

**TREATMENT OF THE INSANE BY REPOSE IN BED.**—It has been found in St. Petersburg that insane patients are very favorably affected by being kept in bed, and the system has been introduced on a large scale for noisy, excitable patients and cases with psychic depression and general debility. Neither force nor narcotics are used, but the patients are merely habituated to remain in bed, although they take their walks and physical exercise every day as usual. It is not necessary to keep them in separate apartments and the economy of space and trouble to the attendants renders the practice a great convenience.—*Presse Méd.*

**WAIVER OF PRIVILEGE AS PART OF CONTRACT.**—Where the statutory law in force at the time a contract of insurance is entered into permits the insured to waive the benefit of the

provisions of law preventing any physician from disclosing any information acquired in attending patients, and such a waiver is incorporated in the contract of insurance, the Court of Appeals of New York holds, in the case of *Foley v. Royal Arcanum*, December 15, 1896 that a subsequent amendment of the law allowing waiver only when made upon the trial does not affect the waiver already made as stated, because the Legislature cannot pass an Act impairing the obligation of contracts, and such a waiver is not in and of itself contrary to public policy.
