

THE CANADIAN PRINTER & PUBLISHER

VOL. VI.—No. 12.

TORONTO, DECEMBER, 1897.

\$2 00 PER YEAR.

To Printers

Everything for the Printer

DON'T ORDER any Roman or Old Style Roman Type for your Newspaper or Book Work until you receive from us quotations on the celebrated Copper Alloy Type, made by The American Type Founders' Co., at their MacKellar, Smiths & Jordan Branch at Philadelphia. All the Type is on the Point System. We are prepared to quote special prices to printers who are at present struggling along with the old body system, so as to enable them to make the change to the point system at the lowest possible cost. We advise newspapers who are using Plates and Patent Sides to use our A.P.A. series of Roman, as our Plates and Patents are set in this series.
