U.S. CAN ASSIST TO SHORTEN WAR

Viscount Bryce Says Enemy Would Realize Uselessness of Struggle.

DUTRAGED CONSCIENCE

Germany Could Not Battle Against Condemnation of the World.

London, Feb. 8.—Speaking with regard to submarine warfare, Viscount Bryce, in an interview today, said:

"We in England do not believe the German submarines can do us more harm than they are doing already, althe neutrals undoubtedly will suffer more. If there is to be a contest of endurance, we are confident that we can outlast Germany, and we are prepared to endure all that is necessary for the sake of success in a righteous cause. It is not vengeance against Germany that we are fighting for. We want no revenge upon the German people. We are fighting for the future

When Mr. Bryce was asked con-cerning President Wilson's course in severing diplomatic relations with Germany, Mr. Bryce said that President Wilson had acted with consideration, and this greatly strengthens

his present position. ... Would Shorten War. "What difference would America's oming into the war make?" Mr.

"It is not for us to express any opinion on what America's duty and policy require," he replied. "That is entirely a matter for America, but you want to know what difference it might make, I, personally, have never doubted that the entrance of America would be a most important factor and would naturally tend to shorten the war. Apart from such military and naval strength as America might bring and apart from the prodigious finan-cial resources America commands, how great would be the moral effect ced by her action! The Ger man, Austrian and Turkish Governments would feel that success had become impossible for them, and also that when the time comes for them to yield, they would be yielding not to the force of belligerents, but to the outraged conscience of mankind. represented not only by belli-gerent people, but also by the greatest of neutral states. Not even Ger-many, strong as she has shown her-self, can fight against the condemna-tion of the clyllized world."

All Injured Have Been Discharged From Winnipeg Hospital.

Winnipeg, Feb. 8.—At the office of the vice-president of the G. T. R., a report was received this afternoon from the chief medical officer of the road that all the soldiers injured in a wreck of Winnipeg this morning had been discharged from hospital. None

of the injuries are serious.

According to The Telegram, a G. T.

P. train bound for Winnipeg with the 233rd Battalion of French-Canadians alboard met disaster soon after 2 a.m. today, 40 miles west of Winnipeg, four or five pullman cars rolling over an embankment. It was stated that two men, Dr. Russeau, medical officer of the battalion, and a colored porter were probably fatally injured and forty soldiers hurt, including Lieut.-Col. Leprohon, commander of the battalion The cause of the accident is officially stated to have been a broken rail.

LACK OF HEAVY HORSES DEPLORED BY BREEDERS

Clydesdale Show Association Requests Members to Keep Their Brood Mares.

The Clydesdale Horse Show Association of Canada at their annual meeting announced a great growth in membership and a larger number of members present than on any other year. The revised constitution was received with but a few amendments. An increase of \$2857 was noted in the receipts from registration and membership over 1915. The financial statement showed a balance on hand of \$8886.90. Dr. Rutherford, former veterinary director-general and commissioner of live stock, was voted a lifemembership of the association for his untiring interest in the past.

The lack of heavy horses in country was pointed out, and it was esolved that the breeders be requested to keep their brood mares. It was shown that they would reap an increased profit at maturity. Over 80, 000 horses have been exported from this country since the war broke out, yet the association very regretfully reported that the United States had had the preference by the imperial government and had exported far more than this number. The officers for the year 1917 are as follows: President, William Graham; vice-president, J. Torrance; directors, John Boag, Ford Richardson, J. Henderson, T. D. Elliott, W. Scott, Kirdy and J. H. Hassard.

EXPRESS RATES UP

Hoorse Breeders' Association Discusses Matter of Proposed Increase.

The annual meeting of the Ontario Horsebreeders' Association was held at the Carls-Rite Hotel last night, and well-attended meeting produce some very interesting discussion on the ation from the breeder's standpoint. Altho this association has been handicapped by lack of funds, it has been very successful in its ventures along the lines of breeding the thorobred. The president, in his address, stated that he had reason to believe that the Canadian Remount Depot was broken up purposely, and he thought that when a government official made the statement that, because of climati conditions and because it was impossible to keep horses in open, buying had been discontinued in Canada for the army, it was about time so remedied the bungling that has been prevalent in this department since the war broke out. A strong discussion was raised at the announce ment of the railways, by letter, that express rates would be increased approximately twenty per cent, and finally it was decided to let the live stock commissioner confer with those interested and have the association represented at the meeting called to discus the rates at Ottawa on Feb. 20th. notion was passed to have the pres dent, vice president and the secreta form a committee to interview minister of agriculture as to the future interests and betterment of the breed-

ng of the thorobred horses.
One member brought before the association the statement that the government had accepted the Blue Cross mbulances, transport wagon, instru ments and horses, the donation of the Canadian Horse Breeders, and that and without the horses. showed that the horses were at Kings ton, but the commandant of the Roya Military College there stated that the there.
