THE WEATHER

NOTICE TO ADVERTISERS

A four-inch water main in Bridge street, Indiantown, burst yesterday morning and the water flowed all day yesterday until repairs were made. The break was a bad one, and necessitated the services of a large gang of men.

The regular monthly meeting of the Holy Name Society was held last night in the Cathedral and Rev. Father Meahan continued his series of sermons on "The History of the True Church," Father Meahan spoke at some length on the life and times of Constantine:

Morris Wood, the American skating champion, will arrive in the city tomorrow from Long Branch, N. Y., where he has been skating of late. Late papers to hand say the wily American is in excellent shape, and refer to his trip to St. John as "bearding the Canadian lions in their den." Wood may get a few surprises at the championship sports in the Vic Thursday.

application are based on irregularities in the commitment.

The police report that yesterday, the first Sunday that came under the new Lord's Day Act, was strictly observed. The little stores that formerly dealt out household necessaries on Sunday, and the cigar stores were closed, and the drug stores are said to have sold nothing but medicine and surgical appliances. The restaurants did not all close up, as the proprietors consider their work a work of necessity. Sundays to come may bring about a few cases for Judge Ritchie's consideration, for it is said that some citizsideration, for it is said that some citizens are looking out for offenders.

one of the most interesting and instructive lectures ever delivered before the Y. M. S. of St. Joseph was read yesterday aftermon by Judge Ritchie. His Honor's theme was "Our Youth, Our Hope," and the speaker dealt thoroughly with the requisites for the success of the young man. The judge pointed out that the youth should observe and practice honesty, integrity, temperance as very essential for a young man's success. A vote of thanks to the lecturer was moved by Chas. P. O'Neil and seconded by R. E. Fitzgerald, and unanimously carried. The president, J. A. Barry presided.

said that the duty of the advocates of temperance was to create such a sentiment in respect to the restriction and ultimate prohibition of the liquor traffic as would make laws effective. Mr. Knowles spoke in high terms of such organizations as the Every Day Club, to help men to be men, as manhood was the greatest asset of any state.

Rev. Mr. McLean sang two sacred solos during the progress of the meeting. These temperance meetings are held every Sunday evening from 8.30 to 9.30.

A new union, to be known as the Master Horseshoers' Protective Organization was formed Saturday evening.

The object of the union is announced as to enable the horseshoers to advance their rates 25 per cent. At present the price charged for shoeing a horse is \$1, but after the first of April it was decided to ask \$1:25. Reasons given for the increase are that prices for material have greatly increased, as have also the wages.

At the meeting officers were elected as fellows: G. F. Lawson, president: Jero-

THE VIPER OF MILAN

A Vivid and Dramatic Novel of High Standard.

**NOTICE TO ADVERTISERS ** an imbecile. These instances by no means exhaust the lurid horrors of the book. And yet the authoress is a young woman, marjorie Bowen by name.

**The story, despite its unpleasantnesses, is of the kind that rivets you to your chair until you have finished it. Visconti, the Duke of Milan, is the arch-fiend. One by one he triumphs over all his adversaries, including the majestic Duke of Verona, the proud d'Estes, and the other Italian potentates, until all Italy lies in his power. Then in the moment of his triumph he is assassinated by his secretary. In style the book is a masterpiece of vigor, impress, and dramatic effect. Climax follows climax with never a dull page intervening. There are not more than two or three speeches of over a half a dozen lines in length. Italy with its wealth of color and natural beauty tempts the author into only an occasional paragraph of graphic description. There is no character analysis, except such as a accomplished by deeds. From cover to cover it is a book of action, too. It is one of the best of recent novels. It is mappiness is justified, not only by its immediate historical setting, but perhaps by life as a whole, for the happy ending romances are, after all, rare in real life. But only one novelist in a hundred has the courage to admit it.

Chas. Patterson, who in January last was sentenced to six months in jail, and \$50 fine or an additional three months, may not complet; his term. Habeas corpus proceedings have been instituted and on Saturday afternoon the application was made to Mr. Justice McLeod by D. Mullin, K. C., acting for Patterson. Judgment was reserved. The grounds of the application are based on irregularities in the commitment.

Among the matters to come before the common council this afternoon at their regular monthly meeting will be the question of increased pay for the police and firemen. The salaries committee met this morning and considered the request of the substitute men of the city proper and north end, from \$37.50 per year. Which they have been receiving, to \$75 per year. The substitutes on the west side are recommended for an increase from \$28.50 to \$57 per year. The chief is also authorized to appoint two additional substitutes to bring the companies up to full strength.

CIVIC BILLS

At the meeting officers were elected as fellows: G. F. Lawson, president; J. A. Fitzgerald, secretary; John Willet, treasurer. A committee consisting of the president, vice-president, Samuel Ross, P. H. Betts, J. T. Ward and J. T. Cougle, was appointed to frame a constitution and draw up by-laws. Another committee was given authorific to provide a meeting place given authority to provide a meeting
