantity of stock changing hands at 8 1/2c, and many holders refused that figure, asking 8 3/4c. Finest Ontario makes were held firm at 8 1/2c to 8 3/4c, which last week could have been bought for 7c per pound less. Finest Ontario cheese.....8 1/2c to 8 3/4c Finest Townships cheese.....8 1/2c to 8c Finest Quebec cheese.....8 1/2c to 8c Under grades.....8 1/2c to 8c The butter market did not exhibit any radical change, but nevertheless there was considerable shopping around the market for creamery that either led to business to-day or will do so to-morrow. The basis of negotiation was between 17c

Which costs most,

a sick baby, or a package of Pearlina? Without the Pearlina, there's always the prospect of sickness, and perhaps worse, for your baby or for any other baby. It comes from nursing bottles that are imperfectly washed. This is a source of infant trouble

that can't be watched too closely. Pearlina will set your mind at rest. Nothing washes them so thoroughly as Pearlina. One of the largest makers of nursing bottles sends out circulars with his goods, recommending Pearlina for washing. He is wise, for milk in any form cannot adhere to anything, if washed with Pearlina.

THOMAS LIGGET, 175 to 179 SPARKS STREET, OTTAWA.

to 17c. Believers in better prices are looking on the fact that the advance in the price of cheese will curtail the make of butter, and if reports from the country are correct they are right. Finest Creamery..... 17c to 17 1/2c Seconds..... 16 to 16 1/2c Dairy butter..... 12 to 12 1/2c

LIVE STOCK MARKETS.

LONDON, August 9.—There was a decidedly stronger feeling in the market to-day for cattle, and prices advanced 1/2c to 1c per lb. under a better demand and a more active trade. Choice States cattle sold at 11 1/2c, choice Canadians at 11c, and Argentines at 10c. The market for sheep was also strong, and prices ruled 1c to 1 1/2c higher; choice Canadians sold at 11c and Argentines at 12c.

LIVERPOOL, August 9.—This market was also stronger, and prices for Canadian cattle advanced 1c per lb., choice selling at 10 1/2c. Sheep were unchanged at 9c.

LONDON, August 9.—A private cable received reported trade much better, with a fair demand. Sales of Canadian cattle ex steamships Queensmore and Rosarion were made at 2 1/4 to 2 1/4 10s per head.

Chickering Pianos.

Established 1823. The Oldest in America.

As Tuneful as a Violin, and as full of tone as a church organ. That's the sort of music one gets from a good piano, and good pianos are the only kind we sell. Come in and try them—you will not be argued into buying.

C. W. LINDSAY, 2366 St. Catherine Street, MONTREAL.

At the Point St. Charles stock yards the receipts of butchers' cattle were 200 head, for which the demand was slow from local dealers, as they had ample supplies on hand; consequently holders were obliged to forward them to the above market and job them out to the local trade. The market for hogs continues to rule strong, owing to the small receipts, and prices scored another advance of 15c to 25c per 100 lbs. The demand was good, and the 150 offered met with a ready sale at \$5.75 to \$5.90 per 100 lbs., live weight. Harry—I cannot offer you wealth, Marie; my brains are all the fortune I possess. Marie—Oh, Harry, if you are so badly off as that, I am afraid papa will never give his consent.
