

More Loyal Than She Ever Was

War Has Remarkable Effect on Imperial Relations of India

Anarchists Checked—General and Deep Desire for Education in Eastern Empire

"Since the war started there has been a new and splendid outburst of loyalty to the British Empire in India," said Dr. J. N. Farquhar in the course of his lecture on "The Indian Empire and the War" at the Convocation Hall of the University of Toronto, the other night. "We all know India was loyal before the war," he added, "but few were prepared for such an outburst of loyalty and generosity as we witnessed on the part of the people of India. They seized the great truth that Britain was on the side of right, fighting for the best interests of the world. The Indian army was not a large force before the war, but today it numbers one and a half millions. The main relation of India to the Empire has been settled once and for all. The people have shown perfectly magnificent loyalty to the Empire during the war. There have, of course, been the anarchists, who have been fighting the British government with murder and burglary for nine years before the war. For two years their activities were checked, but shortly after the war opened they began again, and fearful murders, burglaries and outrages went on for nearly two years. The government tried for two years to get the better of the conspirators by pursuing ordinary methods. That

policy proved a failure and they finally decided to intern every man whom they had good reason to believe was an anarchist or a conspirator, with the result that in a short time the outrages practically ceased.

"The second group where bitterness appeared was among the old Nationalists of India. Their leaders induced a number of Mohammedan leaders to join the National Congress with the cry, 'If some rule had been granted to India the natural and almost inevitable result would have been to make government practically impossible. It would have led to a violent collision between the legislative body and other bodies and India would not have advanced one step toward real, responsible representative government. It was simply another form of autocracy and would not have helped toward the only goal which in these modern times thinking men can look for in a great country.'

"In August, 1917, the British House of Commons made changes in the constitution of India to give the Indians a larger share in the administration of India, with a view to free, responsible government within the British Empire. The process was to be gradual. Britain has

Heart Palpitated Could Count Every Beat

When the heart begins to palpitate, it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weakness, fainting and dizzy spells.

When the heart gets into this condition, you become weak, worn and miserable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nerve derangements.

Mrs. Walter Greives, Apsley, Ont., writes: "I had been run down, and doctors told me I was anemic, but did not help me with their medicines. I could not sleep nights, my heart palpitated so, and I could count every beat. I used to have such dizzy spells I would have to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work. I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to some one who is suffering the way I did."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

deliberately decided to do all that can be done to train the people of India to govern themselves, and it is my firm belief we shall succeed.

"The home rulers of India said, 'We must have home rule.' On the other hand large numbers of the lower classes said home rule would mean Brahmin rule, and did not want it. Hon. Mr. Montague, minister for India, took the middle course, which will finally lead to free government in India.

"I believe there will be great economic progress. The government is willing to spend large sums of money on education, and many of the educated class are now clamoring for universal education. The war has shaken the people of India as well as here. The soldiers are feeling that education is most necessary. Proposals of the British government fit in with the ideas expressed in connection with the League of Nations. The duty of the advanced peoples will be to lift the backward peoples. How can we help India? By getting trustworthy knowledge of India; by giving sympathy to India; and by having a real fellowship with educated Indians and meeting them as our full brothers."

THEM WAS THE DAYS

(Lethbridge Herald.)

"Them was the days." Ever hear an old-timer spring that one? And no wonder. Listen to this from an Idaho old-timer writing about the days before bone-dryness was the fashion:

"In 1899 I was in the lobby of the senate in Boise when a member introduced a very mild measure curbing the liquor interests a small fraction ahead of 'wide open,' that Idaho had always had. There was a decided shock among the members of that body as though some tragic event was about to be sprung upon them. But the lieutenant-governor, a Silver City saloon-keeper, was equal to the occasion; with a broad grin he referred the bill to the committee on irrigation. This relieved the

THOUGHT IT WAS A BUI

Doctor Said Abscess

Mr. Gleason R. Young, Kingscroft, N. B., under date of Feb. 9th, 1918, writes us as follows: "About five months ago a lump came on my jaw-bone. I thought it was a boil, and after it had been there quite a while it began to get larger. I went to a doctor and he said it was an abscess, and lanced it. He gave me a wash for it, so I went by his directions until it healed up, but it commenced coming again, and in about three weeks it broke itself. I thought it would get better, but it didn't. A neighbor advised me to get a bottle of Burdock Blood Bitters, so I sent and got a bottle, and by the time it was all gone, the abscess had disappeared, and now it is all better."

Burdock Blood Bitters will heal and dry up sores, ulcers, and abscesses, no matter how large or of how long standing. If you have never applied it to a cut, wound, sore or ulcer, just try it and see what soothing, healing, cleansing power it possesses. It takes out itching, stinging and burning, and promotes the growth of healthy flesh. So, too, when taken internally, by its power of eliminating all impurities from the blood and making that vital fluid rich, red and pure, it cuts off the origin and source of the foul matter that goes to make boils, pimples, sores, ulcers, abscesses and the like, and at the same time the purified and enriched blood creates healthy tissue where there was formerly, perhaps, a sore full of pus.

situation and the members breathed easier. All were sure it was sent to its final sleep. But behold what twenty years have wrought. The old philosopher was right: "The world do move."
