AMILTON APPENINGS

REPORTS SHOW GIRLS' HOME FLOURISHING

Fell Into City's Excavation and Broke His Nose-Wanted Girl to Elope.

HAMILTON, May 11.—(Special.)— The annual meeting of directors of the Girls' Home was held this afternoon. The president, Mrs. Lucas, occupied the chair. The report of the secretary showed the institution to be in fine condition. The number of girls being taken care of is forty, as compared with forty-seven this time last year. The total receipts of the year were 38601:27 and the expenditures \$3384.55. Miss Walker, formerly recording secretary, was appointed treasurer. M.ss Gaviller, corresponding secretary, assuming the recording secretaryship as well. All the other officers were re-elected.

elected.

Wm. Nediger of Owen Sound died in the city hospital here this afternoon, aged 61. Wm. Armstrong also died in the city hospital this afternoon.

The firemen were called to a small blaze in a barn, belonging to Wm. Schram, at the rear of 59 North Westavenue. The fire, which is supposed to have been started by some children playing with fireworks, did about \$200 damage.

Harry Turner, 25 Pine-Street, while out walking this afternoon, fell into some excavations the city had made on Herkimer-street and broke his nose. He also received a number of minor injuries, and had to be taken to the city hospital.

ustice Riddell Postpones Sentence on Man Until Certain Evidence is Substantiated.

"In this case there was deliberate, inexcusable, brazen-faced perjury, the like of which I have never seen in all the years that I have been at the bar."

Justice Riddell made this statement in the assize court yesterday, following the verdict of jury finding Gordon Muma, manufacturers' agent, guilty of common assault upon Alice McCarger in his office in the Traders' Bank building on the night of Jan. 29. A charge of criminal assault was brought by the weman, who was married on Feb. 8 to Archibald Van Nest, a barber. Muma's piece was not guilty.

"The smount we sent was something offices than a ton, and the smelter returns are \$87. Put up your cheque and I will square it with you the next time I see you."

Guaranteed by C.M.A.

The Toronto branch of the Canadian Manufacturers' Association, which guaranteed \$20,000 of the Y. M. C. A. fund, has already secured \$19,585 of the guarantee. This means that they will exceed substantially the amount

Newspapers and

Telephones

Fort George

The following item is repro-duced entire from The Vancouver News-Advertiser of April 27:

New Paper for Fort George. Mr. E. A. Hagen of Reveistoke is in the city, a guest at the Hotel St. Francis. Mr. Hagen, who was editor of The Revelstoke Mail-Herald, and for years connected with newspaper work, is leaving for Fort George, B.C., where he intends to start the publication of a paper at that point. He has secured a complete printing plant, which is being forwarded to the coming industrial centre of the interior of northern British Columbia.

To Establish Paper.

Attracted by the great future, which they believe to be in store for this new territory, there are now in Vancouver two gentlemen with a plan by which the development of Fort George as the coming central city of the province takes another leap forward. These men have organized the Fort George Publishing Company and are establishing a newspaper to be called The Fort George Mail. Associated with this enterprise will be a first-class printing establishment. They have shipped into Fort George one of the most complete newspaper and printing plants in British Columbia. This plant includes a new Cranston cylinder news and book press, capable of printing an eight-page newspaper and turning out the finest quality of illustrative and book work; also a job printing platen press, paper cutters, binding, numbering and perforating machines, and all requirements of an up-to-date plant of this kind. A gasoline engine accompanies the plant to provide the motive power until such times as the power plant is equipped at Willow River and the wires strung to Fort George. Some idea of the character of the project may be gained from the fact that the cost of the freight on this printing plant from Asheroft to Fort George amounts to \$1500.

The Fort George Mail will start as an illustrated weekly newspaper and its object will be to ascertain and publish reliable information regarding the town of Fort George and the surrounding country.

Ring Up Fort George

The installation of a telephone system shows how rapid is the development of this commercial capital of a new empire. The following item is from the Fort George Tribune of April 2:

"We are to have a telephone connection with Blackwater Crossing. Wm. West, representative of the Kootenay-Aberta Telephones Company, is at present on the trail between here and Blackwater looking over the ground with a view to having everything in realiness to string wire when it arrives on the first boat. It will be a bush line at first and will be in operation the latter part of June, and a permanent extension to Quesnel made later in the season. It is proposed to make Fort George the centre for the system which will radiste into the Nechaco and follow the line of the Grand Trunk Railway to a connection with the Government lines in Aberta. Connections will likewise be made with prospective towns along the Grand Trunk Railway west and south of here. "When this line is completed it will be possible to reach the outside world in less than five days."

is the word that describes the present development at Fort George. Great cities arise in great empires. Central British Columbia is the last great undeveloped section of North America. Three lines of steamboats are already operating on the rivers that converge from Fort George. A great transcontinental is building through it. Lines are projected from it porth and south. Banks are being established, businesses located and homes are being built.

It is your opportunity to share in the profit of this development. Write or call to-day for our paper. 'A Bulletin of Facts' about Fort George and Central British Columbia.

SCARBORD FARMERS TO APPEAL TO COMMISSION

Big Meeting Decides to Take Chances-Don't Like Railway's Attitude-County Notes.

AGINCOURT, May 11.—(Special.)—Moved by Thompson Jackson, seconded by Raiph Horsey, and resolved, "That a deputation be appointed to wait upon the board of railway commissioners and present to them the request of the ratepayers as expressed at this meeting, regarding the railway crossings made by the Canadian Northern Railway in this tewnship, and further, that the members of the deputation be John Richardson, ex-M.L.A.; W. F. Maclean, M.P.; ex-Warden Alex Baird, Henry Harding, Hugh Clark, John Elliott, Alex. Macklin, J. T. Stewart, Elias Woods, William Woods, John Kennedy, together with Reeve Annis."

Clark, John Elliott, Alex. Macklin, J. T Stewart, Elias Woods, William Woods, John Kennedy, together with Reeve Annis."

This was the resolution unanimously adopted at the big public meeting called by Reeve Annis of Scarboro Township, and held in the Temperance Hall here this afternoon. The gathering was called in response to a request from a large number of residents, and while characterized by a lot of discussion, animated at times, was singularly free from personalities and marked by the good sense and judgment which might naturally be expected from a lot of Scarboro farmers.

Ex-Warden Alex. Baird was an ideal chairman and everybody got a fair chance to air his grievance against or express his satisfaction with the township council. And, by the way, the council have been subjected to a good deal of criticism in this matter.

The long and short of the whole trouble is found in the fact that the Canadian Northern Railway in crossing the Kennedy-road have, in order to save a lot of expense, diverted the present roadway nearly 300 feet to the east, thereby giving-an overhead bridge in lieu of a level crossing, or an overhead bridge on the Kennedy-road, which, it is claimed, would have been impracticable.

At the same time the diversion as at present proposed will, with a little more work, give to the people coming along concession D access to the Kennedy-road without crossing the railway at all, all of which is very satisfactory to the railway company.

But the Scarboro men living to the north, of the C.N.R. crossing on the Kennedy-road and a lot of Markham farmers as well took exception to the diversion of the Kennedy-road at all, and claim that the Scarboro council in not asking for a level crossing

and claim that the Scarboro council

and that even yet with a good deal of the work done the present is a good time to press home on the railway commission the demand for level crossing with gates. They would also like to see the cost of watchmen assessed upon the C.N.R.

"We would be willing to bear a fair share of the expense for the sake of getting a good road to Toronto." said Hugh Clark. "The Markham-road has an overhead bridge and they all come down the Kennedy to avoid it," he said.

George Robins compared the Markroad bridge to the Tower of Babel. "I went to Toronto 96 times last year." said Mr. Robins, and I went the Kennedy-road to avoid the overhead bridge."

Reeve W. D. Annis gave a lengthy and lucid review of the council's ac-

and lucid review of the council's ac-tion in the matter, and made out a good case for the township fathers.
"If we have done wrong in the matter," said the reeve, "we are willing to pay the penalty, but we acted in the best interests of the municipality at large. We were afraid to ask for gates for fear the railway commission would put the cost on the township," he declared.

Archie Paterson expressed his satisfaction with the action, and Deputy Reeve W. H. Paterson and Councillors Law, Green and Ormerod assumed their respective shares in the action of council, the former defending himself vigorously and suc-

cessfully.
Ralph Horsey, ex-Councillor Henry
Harding, Alex. Macklin, John Kennedy, Billy Woods, Robt. Sellers, Thos. Thompson, Hugh Clark, and J. T. Stewart, secretary of the meeting, took exception to the diversion of the road.

Mr. Stewart took strong grounds

against the action of the railway commission in allowing the diversion, and charged that a great deal too much power was vested in corpora-tions as against the farmers, and this view was generally shared by the farmers present. "If the railway commission can ride

rough shed over the farmers and the local municipalities have no say in the matter, it is time the law was changed and the government stepped into the breach," was a statement that evoked warm support. committee appointed will collect data, not alone about the Ken-nedy, but other roads before waiting
