

ACKNOWLEDGEMENTS

Work Group 2 wishes to acknowledge the contributions of the following non-members who contributed substantially to the completion of this report:

Morton L. Barad
Jan W. Bottenheim
C. Shepherd Burton
Maris A. Lusic
Lou Shenfeld
Eva C. Voldner

The Work Group is also grateful for the efforts of over 45 independent experts in North America and Europe who provided peer reviews of the Phases 1 and 2 documents. Their comments were given careful consideration in the development of this final report.

The Work Group is also grateful to Trudy Allan and Evonna Mathis for co-ordination of the word processing, photocopying and local arrangements.

The colour versions of Figures 2.1, 2.3, 5.1, 6.1 through 6.6 and 8.1 were produced under contract by Beak Consultants Limited, Mississauga, Ontario and their professional work on a very short schedule is also acknowledged.

Finally, special thanks are due to the members of the Work Group who in addition to contributing to the work, co-ordinated arrangements for meetings and the production of Work Group and Sub-Group Reports. Brand Niemann of the Environmental Protection Agency was the U.S. Coordinator for Phases 1 and 2 when most of the meetings were held in
