

HAMILTON HAPPENINGS

BOARD OF CONTROL AND CHILDREN'S SHELTER

Will Confer With Children's Aid Society Before Taking Action—DuMoulin's Successor.

HAMILTON, April 4.—(Special.)—The board of control held a special meeting this afternoon to consider the question of the children's shelter and the matter of further aid to the Hamilton Health Association, in its support of the mountain sanatorium. Relief Officer McMeny was delegated to visit the institution to enquire into conditions there, and report as to just what help is needed. Before proceeding with the children's shelter scheme it was decided to confer with the Children's Aid Society and to secure from them a definite understanding as to the managing of the shelter after it is built.

The Hilliard-street sewer, which has caused considerable talk in civil circles recently, came in for more discussion to-night at the meeting of the public works committee. Ald. Lalonde tried to find out who was to blame for the bungling of this job, but could elicit nothing further than that the city engineer's department assumed the responsibility. It will probably be necessary to relay the sewer on this street, but the city will relieve the property holders of the expense of the work.

Streets in Bad Condition.
The committee also devoted some attention to the streets in the manufacturers' annex, which were admitted to be in a disgracefully bad condition. While the frost in the ground prevents any immediate improvement, just as soon as the weather warms up the streets in this district will be macadamized.

Matthew McTavish, 85 South John-street, was arrested by P. C. Cameron to-night, charged with stealing a pair of shoes. William Russell, 107 Milton-avenue, had his foot crushed at the steel plant to-night and was removed to his home in the ambulance.

Several clergy of Niagara diocese are interesting themselves in the election of a bishop to succeed the late Right Reverend Bishop DuMoulin, to such an extent that they have written circular letters to the clergy and laymen of the diocese asking them to try and make a unanimous choice to-day away from any jostling for the position. Archdeacon Forrester is one whose name is being prominently mentioned for the position, but Canon Sutherland and Archdeacon Clark all stand equally good chances.

One thing seems to be sure, and that is that the next bishop of Niagara will be a Hamilton man.

Yen. Archdeacon Cody, Toronto, is one of the outside clergy mentioned in case the synod fails to agree on a local man.

This morning Judge "Monck" gave short shrift to William Ferguson, and sent him to jail for two months and also sentenced him to ten strokes of the cat-of-nine-tails for an assault on a fourteen-year-old girl.

Fire Drill in Factories.
That the city should have a bylaw making fire drills in factories, hotels and other large buildings compulsory, if it has the power, and that it should request the government to pass an act to this effect, if it has not, was the suggestion that was made to the board of control to-day by the fire inspector, Anderson. He was asked to report on the matter of fire escapes and stated that factories, schools and hotels were governed in this respect by the government. So far as apartment houses are concerned, the inspector said that there were only a couple of apartment houses in this city, but that several places are used as apartment houses which are not such things according to the bylaw. For this reason he said he had no authority to compel the owners to put fire escapes on them.

Hotel Hamilton, on the corner of Catharine-street, Hamilton, conveniently situated and easily reached from all parts of the city. Breezes in 1909. Modern and strictly first-class American plan. Rates \$1.50 to \$2 per day. The Hamilton, proprietor, phone 1465.

Dropped Dead.
PICKERING, April 4.—Patrick O'Grady of Audley dropped dead on the street this afternoon while talking to a friend. He was about 75 years old.

The Stomach Needs Help

The Liver, Kidneys and Bowels Must Be Kept Active to Ensure Health.

DR. CHASE'S KIDNEY-LIVER PILLS

Not one person in a hundred can get along at this time of year without using something to relieve the action of the liver, kidneys and bowels. Too much eating of heavy artificial foods, too little outdoor exercise, this is the explanation.

The liver and kidneys are overworked in their efforts to remove the poisonous waste matter from the system. They fail and become torpid and clogged. The bowels become constipated and stomach derangements follow.

There is one medicine which will relieve this condition more certainly and more quickly than any other. This is Dr. Chase's Kidney-Liver Pills.

This medicine gets the bowels in action at once and by awakening the liver and kidneys, ensures the thorough cleansing of the filtering and excretory systems.

With the poisonous obstructions removed, the digestive system resumes its healthy condition, appetite improves, pains and aches disappear, as well as irritability and depression. You cannot imagine a more satisfactory treatment for biliousness, constipation, backache and liver-aches than Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto.

Every room completely renovated and carpeted during 1907. \$3.00 and up per day. American plan.

BOARD OF TRADE EASILY PASSES HALF-WAY MARK

Enthusiasm Running High and Energy Continues Unabated in Good Cause.

A good meeting of the captains and committees engaged in the board of trade membership campaign was held yesterday at luncheon in the National Club, some 40 to 50 being present, with W. P. Gundy, chairman of the general committee, presiding, supported by President H. S. Gourlay.

The captains were called upon for their reports. One announced that his local reached 62, another 56, a third 55, a fourth 50, and two 48 apiece, the grand total of applications being 525. Others announced they had promises which when confirmed would bring this total up very considerably. Mr. Gundy was pleased to announce that the interest continued unabated. He said that Buffalo was also engaged last week in recruiting a thousand, and on Thursday night only had 608, yet it was stated that the required number would easily be reached by the following Saturday night. Mr. Gundy thought that if Buffalo, from Thursday to Saturday, could secure 600 more names, the captains representing the board of trade in Toronto could easily acquire more between Tuesday and Saturday. He further said that the next luncheon would be held on Saturday at 1 o'clock in the National Club, when there would be a round-up of the whole work.

Ex-Mayor's Tribute.

Ex-Mayor Oliver told those present to be hopeful and he was sure they would meet with success. A little extra effort up to Saturday would result in the desired number. As for himself, he referred at length to the benefits of the board to the people, pointing out that the board of trade stood nobly by the city in the question of viaduct. Mr. Stanley told him in Montreal that the worst tactical blunder that they did not build the Yonge street bridge. The board had wide influence and was bound to obtain results. The delegation to Ottawa had done much to secure the new Welland Canal, by which Canada would retain much of the trade which would otherwise have gone to the transportation companies of the United States.

Secure Cabinet Minister.

W. J. Gage rejoiced to hear the reports. They seemed to be threatened with an embarrassment of riches. He was present at the day-long session of the board of trade, the gentleman said, and without introduction, addressed the gathering. He was a member of the board of trade, and was proud to be a member, proud, very proud of the men in the board of trade, and being given, becoming continually far more reaching. It was helpful to other boards, and it was causing them to wake up.

Broader Usefulness.

Mr. Gourlay said when the campaign was over, suggestions would be in order for the benefit of the city. It was proposed to act on more generous, broader and wider lines than ever before, for the good of the entire city. The past was only an earnest of the good work that was to come. He trusted that the board would live up to the standard set by Mr. Gage, and accomplish many things. He hoped that every new member would be a frequent attendant at conferences and meetings, and would propose subjects on which the initiative could be taken. Mr. Gundy said that it was now up to the captains and their committees to round out the lists with the names of respectable and good citizens. If each man in the room were to obtain 15 over the 1000 would be reached. Letters were good for introduction, but they must be followed by personal influence.

Mr. Gourlay said the statement had been made that every tax-payer was eligible. That was hardly the fact, he said. That was hardly the fact, he said. That was hardly the fact, he said.

Mr. Gourlay said the statement had been made that every tax-payer was eligible. That was hardly the fact, he said. That was hardly the fact, he said. That was hardly the fact, he said.

COCESSIONS CAME TOO LATE, SAYS MADERO

Peace Only if Diaz Steps Aside—Intervention by United States a National Disaster.

MADERO'S CAMP, near Chihuahua, April 4.—(Special.)—The World met peace at Mexico City have served only to convince the insurgents of their ultimate success, was made by Francisco Madero, Jr., the provisional president, in an interview to-day. Madero declared he was confident of the final triumph of arms in the overthrow of Diaz.

"The change of the ministry is a concession," said Madero, "but it comes too late, and is not sufficient."

"We don't want promises; the government has always made promises and kept none. The only condition we will accept is peace, and that Diaz must step aside and declare null the election of last year. We must be certain of a free ballot, the protection of our constitution of 1907 and a guarantee of no 're-election' of Diaz."

"Foreign money in this has nothing to do with it. The country will progress more rapidly under the reforms which we will institute, and those who have capital invested here will receive greater dividends. We are respecting the property rights of foreigners. Every dollar's worth of property damages will be refunded by our government."

"We hope the U. S. troops will never come to this country. It would be a calamity. We could not do otherwise than regard intervention as a hostile act. We are ready to settle our own family troubles."

Grand Trunk Pacific Have Inaugurated Their Pacific Coast Steamship Service.

The Grand Trunk Pacific Coast Steamship Company have commenced the operation of their summer schedule giving a direct and fast service between Seattle, Victoria, Vancouver, Prince Rupert and Stewart. North-bound the steamers leave Seattle at midnight Sunday and Wednesday, and Vancouver Monday and Thursday.

The palatial steamship "Prince Rupert" and "Prince George," already famed for their swiftness and excellence, will perform the service. During the late winter both ships underwent a thorough overhauling, and are now more handsome than ever. The "Prince Rupert" and "Prince George" have been pronounced time and again since they went into commission last summer the most magnificent and comfortable steamships in the Pacific coast trade.

These two ships were so popular, and such a great success last season, that the company have decided to commence the operation of the summer schedule without delay.

The indications are that there will be not only a large trade but a coming summer, for which these steamers are so admirably suited, but very heavy movement into the valleys of the interior of British Columbia, especially to the large tracts of rich bend lands along the coast, which are well adapted to fruit growing.

During the winter the Grand Trunk Pacific have made extensive improvements to the service between Seattle and Victoria. The dock at Seattle has been pronounced by shipping men to be the finest and best equipped dock on the Pacific coast.

At Victoria is also the most modern and improved type, splendidly arranged and conveniently located.

In connection with the schedule of the steamers "Prince Rupert" and "Prince George," the steamer "Prince Rupert" and "Prince George" will be assisted by Miss Alda Massal, mezzo-soprano, and Mr. Gustave Brancier, violinist.

FIRE AT SEAFORTH

Scott Block Wiped Out—Loss Will Exceed \$14,000.

SEAFORTH, April 4.—Fire to-day practically wiped out a number of firms doing business in the Scott block, a three-story brick building on Main-street. It originated in the top story, and was discovered about 5 a.m. The cause is unknown. The heaviest losses are: F. Holmstead, lawyer; Dr. Fisher, dentist; and Gutteridge, contractor. Mr. Fisher, grocer, and Alex. Wilson, druggist and stationer. The total insurance on building and stocks was about \$14,000, but that will not cover the loss.

Gets a Year in the Central.

PETERBORO, April 4.—(Special.)—Alfred Meakins was sentenced to-day by Judge Huyske to one year at the Central Prison for robbing Wesley Weecott of \$23 on Simcoe-street last week.

An Anti-reciprocity resolution failed to pass the city council.

The Mayor's ballot list the vote.

A \$30,000 Blaze.

LANGENBURG, Sask.—April 4.—Fire which broke out early this morning in the hardware store of Denmark and Burton, caused a loss of \$30,000. The Bank of Toronto building and Imperial Hotel were both badly scorched.

School Nurses Go to Montreal.

Central Lena L. Rogers, superintendent of school nurses, and Alex. Birton, caused a loss of \$30,000. The Bank of Toronto building and Imperial Hotel were both badly scorched.

Suffered Greatly From Heart Trouble.

NERVES WERE VERY WEAK.

Eczema on Leg for 25 Years

I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. I tried their best, but failed to cure it. My own doctor had advised me to try them if you like but I do not think they did me any good. At this time my leg was peeling from the knee down, my foot was like a piece of raw flesh and I had to walk on crutches. I bought a cake of Cuticura Soap and a bottle of Cuticura Ointment and a bottle of Cuticura Remedies. After the first two treatments the swelling went down and in two months' use of the Cuticura Remedies my leg was cured and the new skin grown on. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use Cuticura for his own patients. But for the Cuticura Remedies I might have lost my life. I am truly grateful to the wonderful cure that Cuticura wrought. I have many grandchildren and they are frequent users of Cuticura and I always recommend it most highly as a sure and economical cure for skin troubles. (Signed) Mrs. J. B. Reardon, 277, Metairie St., Montreal.

Cuticura Soap and Ointment

altered the complexion and most economical treatment for affections of the skin and scalp. A cake of Cuticura Soap and a bottle of Cuticura Ointment are often sufficient. Sold everywhere. Write for Cuticura Book on treatment of skin diseases.

SOCIETY NOTES

Miss Ella Marie Maxwell has issued invitations for a piano recital by some of her pupils, in the Margaret Eaton School of Expression, on Friday evening, April 7, at 8 o'clock. The program will be assisted by Miss Alda Massal, mezzo-soprano, and Mr. Gustave Brancier, violinist.

NERVES WERE VERY WEAK.

NERVES WERE VERY WEAK.

Mrs. John Farrell, Rose Hill, P.E.I., writes: "It is with the greatest of pleasure I write you stating the benefit I have received by using Milburn's Heart and Nerve Pills."

"About five years ago I suffered greatly from heart trouble, and my nerves were very weak. After seeing several doctors and using their medicines, I got no relief until a friend told me of your Heart and Nerve Pills. I took two boxes and they effected a complete cure. I can recommend them highly to all nervous and run-down women."

"I have advised many others to try them and they have all been cured of the same trouble."

THE CANADIAN WEST AS IT WAS, IS AND WILL BE

Mr. C. A. Owens, Representative of the Development of This Land of Promise.

\$400,000,000 of New Wealth for Western Canada This Year—One Young City's Marvelous Growth Within Ten Years.

In a stroll last evening through the Klondike, Mr. Owens, one of the western contingent of capitalists, who make the big King-street hotel their headquarters, Mr. Owens, a comparatively young man, is typical of the "big men" of the west, in spirit and vision, no less than in the large, interesting, which the well-known company, of which he is managing director, represent, and which he has come east to advance.

"I'm from Calgary," he said, in answer to The World's request for news from the prairie provinces, "and it seems to me that eastern papers are just now paying so much attention to our young city, and the great province, of which it is the financial, commercial and industrial centre, that you don't know what to give you that you'd call real, live news. I needn't tell you that Calgary is growing. They say there isn't another city in America showing so extraordinary a rate of increase in population. In 1901 it was less than 5,000, to-day it is over 55,000. In 1910 the assessment was \$50,000,000; this year it is \$54,000,000. Last year the building expenditure reached over \$5,000,000; this year an official estimate is \$12,000,000. The bank clearinghouse rose from \$28,000,000 in 1903 to \$150,000,000 in 1910. The customs returns have grown to \$1,085,000, the inland revenue to \$685,000, the postal revenue to \$150,000, the telegraph message to nearly 2,000,000."

"But, perhaps," observed Mr. Owens, "these figures are not absolutely a revelation to you and yet to quote them is about the easiest and most direct way of emphasizing the wonderful development of the west. Do you know that \$400,000,000 of money is going to find its way into the prairie provinces this year? It's true. The Canadian Northern Railway spends \$120,000,000; the Canadian Pacific, \$140,000,000; the Grand Trunk Railway, \$17,000,000; American settlers will bring \$100,000,000; the cities will spend on building operations at least \$50,000,000; the grain crop is conservatively estimated at \$155,000,000; and sales will easily reach \$200,000,000; the live stock trade will reach \$200,000,000, on the basis of a \$10,000,000 output of Alberta alone last year, and the adoption of lines, having a score of branches radiating from the city, Calgary is destined to become an important manufacturing point, as well as the greatest distributing centre between Winnipeg and the coast."

"Is the boom?"

"There is no boom," interrupted Mr. Owens. "It is a steady, unintermittent development. The growth going on may be extraordinary, but it is steady. Conditions justify this. It is the last great west, mind you, and settlers from all quarters of the globe are flocking hither, to people the land, the source of all wealth. The Canadian Northwest is virtually the granary of the world. America produces one-half the world's wheat supply, and the cultivated area of the west is a mere nothing as compared to the vast cultivable area. For instance the City of Calgary is the seat of an agricultural district of 50,000,000 acres, only on the threshold of settlement and cultivation. When this fact of itself is considered, the adoption of the mineral and timber of the city may be better understood."

"The young western magnate, modest and assuming, his department, waxed eloquent as he drew a world-picture of occidental possibilities. Alberta, he said, is a thriving metropolis, of course, loomed big in the calvary. He dilated on the climate of southern sunny Alberta, the most temperate, equable and salubrious in the year, and of how the live stock roamed the ranges all winter. He predicted that the province would be a very net, and work of railways and the mineral and other resources would develop with amazing rapidity. He quoted a news item in yesterday's despatches, stating that 24,000 emigrants, bound for the Canadian west, had sailed from the Clyde, making a record in the arrivals of the department."

"They started a 100,000 club in Calgary four years ago," said Mr. Owens, "and already the members foresee themselves out of a job, unless they get ready to fix the 200,000 figure as the goal. And I want to emphasize this point," he continued, "notwithstanding our commercial and industrial growth, the city has kept pace with it in culture and refinement, in the adoption of modern utilities and conveniences, such as street railways, electric light, waterworks, sewerage, parks, athletic grounds, in colleges, and in the most modern of institutions that bespeak the intelligent, well-ordered, high-deal community."

"he added, "Calgary's out west, but it's no longer the wild and woolly west. It's the highly civilized, intellectual, moral and progressive west. See?"

To Meet at City Hall.

The meeting place of the arbitrators in the G. N. W. telegraphers' dispute was changed from the Prince George Hotel to the city hall chambers, where daily sessions will be held. Nothing for publication has developed as yet.

The Rev. Dr. Barclay of Montreal is to visit Toronto this week. He will be the guest of Principal Gandler, and will speak at the closing of Knox College in St. James-square church on Thursday evening.
