FIVE KILLED IN AIRPLANE CRASH IN OLD COUNTRY

London, Oct. 4.—An airplane crashed yesterday near the Marston Airfield from a height of 200 feet, and a flying officer and four mechanics were killed. A strong wind was blowing at the time and the machine burst into flames.

The City Cornet Band fair last evening was only sparsely attended, owing to the inclemency of the weather. The workers, however, expect that the balance of the week will see large crowds there and that the affair will be an unqualified success.

DELICIOUS AND REFRESHING
THEY all go to the corner drug store, where Coca-Cola is the perfect answer to thirst.

CECIL SCORES AMBASSADORS

(Canadian Press Despatch.)
Geneva, Oct. 3.—The assembly of the League of Nations made amendment of the covenant easier by adopting today under the old unanimity rule a change in article 26, requiring unanimity for amendments, and some began consideration of the proposed alterations in the covenant under the new rule.

The Albania-Greco-Yugo-Slav problem broke out again unexpectedly, but finally was disposed of so far as this assembly is concerned by the declaration of the Albanian delegation that it would accept the decision of the ambassadors' council.

Lord Robert Cecil took occasion to score the ambassadors for their delay, saying: "We have heard that the ambassadors are about to give their decision. I hope and trust it is so because, if I may venture very respectfully to say so to such an august body, delays in such a matter are criminal to the peace of the world."

KENTVILLE MAN IS DROWNED

Kentville, N. S., Oct. 3.—Ernest O'Hara, 25, Kentville, was drowned, presumably Sunday night, in the Cornwallis river. It was learned with the recovery of his body today.

THREE MOTORISTS KILLED BY TRAIN

(Canadian Press Despatch.)
Cortland, Ont., Oct. 3.—Mr. and Mrs. J. Lafond and Miss E. Rocher, residents of South Walsingham, were instantly killed and three-year-old Guy Farrell reported dying in Tilsonburg hospital as a result of their motor car being struck by the Wabash flyer at a level crossing one mile west of here today.

MARINE NOTES.

With fourteen saloon, twenty-seven cabin and 161 third class passengers for Canadian points, the Cunard liner Carmania arrived at Halifax last night.

The steamer J. A. Kee sailed last night with a part cargo of sugar for Montreal, where she will finish loading for ports in the United Kingdom.

RUSSIAN REPLY TO BRITISH NOTE

London, Oct. 4.—A reply by the Russian Soviet government to Great Britain's recent note charging intrigue against Great Britain in Central Asia is understood to be on its way to London from Moscow. The note, it is asserted, does not attempt to answer the charges of the British government, except to assert that the evidence secured by the government was founded on "forgotten emanating from a notorious German agency." It maintains that various Soviet officials mentioned by the British government hold different posts to those attributed to them. It asserts that the eastern policy of the Soviet has been uniformly friendly to Great Britain and that Teshkent is not an anti-British propaganda centre. It states emphatically that the Soviet government has had no dealings with the British Indian revolutionaries since the signing of the trade agreement.

HAIG WRITES TO U. S. PRESIDENT

(Associated Press Despatch.)
Edinburgh, Scotland, Oct. 3.—Field Marshal Earl Haig, who commanded the British forces in France and Belgium in the great war, speaking at a grand rally of the Edinburgh branches of the British Legion here, said he had written to President Harding congratulating him upon what he was doing in connection with the calling of a conference at Washington on limitation of armament and problems of the Far East, and that he had received a reply from the United States president to this communication.

The field marshal read the president's letter to the audience. In it President Harding said he was deeply impressed with the warm congratulations upon "our efforts to establish more firmly the foundations of world peace."

COAL TO TORONTO FROM N. S. BY THE WATER ROUTE

Toronto, Oct. 4.—Toward the end of the present week Toronto will once more see Nova Scotia coal being unloaded here after an all-water passage. The Torco Cape, owned by the Century Coal Company, is due on Friday or Saturday with a load of coal, the first cargo to be brought from Sydney following a trial shipment made some time ago. The consignment will represent the first real effort to get around the haulage obstacle and port demolition coal into Toronto on a commercial basis.

To avoid returning empty, the vessel will carry grain from Port Colborne to Montreal.

WELL CONSTRUCTED MYSTERY DRAMA AT THE UNIQUE

The appearance, disappearance, and reappearance of a stolen gem gives rise to some many-sided situations in "The Blue Pearl," a thrilling photodrama which was presented at the Unique yesterday. Crooks mingling with respectable society folk, husbands and wives engaged in mutual trickery; a detective who traces the crime until suspicious points to the woman he loves; a hypnotist who unwittingly sees the stage for the theft—these are some of the characters who become involved in various mystifying complications. Interest is at high pitch throughout; the plot is logically unravelled and the excellent acting is highly complimented. Elaborate settings, attractive women and a display of extravagant gowns increase the aesthetic value of the picture, which has been well photographed. An excellent century comedy was shown in addition and completed a picture programme of rare excellence.

QUEBEC COLLEGE DESTROYED BY FIRE

Quebec, Oct. 4.—The St. Gregoire College, a day school in the parish of St. Gregoire, near Montmorency Falls, was destroyed by fire at midnight. The college was a four story brick faced building about 100 feet square. The loss is estimated between \$75,000 and \$100,000.

Do This Then see if your friends notice prettier teeth

Make this pleasant ten-day test. See what it does for your teeth. Then judge for yourself—by the clear results—how much this method means.

Millions of people have thus found a way to whiter, cleaner, safer teeth. And you will also find it.

It fights film

This method combats the film on teeth—that viscous coat you feel. Film is the teeth's great enemy. It clings to teeth, gets between the teeth and stays.

Brushing in the old ways does not end this film. And most tooth troubles are caused by what is left. Film absorbs stains, making the teeth look dingy. It is the basis of

FREE

This Ten-Day test costs you nothing. Simply mail the coupon. Then watch the delightful effects.

Pepsodent combats the film with every application. It keeps teeth highly polished, so film less easily adheres.

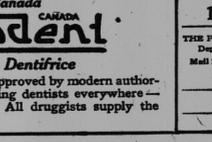

It also stimulates the salivary flow. That is Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva, to digest starch deposits which so often cling and form acid. It multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay.

Thus every use brings five desired effects which old methods failed to bring.

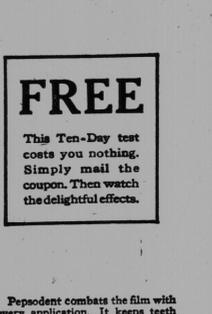

The modern way

Pepsodent is based on modern research. It does what authorities now regard as essential. Half the world over it is displacing old methods, largely by dental advice.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. Watch all the good effects. The book we send will tell the reason for them. Then decide if this method, in your family, should supersede the old. Cut out the coupon now.

FREE A 10-Shave Tube of Palmolive Shaving Cream

At the Stores listed below

1,000 Men Were Asked

"What is your conception of the ideal shaving cream?"

For many years we have been making the ideal toilet soap. We blended palm and olive oils—the balmy cosmetics of age-old fame. And millions of people have adopted this Palmolive Soap.

Six years ago we started to embody this blend in a shaving cream. And the first step was to ask a thousand men the virtues they wanted in it.

These were their requirements:

First, a quick shave
Nine-tenths of these men wanted quick shaves, above all. They did not like long brushing, finger rubbing, hot towels and delay.

So a cream was made which acts in one minute. Within 10 minutes the average beard absorbs 15% of water. And that is enough. This result is due to almost instant oil removal—the oil that coats the beard.

Next, liberal lather
Next, they wanted liberal lather. And they wanted a little of the soap to go far.

So we developed a cream which multiplies itself 250 times in lather. A bit on the brush—only one-half gram—suffices for a shave. A single tube of Palmolive Shaving Cream serves for 152 shaves.

Lather that remains
Then they wanted a lather which maintains itself without drying on the face.

So we perfected a lather which maintains its creamy fullness for ten minutes. That is ample time. This lather does not need replacement.

A soothing soap
They wanted a soothing shaving cream. They wanted a lubricated razor, no irritation, a pleasant after-effect.

The best way ever known to those ends is the blend of palm and olive oils. The lather is a lotion in itself.

130 creams were made
We are experts in soap making. But it took us 18 months to attain this ideal shaving cream. 130 formulas were made up and tested. Thus step by step these supremacies were attained, and the best shaving cream in existence.

Now we ask you to test it. Learn in how many ways it excels. It will lead the way to a lifetime of delightful shaves. Present the coupon for a trial tube.

PALMOLIVE Shaving Cream

The stores named below will supply the Free Tube on this Coupon

Ross Drug Co., 100 King St., St. John, N. B.
