"We Must Not Lose!"

Premier Lloyd George's speech must be regarded as one of the great Parliament. Never in the history of faced such a crisis. The battle which per week, 2 1-2 lbs. meat, 7 ounces proceeded again in France is not only the greatest in British history, but rations and you are doing your share." the greatest in all history. Just why the Irish Roman Catholic bis'.ops have met and denounced conscription they and their friends in Quebec can perhaps explain to Cardinal Mercier and his poor Belgian people. But they must have more faith in British arms than Mr. Lloyd George has, and do not anticipate a German invasion and an Irisland desolated as Relative as Ser. The Manchester Guardian appears also to have abundant faith in British prowess, and declares that it is

The British Government is taking no chances. Fighting may go on for seven or eight months. It is the possibilities that have to be provided for. Hon Everett Colby jarred the foundations of Toronto yesterday in his addresses on the food question. It is perhaps the most tragical fact of the war that Americans and Canadians are eating their way to defeat. Wa have not been told the facts about food on this side of the Atlantic with the same frankness that the premier of Britain has stated the military situation. The allies required 400,000,000 bushels of wheat, and we ate so much more last year, instead of less, that the allies in Europe only got 206,000,000 bushels. In a masterly summary he tells the whole story, concealing nothing. It must be a mystery to the Germans to find that the lowliest citizen of the United Kingdom, of the empire, its taken into confidences which Potedam would scarcedy reveal to the reichstage. Herein lies the strength of the morracy. They know the best and the worst, the people of the sea-girtisles and of the oversee dominons, and they know what is expected of them.
