**ROMANISM,  
THE DANGER AHEAD.**

**The Reason why a Good Roman  
Catholic cannot be a Good  
Citizen of this Republic.**

By **A. J. GROVER.**

The writer has given to the people of America statements of facts and figures which they will do well to reflect upon. "Romanism has votes to be cast as a unit. These votes are necessary in national elections, and in most local elections, to party success; whichever party will promise to do most for Romanism, will get them. Here lies the danger. As in the days when slavery ruled, everybody interested in the success of a party caters to Romanism. The national policy as to slavery almost cost the life of the republic. There is ten times as much danger to our free institutions from Romanism now, that there was from slavery in 1851."
