

AN ENDOWMENT FUND FOR A NOBLE CAUSE

Name of H. C. Hammond to Be Perpetuated in a Strongly Humanitarian Way.

In September last, Herbert C. Hammond, from his sick room, wrote a final appeal on behalf of the prevention of tuberculosis, in which he proposed on broad lines a general public propaganda to stir up action by the government which would have for its object the eradication of this fell disease. While the direct object of the appeal was not so much for contributions as for a general up-stirring of public interest, there was an immediate and spontaneous response in monetary subscriptions.

At the same time a number of friends deemed the occasion appropriate for the establishment of a fund which would assist in perpetuating the work of the Toronto Free Hospital for Consumptives, and associate Mr. Hammond's name with it, while providing permanent means for continuing the splendid and self-sacrificing crusade initiated by him. It was decided to inaugurate the H. C. Hammond endowment fund, which has appeared very strongly to all who know him. The sum of \$35,000 has been secured by individual subscription without any systematic canvass, and as many of these in sympathy with this noble work, and its appealing object, have not been called upon, it is proposed to ask that any of those who feel so inclined should now subscribe.

While the subscriptions thus far received from Ontario have been in sums of considerable amount, any contribution, whether large or small, will be thankfully received by the committee, which is composed of Frank Darling (chairman), Chas. Cookshutt, Hume Blake, Stephen Haas, J. A. McKee, Sydney Small, C. A. Bogert (treasurer) and Stewart Houston (secretary). Subscriptions may be sent to any member of the committee, or to C. A. Bogert, general manager of the Dominion Bank.

A gratifying feature of the list of subscriptions is the considerable sum received from Montreal and Winnipeg. These two cities have now planned a systematic fight against tuberculosis, and are establishing hospitals of their own, much to the gratification of Mr. Hammond, who may regard the efforts made in other places as a logical result of the movement in Toronto and Ontario.

Many liberal subscriptions were sent to Mr. Hammond direct, and these are being applied to the general purposes of the Toronto Free Hospital for Consumptives, and have been acknowledged from time to time in the press.

The subscriptions received for the H. C. Hammond fund are as follows:

\$500—E. B. Osler.

—Stabbed by Italian.
—NAGARA FALLS, Ont., Nov. 27.—A freed, an Italian, who stabbed W. H. Morton twice in the breast yesterday afternoon, was this morning recommended for one week pending the result of Morton's injuries.

The dispute which resulted in the stabbing arose because the Italian expected 12-12 cents per hour for work performed on the township roads instead of 15 cents, the regular rate.

Corns, Warts, Bunions, Calluses removed for all time by applying Putnam's Corn and Wart Extract. It contains no acids, never burns, and cures permanently. Use only "Putnam's."

This Company Holds 22 Timber Berths, Aggregating 52 sq. Miles (33,280 Acres), all Carefully Selected, Containing Over 800,000,000 Ft. of Finest Timber, Bought by This Company at the Exceptionally Low Figure of 26 Cents per Thousand Feet

All of this timber is located in the Willow River District on solid level ground, lies close beside good water for logging, and is mostly White Spruce of a superior quality. It averages 30 inches in diameter and ranges from 90 to 160 feet high. The limbs commence half way up. There is some good tall Pine and Balsam. The Grand Trunk Pacific and the Canadian Northern surveys both cross the Willow River lower down than our limits.

British Columbia White Spruce is infinitely superior to the Ontario variety, and makes the finest finished lumber for interior work. It also makes splendid lumber for general use. Ends of logs and logs too small for lumber can be utilized for pulp, as White Spruce is universally acknowledged to be the finest material in the world for pulp for fine papermaking.

The limits were cruised by James M. Anderson, of Sutton West, an Ex-Crown Timber Agent, and the company has on file at its office a number of letters from some of the most prominent business men in Canada in recommendation of his capability and integrity, and from settlers in the Cariboo District verifying his report of the timber.

The company has also issued in pamphlet form the report (dated Oct. 31, 1908), of Mr. H. P. BELL, M.I.C.E., member Am. Soc. C. E., at present the Superintendent Engineer on the Government Staff on the Trent Valley Canal at Campbellford, Ont., who was employed by the British Columbia Government in 1874-5-6 to make a survey up the Willow River Valley for the proposed route of the British Pacific Railway, and who cut the Government Pack-trails through the Willow River District in 1895. His report substantiates Mr. Anderson's in every detail, and in view of Mr. Bell's pre-eminence among the Civil Engineers of America, among whom there is no higher authority on the topography of the Cariboo District, his report will be universally accepted as being entirely correct. Mr. Bell was recommended to this company by Mr. Colingwood Schreiber, Consulting Engineer to the Dominion Government and Chief Engineer of the Western Division of the National Transcontinental Railway.

GOOD TIMBER well located, is the safest and best investment in the world to-day.

The C.P.R. holds several limits in British Columbia, and after reserving the best, is selling the second-class timber at \$2.00 per 1,000 feet on the stump. If we sell our selected timber at the same figure in three years, on a basis of \$224,000 paid-up capital,

Each \$100 Invested To-day at Par Will Bring a Return of \$722.52

This is not exaggerated; \$2.00 per thousand for good timber is a ridiculously low price. In Ontario Spruce is now worth from \$7 to \$9 per thousand feet on the stump and is rapidly increasing in value.

The Company Has Reserved \$36,000 of Treasury Stock to Provide for Future Government License Fees

Each Share of Stock Represents 315,600 Feet of Timber

A Limited Number of Shares is Now Offered at Its Par Value.

\$100 Per Share on Time; Cash, Per Share, \$97.50

TERMS—Cash: 5 per cent. discount on one-half the amount subscribed; Time: 25 per cent. cash, 25 per cent. on December 10, 1908, balance by May 10, 1909. Copies of Prospectus, containing Maps of the District and disposition of the berths and report of Gov. Engineer H. P. Bell supplied on application. FIRE DOES NOT DESTROY MATURED TIMBER It kills and stops the growth, but if cut down within two years after the fire, this timber will make first-class lumber. But fire does destroy the young growth of small saplings, thus depriving the coming generations of their timber supply. ANY RELIABLE LUMBER DEALER WILL VERIFY THIS STATEMENT.

AN ARMY-CORPS ARRESTED.

Buffalo Police Say They've Been Stumbling the Public.

BUFFALO, Nov. 27.—The headquarters of the American Salvation Army, at 18 Genesee-street, was visited by the police and the whole corps, including Adjutant Calvin Spangler, taken to headquarters, where they were

questioned in regard to charges that they had solicited money under false pretences.

The arrested men were committed to jail in default of \$500 bail. Frederick Hall and Thomas Wilson, also members of the army, were committed to jail as witnesses.

The direct grounds for the charges are the statements of several merchants and dealers on the wholesale

and retail provision markets that the collectors of the organization have been soliciting funds, sometimes in the name of the American Salvation Army, and always for the purpose of helping their Children's Home or of providing for Thanksgiving dinner to the poor.

Edward Newton and Jos. Rickard, two young men who were recently sent by the detectives to the headquarters on Genesee-street to offer

their services and to secure information, without being required to present references or to show proof of their reliability or good character, were immediately furnished with uniforms and sent out to solicit money from the public.

"You may keep 50 per cent. of all the money you collect," Spangler is said to have told the young men.

Mrs. Clara Graham of 33 Broadway

has signed the following statement:

"I do hereby testify that in nine months I collected \$588 for the American Salvation Army and all that was done with the money was to support Major East, his family and his soldiers. At that time they had ten collectors besides myself."

Major East, who started the Buffalo branch of the army just two years ago, left the city last May. Mrs. East,

who had charge of the work for some time after her husband's departure, is now at work in Chicago.

"The American Salvation Army" is not the well-known Salvation Army which in Buffalo has a well-organized system of charities. It is entirely distinct from that body and, as far as can be learned, has no means of doing relief work. It is managed by James A. Duffin of Philadelphia.
