### EXPECTS VOICE OF PEOPLE TO RULE

Lt.-Gov. Pugsley's Reference to Result of Recent Plebiscite on Prohibition.

The following is Moncton Transcript's report of Lieut.-Gov. Pugsley's address of welcome to the National Division S. of T. in Moncton:—  
"Lieutenant Governor Pugsley warmly welcomed the visiting delegates to New Brunswick, adding an especial welcome to the delegates from the United States. His Honor briefly sketched the advantages of the various provinces of the Dominion, comparing New Brunswick most favorably with any referring to temperance matters. Lieut. Governor Pugsley said the torch of sobriety and right living had been held aloft in his boyhood days in the town of Sussex by a division of the Sons of Temperance, which still contains a big percentage of good work along this line, coupled also with the torches of morality and Christianity. His Honor, referring to the recent referendum on the Prohibition question, said he did not in any position to say what action the government would take, as he did not know, but as New Brunswick formed a part of a very advanced democracy, it could reasonably be expected that the voice of the people would rule."

"His Honor compared the forms of government as they existed in United States and Canada, and expressed the conviction that the form of government in the Dominion was even more democratic than that of the American Republic. Governor Pugsley referred to the part played in the war by the sons of Canada and the United States and expressed gratification at the coming appointment of a Canadian Ambassador to Washington. In the best interests of humanity, and right it was for the people of both countries to work hand in hand for a common cause."

**GET BUSY.**  
To the Editor of the Times:—  
Sir—I have just returned from Woodstock, N. B., where I went to attend the horse races on the 12th and 13th and I must say after travelling over the main line provinces for twenty years, I have never witnessed such a sight in any city in New Brunswick as I did there. It is all to the credit of a lot of bright brainy live wire young business men who do things and do not make any grand stand play about it. Just think of the fine half mile track on an island of the size of the beautiful park surrounding it. The parade held on the 12th would have been a credit to a city as big as St. John, and on the race track on the 13th there were more than 8,000 people. Why is it St. John does not try to encourage the horse racing game, which is a sport that appeals to all. It is no wonder they call their race track the earlier track of Canada. I have seen a good many in my day, but Woodstock has the finest in Canada for a half mile track.

**HON. E. K. SPINNEY STILL A LIBERAL**  
In an interview with the Halifax Chronicle correspondent, Mr. Spinney stated his position as follows:—  
"When I entered Parliament I did so against my own inclination. I neither had nor have any political ambitions. I felt I was representing the Liberals of Yarmouth County at that time, and in entering the Cabinet now I still feel I am representing the Liberals of Nova Scotia. I am and will remain a Liberal and have made it very clear to Premier Meighen that, if anything should arise in the policy or conduct of the government which I consider injurious to the faith I have always professed it will be my duty to oppose it. That attitude is fully understood and concurred in and I am assured that there will be no material change in the tariff and other essential policies of the Government which would render my position embarrassing. Under such circumstances, and with the state of unrest now prevailing in the country, I believe it is my duty to help the Government to maintain conditions as stable as possible. There is no salary attached to the position, and it will be a financial loss to me to accept."

**BASEBALL**

Stewart, third base; O'Keefe, short-stop; Garnett, centre field; Howard, right field; Marshall, left field.

### The Secret of a Successful Sleep

Emerson, in his essays on the English refers to them as being adepts in the art of "raising the solid bar of sleep between day and day."

But Emerson lacked the knowledge of what the Hercules Steel Spring can do towards ensuring a successful sleep. He wouldn't have endorsed the English alone.

We are selling the Hercules Steel Spring and therefore are in a position to know its worth. This, coupled with what our customers say of it.

Possibly we can equip your bed with a Spring and Mattress which will make sleep restful for you.

Couch Hammock? Why certainly! We have the very one you want.
