## FINDS DANGER TO FORESTS OF NEW BRUNSWICK

The Reid on Spruce-Filled  
Homesteads  
Forestry Journal Protests

Says Provincial Department of  
Lands Overloaded With Appli-  
cations From Persons Whose  
Inspiration is Pulp Wood at  
\$8 a Cord

Until homesteading and timber licen-  
sing are completely removed from the  
vicious influence of political pull, vari-  
ous administrations will continue to play  
ducks and drakes with the public re-  
sources of land and timber.  
In violence to the legal regulations and  
every consideration of the public good,  
hundreds of "homesteading" applications  
are granted because of political pressure  
and only the lack of public funds for  
transacting can prevent a general pro-  
test.

None denies the right of a land-hungry  
applicant applying to his government for a  
free grant. But in these days when  
agrees for pulpwood commands a high  
price of eight dollars a cord delivered  
at the railroad, it is significant how  
many persons are getting land hungry  
and only the lack of public funds for  
transacting can prevent a general pro-  
test. That most of the applicants are  
sources of cleared land, ready for the  
plow, and they would turn it down.

## A Menace in the East.

It is understood that the Lands De-  
partment of the Government of New  
Brunswick is overwhelmed with "home-  
stead" applications. Traditional practice  
in some parts of the Dominion has granted  
these requests as freely as they arrived.  
So-called settlers seeking some  
cheap and accessible timber, when the  
market is thriving, are allowed to take  
these generous slices out of a licensed  
area. Indifferent to the effects of fire,  
careless as to the fate of the main stand,  
they form one of the most dangerous  
menaces with which the protective staffs  
have to do. Often the spruce lands are  
quite unfit for agriculture nor has the  
settler in many instances any intention  
to try a permanent residence. He leaves  
the standing timber, leaves no provision  
for natural reproduction of trees,  
creates a fire hazard, and finally moves  
off with some easy money.

## When Special Interests.

There are indeed many cases where  
permanent colonies have followed the  
settlement of such tree-covered lands,  
but in all too many attempts, political  
pressure has compelled the giving of  
non-agricultural lands to men who are  
petty speculators and nothing else. They  
pay no timber taxes, observe no regula-  
tions and increase greatly the fire peril.  
Their interest is in the "interest" is mis-  
taken, no doubt honestly, in their pur-  
poses. They desire a permanent settle-  
ment, whereas the attractive crop of

spruce is turned to quick account and the  
non-agricultural soil beneath as often as  
not will refuse to give a farmer a decent  
living. Such colonies are fated to live in  
penury after the first sudden harvest of  
easy money on the wood and will prove  
an eventual liability to any province that  
permits their development.  
Community Life Essential.

The straight-forward policy for any  
honest government is to refuse home-  
stead applications except for land  
definitely proven as agricultural and  
where it lies in sufficient volume to main-  
tain a community and its social machin-  
ery. No citizen ought to be allowed to  
locate himself and family in a mere  
"pocket" of good soil, isolated from  
schools, churches, and markets. Where  
applicants can be shown to be mere tim-  
ber grabbers, their cases should receive  
short shrift.

## WAR MENUS IN UNITED STATES

Hotels Prepare for Meatless Day—  
"Buy a Cal" Movement—What  
Soldiers Eat

New York, Aug. 10.—The food com-  
mittee of the Hotel Association is  
awaiting word from Mr. Hoover to pre-  
pare for the first of a series of meatless  
days, which includes Tuesday.  
The hotels contemplate the doing away with  
cub sugar, and granulated sugar will be  
used wherever practicable, and the  
use of honey will be encouraged. Bread  
and butter will be served with the first  
course and not before, as is now done.  
War bread will also make its official  
appearance on hotel tables, though it is  
already being served in some hotels.  
It was announced yesterday by a rep-  
resentative of the association that the  
"buy-a-cal" movement as a means of  
increasing the meat supply was increas-  
ing, and it is expected that a million  
calves will be purchased instead of the  
10,000 originally contemplated.

The six-day campaign of the home  
economics department of the National  
League for Woman's Service to register  
through the department stores the wo-  
men of New York on Mr. Hoover's  
pledge cards will begin today. In nearly  
every department store in the city there  
will be booths at which women will  
be stationed wearing "Hoover aprons."  
The league hopes to enlist 60,000 wo-  
men through this campaign.

A meeting will be held today at the  
New York Hotel Men's Association to  
decide upon the method of recruiting  
the 1,000 cooks needed for the army  
from the hotels and restaurants of New  
York for the six weeks' instruction  
period.

Edward Panhard, chef of the Mc-  
Alpin Hotel and president of the Na-  
tional Training Corps for Army Cooks,  
yesterday gave out a list of the foods  
that would be served in the different  
contingents. Some of them are:  
For breakfast: Oatmeal, hominy, corn-  
meal mush, force, pancakes, shredded  
wheat, sausage, bacon, steaks, salt cod-  
fish, liver, hash, eggs; prunes, apricots,  
peaches, fresh apples, pears.  
The dinner menu includes: vegetable  
soup, tomato, onion, minestrone soup,  
chowder; pot roast, smoked ham, steak,  
roast mutton, stew with vegetables, fish  
or substitute, baked beans; spaghetti,  
sweet potatoes, kidney beans, beans;  
apple pie, steamed fruit, bread pudding,  
pie, plain cake, rice pudding with  
prunes.  
For supper they will have baked mac-  
aroni with cheese, hamburger steak,  
mutton stew, corn meal mush, cold

## HAIR MICHAELS

IN GERMANY AS  
NEW BISMARCK

Democratic Movement Which Re-  
formers Started in Recent Reich-  
stag Crisis, Seems to be Slipping  
on Downgrade

Copenhagen, Aug. 9.—The democratic  
movement in Germany, which reformers  
were sure was getting such a splendid  
start in the recent Reichstag crisis, seems  
now to be slipping down a grade back-  
wards. The Liberal and Radical news-  
papers in Germany generally regard the  
selection by Michaelis, the chancellor,  
his colleagues, as a distinct rejection of  
the principle of parliamentarism and par-  
liamentary influence upon the adminis-  
tration. The Socialist organ, Vorwarts,  
announces that the cabinet members,  
Spahn, Krause and Mueller, enter the  
government as individuals, not as party  
representatives. Therefore, the party as-  
sumes no responsibility, but retains com-  
pletely a free hand toward the govern-  
ment. Herr Mueller particularly, has  
long had no active connection with the  
Socialist party and has a purely adminis-  
trative non-political post.

Vorwarts declares that the present  
government must be the last of its kind  
and must be supplanted by a government  
of the people. Dr. Michaelis also is get-  
ting further away from the Reichstag  
it, as the days pass. The phrase in his  
speech Saturday on the necessity of a  
"powerful peace," was printed in black  
face type.  
Reports to the Associated Press from  
Germany say that Dr. Michaelis has now  
been hailed by the advocates of greater  
thrusts toward a delegation from an  
independent committee for German  
peace that saw Dr. Michaelis off at the  
Dresden railway station, made a speech  
which was wildly applauded, greet-  
ing him as a worthy successor of the  
blood and iron chancellor.

hed by the City endorsed "Tender for

Number Five, together with the Sub-  
structure thereof and the Railway  
Trestle at the northern side of the Shed,  
according to Plans and Specifications to

gineer.

The City does not bind itself to ac-

centum of the estimated cost of the work  
must accompany each tender. This will  
be returned to all rejected bidders, but  
the City will hold the deposit accom-  
panying the successful bid until a satis-  
factory bond has been entered into for  
the prosecution and completion of the  
work.
