# **MUCH-MARRIED EARL NDITS TORTURE** MAN AND HIS WIFE

London, Jan. 15.—Earl Cowley, whose marital affairs caused much talk in English society. from 1905 to 1914, died this morning.

Henry Arthur Mornington Welles-

ley, third Earl Cowley, was born in 1866 and succeeded to the title in 1895. He was formerly a captain in the

Wiltshire Regiment and served in

South Africa in 1900 with the Imper-

ial Yeomanry. Lord Cowley was married first in

1899 to Lady Violet Nevill, daugh-ter of the First Marquis of Aber-gavenny. She obtained a divorce in

1910! In 1912 Lord Cowley was named as co-respondent in the divorce suit of Geoffrey Buxton against his wife.

Pensions

ANADA'S yearly pension bill is estimated by the Minister of Finance at \$30,000,000. This is a minimum figure. How is this vast fund to be administered? To whom will pensions be paid? Everyone is asking these questions. Here is the official answer.

### The Organization

A huge organization has been built up to handle pensions promptly, smoothly, fairly.

At its head is the Board of Pensions Commissioners. This Board is to be developed as a civil rather than as a military body. It consists of three men, each appointed for'ten years, each devoting his whole time to his duties as a Commissioner.

The Head Office of the Pensions Board is at Ottawa; and there are seventeen branch offices in the principal' centres throughout Canada. An important branch is in operation in London, England.

These local branches receive applications from soldiers' dependents for pensions; send "Visitors" to call on pensioners in their homes; hold medical re-examinations; handle complaints.

The Board keeps a representative travelling from coast to coast interviewing pensioners and addressing organizations interested in their welfare. He has already conferred with more than 30,000 pensioners.

At present 60,000 pensions are being administered by the Board.

### A Pension-What it is

A pension is not a gift, gratuity or reward for service done. It is compensation -money paid as a right by Canadians, through their Government, to offset in a measure the handicaps suffered in war by their fellow-citizens-a debt that the country owes to our returned men, and to the dependents of those who have fallen.

The amount of the pension is based on the extent of the physical handicap he has suffered.

The physical condition of the disabled man is described on his discharge from the service by a Medical Board. Pension is awarded according to the amount of disablement from which he is then found to be suffering.

The percentage of handicap has been carefully and thoroughly worked out for every disability. It is both accurate and fair.

The relationship between the Medical Board and the pension applicant is that of doctor and patient. Every opportunity is given to have the man's condition judged from his point of view.

### Amount of Pension

rank is \$600 a year.

remarry.

Pensions to Dependents

if boys, or seventeen, if girls.

The pension is awarded to a soldier or sailor so that he can live in decent comfort, despite his handicap.

The money he may be able to earn, or the money he earned before the war, does not affect the amount of his pension. The extent of his handicap alone in the general labor market is considered.

Every man who has increased his income by Vocational Training will not have his pension decreased or discontinued.

The amount of the pension varies also according to the soldier's rank; but his trade or profession is no\* considered. The

minimum pension for a totally disabled

unmarried soldier or sailor of the lowest

Widows of soldiers or sailors who have

Children of soldiers or sailors are en-
