Toronto, Ont.

Dear Dr. Bates:-

Will you please have the statement credited to me read as follows:-

"The thing most needed in any nation is to secure the health of its people, for health means happiness, contentment, progress and prosperity. In order to secure a healthy nation we must see to it that health education becomes general, particularly in regard to preventable or unnecessary illness.

Social hygiene is a movement for better health - mental, moral, physical and social - and as such well merits the loyal support and encouragement of every true Canadian citizen."

Yours faithfully,
